

Dramatic Feature of Thaw Trial Will be Mrs. Thaw's Testimony

The Feature of the Noted Trial This Week Will be the Testimony of Harry Thaw's Mother on Stand.

Jerome May Read into Evidence from Books on Insanity. Dr. Evans Resume of the Stand for Cross-Examination.

New York, March 4.—When the trial of Harry Thaw is resumed Dr. Briton Evans, will take the witness chair so District Attorney Jerome can finish his cross-examination. The question as to whether the district attorney may read into the evidence extract from books on insanity will be ruled on by Justice Fitzgerald. If these extracts are admitted Jerome will try to show by them that Thaw's symptoms, as described by the witness, indicated that the prisoner was suffering from paranoia.

The dramatic feature of the trial this week will occur with the appearance in the witness chair of Mrs. William Thaw the prisoner's mother. It is said to be the wish of the defense to impress upon the jury the steadfast devotion of the mother and wife of the prisoner in the hour of need.

Mrs. Thaw's testimony, it is said, will be in the line of the pre-natal influence which made Harry Thaw nervous. Resuming the cross examination of Dr. Evans, District Attorney Jerome asked:

"Doctor, reverting to the night of the shooting of White, does the fact that the defendant walked deliberately away without excitement after the shooting, appear to you to be an important fact in determining whether or not the defendant was insane?"

"Yes, it leads me to believe he was of unsound mind—that is, when taken in connection with the other incidents."

The fact that at that time Thaw's step was slow and measured and his manner somewhat dramatic, and that he manifested no agitation, that he walked deliberately away without any effort to escape, taken in connection with the other facts indicated to the witness that he didn't know he had done anything wrong, didn't know that he had done anything that should make him shrink from his fellow-men or from the officers of the law. "Then his attitude was the end of satisfaction with his deed."

"I would hardly go as far as that," "When he walked toward his wife did he know in which direction he was going?"

"In view of the fact that he walked toward his wife, it seems to me he did know."

"The fact," said Jerome, "that Thaw told the fireman who seized him, 'He ruined my wife,' does that indicate to you this defendant knew he had killed White?"

"It indicates to me," replied Evans, "that this one thought which had weighed down upon him—which had been devouring him—was still with him. This idea of his wife being ruined by White was still in the forefront of his thought."

"What mental process in the defendant is conveyed to your mind by his stating on the roof garden after his arrest, when told at the elevator that an officer had been sent for, 'I've got to go down some time, for you might as well take me down the elevator now. I don't want to cause any annoyance.'"

"As to whether the man was sane or insane," replied Evans, "the remark conveys nothing. It may simply have meant that there was a crowd at the elevator and he did not want to annoy anybody by obstructing the way."

Explained Shooting. In the moments immediately following the shooting of White, the witness said, Thaw might have had an insane appreciation of all the incidents. There was, said Evans, nothing in the evidence to show Thaw knew he had been arrested for killing White, and the only thing tending to show he did know it was his statement, "that it was the act of Providence."

"When he was on the elevator did he know what he had done?" "There had been by that time a re-organization of his mental forces and by that time he knew that he had done something."

"Therefore if there had been a brain storm he had recovered in this short time sufficiently to know what he had done?" "That is one of the characteristics of brain storm, but I can't say whether or not he knew at that time what he had done."

The witness believed that in the brain storm the defendant had an insane knowledge of what he did—not the knowledge of a sound mind.

President's Son Ill. Washington, March 4.—Considerable improvement is shown in the condition of Archie Roosevelt, son of the President, who has been ill with diptheria.

Last Sitting Of Congress

House and Senate Met Early To-day for Last Sitting of the 59th Congress. Matters Attended to on Last Day.

Washington, D. C., March 4.—Both houses of Congress met unusually early, the hour being 9:30 for the last sitting of the 59th Congress. The attendance was slim—both in the Senate and House. Those present showed unmistakable signs of fatigue, due to almost continual meetings since Saturday morning.

Both Vice-President Fairbanks and Speaker Cannon were prompt in arriving and each called to order the body over which he presides.

