

Growing Girls

Growing girls need care, advice and medicine, especially on reaching the age of puberty. A mother's tender care and words of caution will often accomplish wonders. As for medicine, a gentle, safe and reliable strengthening tonic is Wine of Cardui.

It will prevent and relieve pain, regulate the functions, clear the complexion and strengthen the constitution.

It is a valuable medicine for growing girls. It has tided thousands over a critical period, and saved them from years of suffering. It can never do harm and is sure to do good.

A relief or cure for all female disorders in girls and women.

At every druggist's in \$1.00 bottles. Try it.

WINE OF **CARDUI**

Mr. William Randolph Hearst Delivers Chief Address at Jamestown

Norfolk, Va., Sept. 2.—William Randolph Hearst delivered the Labor Day address at the Jamestown Exposition today. In part, he said:

"Labor Day should rank with the Fourth of July as a characteristic American holiday. The Fourth of July commemorates the means by which we gained our independence as a nation and Labor Day commemorates the means by which we have made our nation the most powerful, most progressive, most prosperous of any in the world. In this country labor is universal and is universally honored and appreciated.

"I have no patience with the prejudices which exist between the alleged classes when the classes themselves do not really exist. There is no reason for hostility between the employer and the employee, between the capitalist and wage-earner. Capital is but the accumulation of the wealth which the employees and employer create together. Wages are but the division of profits, both employer and employee are entitled to their share of the profits, and as long as the division is just and equitable there is no occasion for conflict. If the division is not just, it can be made so by arbitration and there is still no occasion for conflict. The condition of class hatred as has developed in Colorado is a curse to this country. There should be no prejudice entertained by the capitalist towards the laborer and there should be no prejudice by the laborer towards the capitalist. The great financial promoters, organizers, executives of America are worthy of recognition and reward. Let them have a liberal share of that wealth as long as that is the incentive which stimulates them to useful activity. The riches they amass and call their own are seldom spent in extravagance and luxury upon themselves, but are put back into new industries to produce more wealth and employ more men.

"Labor unions and farmers' unions are valuable not only to their own members but to the whole community and the honest law-abiding organizations of capital are valuable not only to their own stockholders but to the whole community. There is no greater danger to our form of government, to our popular rights and our public morals than the corrupt use of the great power of corporate wealth. You hear much today of how the mayor of San Francisco has fallen, but you hear little of how the powerful public service corporations tempted this wretched human being to great wealth and brought the once respected man to ruin and disgrace.

Farmer In The Best Of Shape

New York, Sept. 2.—The American farmers' earnings are a thousand million dollars greater this year than last, according to a preliminary report on next issue of the American Agriculturist which will be published in the fall.

This big gain will be entirely due to the increased prices of farm products, as the production in general will be fully ten per cent less in quantity than in 1906, which was the bumper year.

"The farmer was never in so healthy a position as he is today—financially, socially, politically, mentally, and spiritually," says the report.

"The increase in the value of his real estate has been prodigious. He owes less money than ever before. He has more assets than ever. Again, he is in the market for more and better breeding stock, farm implements, household goods and other merchandise."

Traverse, Sept. 2.—M. Francois, the French aeronaut, who assisted Walter Wellman, of the Wellman-Chicago Record-Herald Arctic expedition, in the construction of his balloon, interviewed at Port Harbor, and he was invited to take part in the expedition but refused, as he doubted the safety of Mr. Wellman's plans.

National Irrigation Congress Holds Meeting

Sacramento, Cal., Sept. 2.—With delegates present from all the states west of the Mississippi River, representing practically every commercial organization in the great territory included in the semi-arid and arid region of the country, the National Irrigation Congress began its fifteenth annual session here today to discuss ways and means to "save the forests, store the floods, reclaim the deserts and make homes on the land."

The sessions will continue until Saturday, and during that time much important action is expected to be taken looking toward the reclamation of the vast unsettled territory of the west that but awaits the touch of water to blossom as the rose.

The live interest taken in the congress and its objects is evidenced by the large and representative attendance. In addition to Governor Chamberlain of Oregon, who is the president of the congress, the executives of several other western states are already here or are expected before tomorrow. Others in attendance include several United States Senators, government experts in forestry and irrigation and representatives of many commercial organizations and colonization movements. Heading the list of prominent participants and speakers is Charles W. Fairbanks, vice president of the United States, whose address is scheduled as the feature of the initial session.

