sibility of Thaw's will as Testimony. Testimony of To-day. Mrs. Shaw Identified the Note.

New York, Feb. 11 .- The defense plans to call to the stand Lawyer Perkins, of Pittsburg, said to have drawn the will, said to have been signed by Harry Thaw the night o. his wedding.

It is said the defense will try to grove by him that the interlineations appearing on the document were made before Thaw signed it. It looks as if Mrs. Thaw's testimony will be interrupted a few days while the lawyers argue over the admissability of the will.

On this will the defense relied to show that the story which Evelyn Thaw has testified she told her hushand unhinged Thaw's mind. Just what the will contains is only known to the defense and Jerome. It is ertain, however, that the name of white is in the will. It is reported that Thaw will not go on the stand except in an emergency.

The First Witness. J. Dennison Lyon, a Pittsburg panker, was the first witness. Jerome objected to the substitution of the new witness until Mrs. Thaw concludes and the argument ensued. Women Are Barred.

with the attorney general to know whether it is feasible to bar from the mails papers that give the full disgusting particulars of the Thaw case. He does not know whether it is feasible, but it is his wish that it should be done.

Is It Legitimate?

Postmaster General Cortelyou received the letter from the President and referred it to the assistant attorney general for the department for legal opinion.

No Greeting For Thaw.

Mr. Lyon identified an envelope shown him, which he said was sealed and evidently contained a package when handed to him. He said he

"Do you know if he ever carried a pistol anywhere except when he was New York?" "He never carried a pistol, except when in New York." **Objections** Sustained. The court sustained the objections by Attorney Jerome to the series of questions asked by the witness relative

to conversations with May McKenzie. Jerome objected on the broad ground that some alienist should show Thaw of unsound mind at the time of the oc Question as to Admis- currences, covered by the questions of the counsel.

Expert Testimony. Telling of the second visit to the tombs Dr. Wagner shid Thaw left the oom immediately. Further questions led to a long argument between the counsel as to the law covering expert testimony.

The Limit of Life.

The most eminent medical scientists are unanimous in the conclusion that the generally accepted limiticn of hu man life is many years below the at tainment possible with the advanced knowledge of which the race is now possessed. The critical period, that determines its duration, seems to be between 50 and 60; the proper care of the body during this decade cannot be too strongly urged: carelessness then being fatal to longevity.