The House proceeded with business as if the entire session was still before it, but the Senate, finding itself without a quorum and with all absolutely necessary routine business disposed of, took a recess a few minutes after assembling, and it was at once made evident that there would be no further serious efforts to secure action on the ship subsidy bill, or upon any disputed measure.

Senator Carmack was in his seat when the session began and his desk was piled high with a formidable array of documents, showing his preparedness to continue the fight against the consideration of the ship subsidy bill.

He openly declared his purpose of speaking until 12 o'clock if necessary, but the motion for a recess evidently was welcome news to him.

Clark Given Ovation. "My Country, 'Tis of Thee," rang out in the chamber of the House as the clock was turned back 15 minutes in order that the bill limiting the hours of labor of railroad employees might be enacted.

The speaker called Mr. Clark of Missouri to the chair and as he ascended the rostrum an ovation was given him. Mr. Williams, minority leader, addressed the House, saying that the work performed by the 59th Congress would stand as the best work the nation has had in many years.

He spoke of the speaker, "The speaker whom every one loves for his big brain, his big heart and his impartiality."

He congratulated the House on having such a man for its presiding officer. Williams then presented a resolution extending the thanks of the 59th Congress to the speaker.

The speaker replied expressing his thanks for the kindness shown him and paid a tribute to the work of the 59th Congress.

Congress Adjourned. The Senate adjourned at 12:15. The House adjourned at 12:30.

The hands of the clock in both House and Senate had to be turned back to show the noon hour of adjournment according to the law. The delay was caused by the lateness of the hour when the Senate passed the hours of the arbor bill. It was the last signed by the President before the expiration of the 59th Congress.

Hou's of Labor. The Senate and House agreed to the conference report on the bill limiting the hours of service of railway employees, as agreed upon by the conferees.

The adoption by both was by an unanimous vote. The agreement limits daily service of railway telegraphers to 9 hours, with no provision that the requirement may be extended to any particular cases when the proper showing is made to the Inter-State Commerce Commission.

"In 1897 I had a stomach disease. Some physicians said Dyspepsia, some Consumption One said I would not live until Spring. For four years I existed on boiled milk, soda biscuits, and doctor's prescriptions. I could not digest anything I ate; then I picked up one of your Almanacs and it happened to be a life-saver. I bought a fifty-cent bottle of KODOL and the benefit I received from that bottle all the gold in Georgia could not buy. In two months I went back to my work, as a machinist, and in three months I was well and hearty. May you live long and prosper."—N. C. Cornell, Roding, Ga., 1906.

The above is only a sample of the great good that is daily done everywhere by Kodol For Dyspepsia. It is sold here by

The Gavel Fell. Washington, D. C., March 4.—In the closing moments of the Senate, Allison took the chair when Senator Blackburn offered a resolution, extending the thanks of the Senate to Vice-President Fairbanks.

The latter responded, returning thanks to the Senate at the conclusion of which the gavel fell.

You should be very careful of your bowels when you have a cold. Nearly all other cough syrups are constipating, especially those containing opiates. Kennedy's Laxative Cough NO opiates. Conforms to National Pure Food and Drugs Law. Bears the endorsement of mothers everywhere. Children like its pleasant taste. Sold by C. M. Shuford & W. S. Martin.

Steamer Proceeds. London, March 4.—Advices from Dover state that the steamer Vaderland, which was grounded on the Goodwin Sands, got off and proceeded on its voyage.

THREE OFFICERS SHOT BY NEGRO

Chief Chason and Two Officers While Raiding a Blind Tiger in Fayetteville are Shot by the Proprietor Negro Captured.

Fayetteville, N. C., March 4.—Saturday night at seven o'clock Chief of Police Chason and two policemen, Lockamy and Buckingham, while raiding a blind tiger, were shot by a negro, Tom Walker, the proprietor of the blind tiger.

Policeman Lockamy was instantly killed and Chief of Police Chason shot through the head and mortally wounded. Policeman Buckingham was shot in the shoulder and side and little hopes are entertained for his recovery. The negro was so far encephal capture.