The presence of Gifford Pinchot, United States forester, and several other representatives of the administration in Washington leads to the belief that a lively debate is on the tapis on the subject of the administrative policies with reference to the public land. If the subject is introduced it will probably precipitate as lively a discussion as that had on the same subject at the forestry congress held in Denver some months ago, and in which the government policy was defended by Mr. Pinchot and others against the assaults made by many of the most prominent public men of the western states.

Cunard Line Will Reduce Its Eastward Atlantic Fares

Liverpool, Sept. 2.—The Cunard line has issued an official statement to the effect that it will be obliged to follow the example of its competitors and reduce its eastward Atlantic fares.

This action has been expected as otherwise with all lines running from the continent to the channel ports accepting lower rates much of Liverpool traffic might have been diverted. The situation is regarded as serious.

The most interesting question is with the Cunard lines competitors make further reductions. There is little doubt that while the rate-cutting at present is confined to American eastward traffic, eventually it will affect the Canadian trade. The American lines have been fostering the Canadian traffic via New York and Boston and it appears that the Canadian lines will be compelled to reduce or else lose their business to American boats.

The Day At Raleigh

Raleigh, N. C., Sept. 2.—Governor Glenn and State Treasurer Lacy were the special speakers for the Labor Day celebration here.

The governor paid tribute to the dignity of labor, dwelt on the necessity of organization and the right use of that organization, the features of the right use being the protection of the mutual interests, to create real interests in the line of work which the members of the unions were allied, the resistance of any wrong against members, and at the same time to prevent any wrong by labor interest against any other interests.

State Treasurer Lacy followed Governor Glenn in a ten minutes talk on the dignity of labor and the importance of union, making a plea for maintaining the high character of the union, as well as for the individual members.

Labor Day At Salisbury

Salisbury, N. C., Sept. 2.—Labor Day is being fittingly observed here today. Business is practically suspended, the banks, postoffice, barber shops, the Spencer shops and many stores being closed; the schools also deferred their opening this morning. More than 1,200 union men are participating in the exercises. A parade at 10 o'clock was one of the features of the day. There were athletic sports, reel races and baseball this afternoon, and tonight a dance and fire-works display will take place at the park. There is a big crowd of visitors in the city.

SAVED HER SON'S LIFE.
The happiest mother in the little town of Ava, Mo., is Mrs. S. Ruppel. She writes: "One year ago my son was down with such serious lung trouble that our physician was unable to help him; when, by our druggist's advice I began giving him Dr. King's New Discovery, and I soon noticed improvement. I kept this treatment up for a few weeks when he was perfectly well. He has worked steadily since at carpenter work. Dr. King's New Discovery saved his life." Guaranteed best cough and cold cure sold by C. M. Shuford and W. S. Martin & Co., druggists. 50c and \$1.00. Trial bottle free.

Limoges, France, Sept. 2.—The Haviland porcelain works here are partially affected by the strike of 3,000 workmen which threatens to involve 15,000 men.

Yopoung married people and old ones, too.

That have no children to laugh and soothe.

Find their troubles will "little ones" be if they take Rocky Mountain Tea.

E. B. Menzies.

SALISBURY MAKES GREAT PLANS FOR HER COMING FAIR

Salisbury, N. C., Sept. 2.—Great activity prevails at the grounds of the Yadkin Fair Association, where a large force of men are at work getting everything in readiness for the first annual fair, which opens October 29th. Contractor Bradshaw is erecting the fence and buildings. Mr. J. W. Neave is placing a large filter and water system, Ester & Platt, of Greensboro, are building the track, which it is said, will be the finest in the state, and the Southern is building a side track from the western main line into the grounds. A depot will be built at the entrance and one at the North Main street crossing. A schedule has been arranged which will give twenty trains to and from the fair grounds every day.

Rites of Church For Late Archbishop Begun To-day

Boston, Mass., Sept. 2.—The first of the solemn rites of the church of the late Archbishop Williams began this morning with the escorting of the body from the Archbishop's residence to the cathedral of the Holy Cross, where on Wednesday the funeral services will take place.

The solemn pontifical mass in requiem followed.

A large concourse of people stood in the rain outside the towering cathedral as the procession passed.

The body will lie in state day and night for two days with solemn pontifical mass in requiem tomorrow, and a funeral mass will be on Wednesday.

Archbishop O'Connell, successor of the deceased, will preach the eulogy and funeral mass will be sung by Cardinal Gibbons.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out of this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

Winston Celebrated Day

Winston-Salem, N. C., Sept. 2.—Labor Day was celebrated here today for the first time by the labor organizations. This morning there was a parade through the principal streets to the Salem square, where the paraders took cars and went to the park, where the picnic was held. Several speeches were made there. This afternoon they will again come to town, form a parade and march to the carnival grounds. The men made a good showing today.