The murder is a well known and desperate character. With him at the time of the shooting was a white man, a stranger in the city, who was apprehended and is now in the county jail. The wife of Walker has been locked up for safe keeping.

Intense excitement prevails throughout the city. The streets were thronged with an angry Saturday night throng. Searching parties were organized and dispatched to watch all country roads and to search all passing trains.

The sheriff wired to Wilmington to send bloodhounds by special train. The local company of military was under arms and a \$1,000 reward offered by the city and county for the body of Walker, dead or alive.

The man who is locked up in jail as a witness gives a clear statement. He says that he was drinking a bottle of beer at the time that Chief of Police Chason read to Walker the warrant for a search, and the negro replied, "Search all you please."

But as soon as the search was begun and the policemen had turned their backs, the negro, with an oath, exclaimed, "You have tracked me down; now I'm going to shoot you like dogs."

He then fired six shots in succession, and when the smoke cleared away all three policemen were found shot as described. He then placed the pistol to the face of the witness and ordered him to go to the next house and tell his mother to send him fifty dollars, which being done, the negro escaped, and the man came up town to tell the startling story and summon medical assistance.

A physician was rushed to the scene of the murder and found one policeman lying on the floor in a pool of his own blood and life almost extinct, another lying on a pile of whiskey flasks and empty bottles dead, the other and the only possible survivor, on the bed shot in two places and unconscious.

This last policeman was sufficiently aroused to tell the name of the murderer and to identify the witness, and then again became unconscious.

His ante mortem deposition has since been taken and he corroborates in the particulars the man who is jailed as a necessary witness. Chief

Wilmington, N. C., March 4.—A long distance telephone message from Fayetteville at midnight Saturday says that Tom Walker, the negro who shot and instantly killed Policeman Lockamy there Saturday night, and wounded Chief of Police Chason so that he may die, and probably fatally wounded Policeman Buckingham, has been captured at Dunn, N. C. He will be taken to Raleigh for safe keeping. Great excitement prevails in Fayetteville. The governor has put a local military at the command of the sheriff and mayor of the town.

Raleigh, N. C., March 4.—The negro, Tom Walker, who was arrested Saturday night at Dunn, Harnett county, for shooting three policemen at Fayetteville, while the officers were raiding his place as a blind tiger, was brought here Sunday afternoon and committed to the penitentiary for safe keeping.

He says that he has no regrets for his crime. He will be kept in the penitentiary for safe keeping until arrangements are made for his trial, which is to be just as speedy as possible.

Governor Glenn said this morning he is much gratified at the course the people of Fayetteville have pursued in not trying to prevent the bringing of the prisoner to Raleigh and he feels sure there will be no interference now with the due process of the law.

Also that it is his desire to bring the negro to justice just as quickly as possible.

To this end he says he is ready and anxious to call a special term of the Superior Court whenever the Fayetteville authorities desire it for the trial of Walker.

TO PROSECUTE TOBACCO TRUST Washington, March 1.—A decision was reached at a conference at the White House today that the prosecution inaugurated some time ago in New York against the Tobacco Trust, shall be continued.

Announcement to this effect was made at the conclusion of the conference, in which Attorney General Bonaparte, Henry W. Taft, of New York, and Henry L. Stimson, of New York, participated.

Messrs. Taft and Stimson left for New York immediately after the conference. Mr. Taft's place in the conduct of the prosecution has been taken by Mr. McReynolds. Those at the meeting declined to discuss the details of what further steps may be taken.

You wouldn't be so stuck up if you heard all other people say about you.

Trial of The Mill Men

Two Witnesses Testified Today as to Cotton Mill Labor of the Country. Many Witnesses to be Examined Yet.

Greensboro, N. C., March 4.—There were no sensational developments in the trial of the Charlotte cotton mill men in the Federal Court today.

The entire morning session was consumed in reporting the testimony of Albert Hibberd and John Golden, the mass of whose evidence was in reference to the cotton mill labor of the country.

Hibberd testified that there was plenty of idle labor of the kind imported by the defense from England. He was given a vigorous cross-examination and modified his statement to some extent under Mr. Candler's questions.

District Attorney Holton stated that a dozen or more witnesses will be introduced for the government before he rests his case and it is said that the defense will put at least 50 witnesses on the stand.

The attendance today was much smaller than at any former session of the trial.

GETS RHODES SCHOLARSHIP.

Mr. W. P. Mills Awarded the Scholarship for South Carolina—Other Applicants.

Columbia, S. C., March 4.—The vacant Cecil Rhodes scholarship for South Carolina has been awarded to Mr. W. Plummer Mills, now a post graduate student at the University of South Carolina in Columbia. Mr. Mills takes the place made vacant by the tragic suicide of Mr. William H.erner of this city, a brilliant young man who shot himself to death at Morganton, N. C., near the depot, soon after he

completed a year ago. He had been in ill health for some time and was home from Oxford on sick leave.

Mr. Mills is a native of Camden and a graduate of Davidson college, where he took a very high stand, and he is highly regarded by all who know him. There are two other young men from this state who have exemption for the Rhodes scholarships and when they get a vacancy one of them will get a scholarship, without having to stand another examination. These two are C. S. Brice of Winnsboro, and J. H. Taylor, of Charleston.

The Rhodes scholarship board for this state is composed of President Benjamin Sloan of the University of South Carolina, Profs. Geer of Furman, Rembert of Wolford, Haneschild of Newberry, Dela Torre of Charleston and Bain of South Carolina. All of the were present yesterday when the award of the Oxford board was opened.

For weak kidneys and lame back use DeWitt's Kidney and Bladder Pills. Best for lumbago, rheumatism, bladder and other troubles arising from bad blood. They cleanse the kidneys and clear the system. Indorsed and sold by C. M. Shuford & W. S. Martin.

Ship Subsidy Bill. Washington, D. C., March 4.—The Senate resumed session at 9:30 as in the legislature day of Saturday.

Senator Carmack was on his feet to continue his filibustering against the ship subsidy bill. There was no other business ready, so Senator Hale moved a recess be taken until 10:15. The motion was adopted.

Itching Pills. If you are acquainted with anyone who is troubled with this distressing ailment, you can do him no greater favor than to tell him to try Chamberlain's Salve. It gives instant relief. This salve also cures sore nipples, tetter and salt rheum. Price 25c. For sale by Shuford Drug Co.

Sweetenham to Resign. London, March 4.—The resignation of Governor Sweetenham of Jamaica, has become an accomplished fact. He will leave the island as soon as his affairs can be arranged.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; bays, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The immediate effect of Swamp Root is soon realized. It is sold by drug, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

CAUGHT BY THE GRIP-- RELEASED BY PE-RU-NA.

La Grippe Is Epidemic Catarrh.

THE disease now known as 'grip' used to be called 'influenza.' It very closely resembles a cold, but is more tenacious in its hold upon the system and produces more profound disturbances.

Grip is in reality epidemic catarrh. When it once begins it spreads over the country very rapidly.

People do not catch the grip from each other, but each one catches it from the atmosphere.

"Most Effective Medicine Ever Tried for La Grippe."

Robt. L. Madison, A. M., Principal of Culowhee High School, Painter, N. C., is chairman of the Jackson County Board of Education.

He is a writer of occasional verse and has contributed to a number of leading papers and magazines,—religious, educational and secular.

In speaking of Peru, Mr. Madison says:

"I am hardly ever without Peru in my home. It is the most effective medicine that I have ever tried for la grippe."

"It also cured my wife of nasal catarrh. Her condition at one time was such that she could not at night breathe through her nostrils."

"In consequence, an inflamed condition of the throat was brought about, getting worse and worse and yielding to no remedy until Peru was tried."

Healthy Mucous Membranes. Those who are fortunate enough to have perfectly healthy mucous membranes ordinarily do not catch the grip.

The mucous membranes lining the nose, throat and lungs, when in a normal state, are an effectual barrier against the invasion of grip.

But, if there happens to be the slightest catarrhal derangement of the mucous membranes, then the victim becomes an easier prey to the grip.

This in part explains why some people get the grip, while others do not.

The rational thing to do is to keep the system free from catarrh. In attempting to do this most people have found Peru to be invaluable.