Cured Hay Fever and Summer Cold

A. J. Nusbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach the case, and I took several medicines which seemed to only aggravate my case. Fortunately I insisted upon having Foley's Honey and Tar in the yellow package, and it quickly cured me. My wife has since used Foley's Honey and Tar with the same success."

W. S. Martin & Co.

Erects \$50,000 Monument To His Famous Trotter

Chicago, Ill., Sept. 2.—Henry Graves, a pioneer racing man, who is near death's door, has incorporated in his will a provision for a \$50,000 monument to be erected to Ike Cook, his famous trotter which he owned fifty years ago. The monument will be placed in Washington park in this city.

WORKED LIKE A CHARM

Mr. D. N. Walker, editor of that spicy journal, the Enterprise, Louisiana, Va., says: "I ran a nail in my foot last week and at once applied Buckley's Arnica Salve. No inflammation followed; the salve simply healed the wound." Heals every sore, burn and skin disease. Guaranteed at C. M. Shuford and W. S. Martin & Co's, druggists. 25c.

Hurt in Auto Crash

Brescia, Italy, Sept. 2.—Elliott F. Shepard, of New York, while speeding over the fifth circuit in an automobile race here plunged into the river at Monte Chiari and broke his collarbone and otherwise slightly injured. Shepard's chauffeur, Ledmann, had his face cut and bruised.

Thousands March In Parade In New York

New York, Sept. 2.—More than five million men and women, members of labor organizations, spent today celebrating the one day in the year set apart in most of the states and territories in the union as a tribute to those who earn their daily bread. From all parts of the country comes the information that laboring men and women have fared well in the last twelve months and that the day will be celebrated with enthusiasm. There have been fewer labor controversies than usual, only four serious strikes having been recorded during the year. Such other disputes as have arisen between capital and labor have been settled by arbitration.

The general situation throughout the country is good from a labor standpoint. Wages, according to reports in the hands of the federal bureau of labor, were never so high in this country as now, nor were there ever so many men at work. Hours have shortened rather than lengthened and the remuneration, according to government experts, has generally kept pace with the increased cost of living.

In this city great preparations were made for the celebration of the day, the principal features of which were the parades this morning by members of the Central Federated Union and the Building Trades Councils.

It is estimated that there were 50,000 men and women, with 60 bands of music and a large number of floats in the parade of the Central Federated Union. The Building Trades Councils had about 20,000 men in line.

RESUME MAIL SERVICE

Direct Service Which Was Discontinued in April is to be Resumed.

New York, Sept. 2.—Direct mail service from New York to certain South American points, which was discontinued in April last in favor of shipments by way of Europe, is to be resumed immediately.

Although the European route was an improvement in the sense of being a regular service by which it could be calculated closely when mail would arrive at destination, the fact is that the slower direct boats from New York can make quicker time to the ports of call.

The protests of shippers to Brazil against sending mail by the way of Europe have caused the post office authorities to decide to hold out from the mails sent by that route material addressed to Pernambuco and Bahia. Except for places south of Bahia, all mail for Brazil is now to be sent by direct steamers from New York. This will insure the arrival of shipping papers with the cargo.

Man Run Over And Killed by Train at Chester

Chester, S. C., Sept. 2.—Mr. Claud Moore, yard master for the Southern Railway was run over and fatally injured by the swing train Saturday night.

When the train was within about 10 feet of him he stepped into the middle of the track.

As soon as he stepped upon the track engineer Jap Hall blew his whistle and put on emergency brakes, but it was impossible to stop until about half the engine had passed over the man's body. A big gash was cut in his head and he was frightfully mangled. He died yesterday morning about 4 o'clock.

Mr. Moore leaves a wife and one child. He was well known and liked by all who knew him.

Rev. V. Y. Boozer Is Installed As Pastor

Salisbury, N. C., Sept. 2.—Rev. Dr. George H. Cox, president of the North Carolina Lutheran Synod, spent yesterday at St. John's church, Cabarrus county, where he officiated at the installation of Rev. V. Y. Boozer as pastor of that church. Dr. Cox blessed the charge to the pastor and Prof. H. T. Fisher, of Mt. Pleasant spoke to the congregation. Rev. Mr. Boozer was formerly in charge of the Bethel and St. Paul churches in Rowan county. A big missionary rally was held at St. John's in the afternoon.