Systemic Catarrh, the Result of La Grippe. Pe-ru-na Receives Credit for Present Good Health.

Mrs. Jennie W. Gilmore, Box 44, White Oak, Ind. Ter., formerly Housekeeper for Indiana Reform School for Boys, writes:

"Six years ago I had la grippe, which was followed by systemic catarrh. The only thing I used was Peru and Manalin, and I have been in better health the last three years than for years before."

"I give Peru all the credit for my good health."

Suffered Twelve Years From After-Effects of La Grippe.

Mr. Victor Patneaud, 323 Madison St., Topeka, Kan., member of Knights and Ladies of Security, writes:

"Twelve years ago I had a severe attack of la grippe and I never really recovered my health and strength—but grew weaker every year, until I was unable to work."

Steamer Ashore. Flushing, Holland, March 1.—The Dutch mail steamer Keningen Wilhelmina went ashore during the fog on the Dyke eastward of the entrance harbor. The passengers were landed and the vessel is expected to float at high water.

The winds of March have no terror to the user of DeWitt's Carbolicized Witch Hazel Salve. It quickly heals chapped and cracked skin. Good too, for boils and burns, and undoubtedly the best relief for Piles. Sold here by C. M. Shuford & W. S. Martin.

One Other Nomination. Washington, D. C., March 4.—Of the nominations remaining unconfirmed was that of O. R. Hundley to be United States Attorney for the Northern District of Alabama.

Do Not Crowd the Season. The first warm days of spring bring with them a desire to get out and enjoy the exhilarating air and sunshines. Children that have been housed all winter are brought out and you wonder where they all came from. The heavy winter clothing is thrown aside and many shed their flannels. Then a cold wave comes and people say that grip is epidemic. Colds at this season are more dangerous than in mid-winter, as there is much more danger of pneumonia. Take Chamberlain's Cough Remedy, however, and you will have no fear. It always cures, and we have never known a cold to result in pneumonia when it was used. It is pleasant to take. Children like it. For sale by Shuford Drug Co.

FIREMANS RELIEF FUND.

House Today Passed Bill to Create Such a Fund.

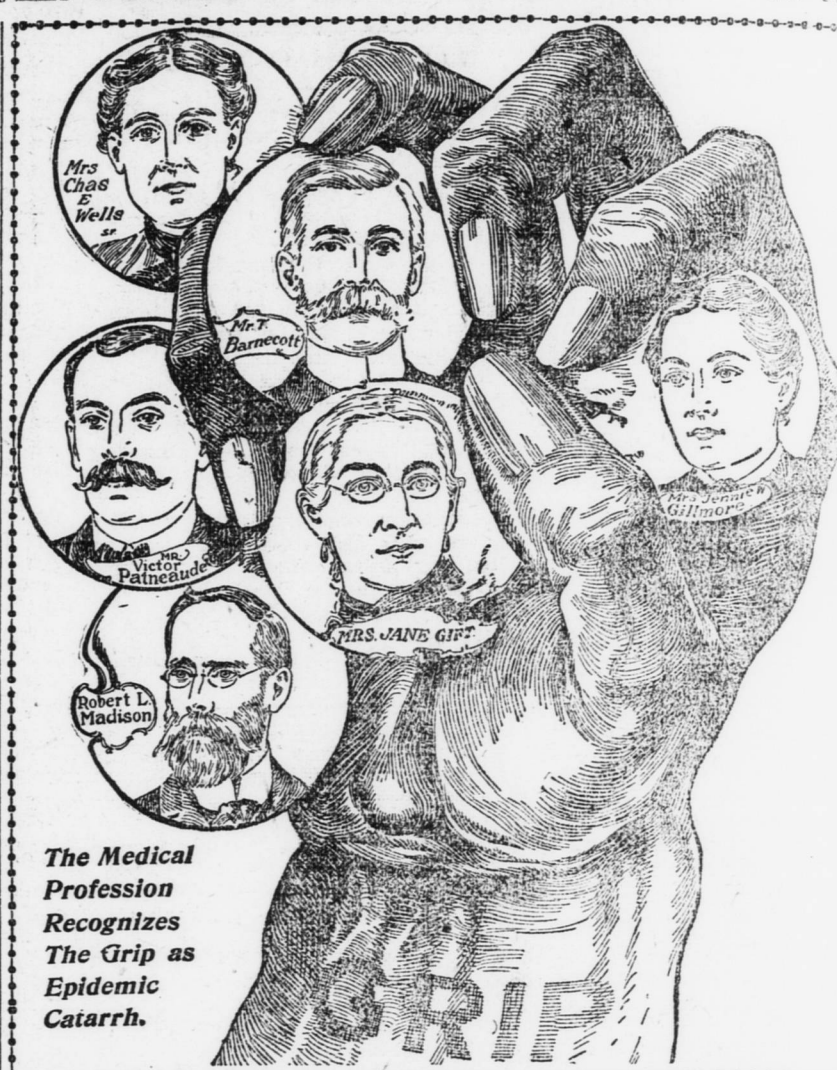

Raleigh, N. C., March 1.—The House passed a bill to create a fireman's relief fund and increase the efficiency of fire departments in North Carolina. The bill provides that in towns where the fire equipment exceeds \$1,000 a tax of 1 per cent on the gross premiums of insurance policies shall be levied and the proceeds used for the benefit of the families of firemen killed and in cases of injury and illness.

Fertilizer Trust Cases.

Washington, D. C., March 4.—The fertilizer trust cases, involving the right of the United States to compel the removal of indicted officials of the fertilizer companies constituting an alleged trust from Virginia to Tennessee for trial, were decided by the Supreme Court adversely to the government's contention.

A free bottle of Dr. Thacher's Liver and Blood Syrup will be sent to any reader of this paper who will write to the Thacher Medicine Co., Chattanooga, Tenn.

The family medicine in thousands of homes for 52 years—Dr. Thacher's Liver and Blood Syrup.

The Medical Profession Recognizes The Grip as Epidemic Catarrh.

During an epidemic of grip Peru should be used. The doses recommended on the bottle are sufficient.

After the grip has once been acquired, Dr. Hartman recommends the use of Peru in teaspoonful doses every hour during the acute stage, after which the directions on the bottle should be followed.

Experience has shown that the people who use Peru as a remedy for grip generally recover sooner and are less liable to the distressing and long-continued after-effects of the grip.

When Peru has not been used during the course of the grip and the patient finds himself suffering from the after-effects of this disease, a course of Peru should be resorted to.

Two years ago I began using Peru and it built up my strength so that in a couple of months I was able to go to work again.

"This winter I had another attack of la grippe, but Peru soon drove it out of my system. My wife and I consider Peru a household remedy."

Pneumonia Followed La Grippe. Mr. T. Barncott, West Aylmer, Ontario, Can., writes:

"Last winter I was ill with pneumonia after having la grippe. I took Peru for two months, when I became quite well, and I can say that any one can be cured by it in a reasonable time at little expense."

Pe-ru-na—A Tonic After La Grippe. Mrs. Chas. E. Wells, Sr., Delaware, Ohio, writes: "After a severe attack of la grippe, I took Peru and found it a very good tonic."

Mrs. Jane Gift, Athens, Ohio, writes: "Six years ago I had la grippe very bad. I read a testimonial of a woman who had been cured of grip by Peru. My husband bought me a bottle of Peru. I was soon able to do my work. I continued using it until I was cured."

Last of the Lovejoy Defenders. Xenia, Ohio, March 4.—James Cromwell of this city, who is said to be the last survivor of the men who defended Elijah Lovejoy, at the time of his assassination at Alton, Ill., or who were in any way concerned with the killing of the Alton preacher-editor, observed his ninety-third birthday today. Mr. Cromwell is still in good health and clearly recollects the incidents of the killing of Lovejoy, which occurred November 7, 1837.

Schooner Stranded. Norfolk, Va., March 4.—The wrecking steamer, William Coley, left for Cape Lookout Inlet, N. C., to make an effort to save the schooner William Neely which is stranded there, bound to Charleston, S. C.