Over-Work Weakens Your Kidneys

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers. They filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits.

by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail.

Home of Swamp-Root, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

THE CENTAUR COMPANY, NEW YORK CITY.

Mining King At Salisbury

Salisbury, N. C., Sept. 2.—Mr. Walter George Newman, until lately president of the Gold Hill Copper Company, and Mr. James Phillips, a prominent figure in Boston financial circles, spent Saturday at Gold Hill making arrangements for the opening of the Eureka Consolidated Copper Company, a new mining corporation with a capital of \$10,000,000. This company owns 3,500 acres of land in this mining section, a portion of it lying in the heart of Gold Hill. In the company's holdings are included the Troutman and Stockton mines.

Mr. Newman, who has a reputation as a mining prophet, considers this one of the greatest mining properties in the country. He will for the present personally direct the affairs at the mines. Col. Fred Donnes, who has been associated with the Gold Hill Copper Company, becomes manager of the Eureka mines.

SUIT FOR GREAT FORTUNE

Man in Direst Poverty to Sue for Vast Amount of Money.

New York, Sept. 2.—Living in direct poverty in a little hall bedroom in this city is a man who is about to bring suit for the remnant of the \$2,000,000 estate Luther Marsh left to John J. Huyler, the husband of the famous lawyer's "spirit medium."

The man's name is Douglas A. Stuart. He declares that he is the adopted son of Luther Marsh and the natural heir to all the wealth the aged man left when, in 1902, he died in the Huyler home at Middletown.

Stuart claims that Marsh, who was once the law partner of Daniel Webster, was unduly influenced in leaving his property to Huyler.

Stuart, two years ago, failed in an attempt to have Mr. Marsh's will set aside.

RECOVERS FROM BLINDNESS

Actress Whose Sight Was Paralyzed Can Now See.

New York, Sept. 2.—Virginia Harner, the actress, it was stated today was stricken with blindness in New Haven, a few days ago, because of the strain of having many flashlight pictures taken of the various scenes in the play "Anna Karenina," in which she is to appear in this city.

Miss Harner came to this city for treatment and her doctors found that she was suffering from a temporary paralysis of the eyelids.

Today it is announced that the actress has fully recovered her sight.

THE NEW PURE FOOD AND DRUG LAW

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug Law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. W. S. Martin & Co.

Prince Leaves New York

New York, Sept. 2.—Prince Wilhelm's visit to New York came to a close with a sightseeing dash over the city that carried him from Harlem to Staten Island and back again.

The Swedish royal guest departs tonight for Niagara Falls, after which he will go to Boston. There he will embark on the cruiser Fylgia which sailed for Boston today.

FOUND AT LAST

J. A. Harmon, of Lizenore, West Va., says: "At last I have found the perfect pill that never disappoints me; and for the benefit of others afflicted with torpid liver and chronic constipation, will say: take Dr. King's New Life Pills." Guaranteed satisfactory. 25c at C. M. Shuford and W. S. Martin & Co., druggists.

Celebration Begun in Buffalo

Buffalo, N. Y., Sept. 2.—Buffalo blazed forth its Old Home Week welcome last night to the thousands who have returned for the seven days' festivities, huge electric arches in the streets and lights adorning public and private buildings. Throughout today the various registry stations have been crowded with home-comers writing their addresses in all parts of the United States and Canada. The celebration today was given over largely to the labor organizations of Buffalo and vicinity. There were also numerous athletic events and the Italian societies dedicated a monument to the composer Verdi.

A Masked Carnival

High Point, N. C., Sept. 2.—The young people of the town Saturday night enjoyed one of these popular masked carnivals at the Auditorium Skating Rink. This is the third one of these entertainments that has been given this summer, and the young people have been taking great interest in them. A prize of five dollars in gold has been offered for the best costumed lady, and a like prize for the best costumed gentleman, with several lesser prizes for the boys and girls.

Minnesota State Fair

Minneapolis, Minn., Sept. 2.—The Minnesota State Fair opened at Hamline today under most favorable auspices and with very flattering prospects for the most successful exposition ever held in this section of the country. Many improvements have been made in the grounds and several large exhibition halls erected since last year. The agricultural and manufacturing and live stock departments are unusually well filled. The race program, which will be inaugurated Wednesday, promises well.

High Point School

High Point, N. C., Sept. 2.—The graded schools at this place will open Monday, September 9th. Dr. Crowell, the superintendent, has just returned from a sixty days' tour in Europe and is now making all the necessary arrangements for the opening of school. He was accompanied by Mrs. Crowell on his European tour.
