NO USE TO DIE.

"I have found out that there is no use to die of lung trouble as long as you can get Dr. King's New Discovery," says Mrs. J. White, of Rush-bone, Pa. "I would not be alive only for that wonderful medicine. It loosens up a cough quicker than anything else, and cures lung disease even after the case is pronounced hopeless." This most reliable remedy for coughs and colds, lagrippe, asthma, bronchitis and hoarseness, is sold under guarantee at C. M. Shuford, E. B. Menzies, W. S. Martin druggists.

Present Troubles.

"Ah, pretty lady," said the fortune teller, "you wish to be told about your future husband?" "Not much," replied Mrs. Gailey. "I've come to learn where my present husband is when he's absent."

This is what Hon. Jake Moore, State Warden of Georgia, says of Kodol for Dyspepsia: "E. C. DeWitt & Co., Chicago, Ill.—Dear Sirs—I have suffered more than twenty years from indigestion. About eighteen months ago I had grown so much worse that I could not digest a crust of corn bread and could not retain anything on my stomach. I lost 25 lbs.; in fact I made up my mind that I could not live but a short time. When a friend of mine recommended Kodol, I consented to try it to please him and I was better in one day. I now weigh more than I ever did in my life and am in better health than for many years. Kodol did it. I keep a bottle constantly, and write this hoping that humanity will be benefited. Yours very truly, Jake C. Moor, Atlanta, Aug. 10, 1904," sold by C. M. Shuford, and W. S. Martin & Co.

We are sorry indeed to learn that Floyd Blackwell's eye is giving him a great deal of trouble and pain, so much that he and his father went to Hickory Saturday and had the eye taken out.—Lenoir News.

Editors and Doctors.

One good, healthy doctor bill would run a printing office a month. An editor works all day for \$1.00 with an investment of \$3,000. A doctor looks wise and works ten minutes for \$2.00 with an investment of 3 cents and a pill box that cost \$1.37. A doctor goes to college a few years, gets a diploma and a string of words the devil himself can't pronounce, cultivate a look of gravity he palms off for wisdom, gets a box of pills, a meat saw and sticks out his shingle a full fledged doctor. He will then doctor you till you die at a stipulated price per visit and put them as thick as your pocket book will permit. An editor seldom gets his education finished, learns as long as he lives and studies all his life; he eats bran mush and liver and takes his pay in hay and turnips. If an editor makes a mistake he has to apologize for it or there is a law suit, tall swearing and a smell of sulphur. If the doctor makes one there is a funeral, cut flowers and a smell of varnish. If a doctor goes to see another man's wife, he charges the man for it; if an editor goes to see another man's wife he gets a charge of buckshot. The editor helps men to live better and the doctor assists men to die easy.

THE LUCKY QUARTER

If they disappoint you the price will be cheerfully refunded at C. M. Shuford, W. S. Martin and E. B. Menzies druggists.

For Lack of a Newspaper.

A quiet and retiring citizen occupied a seat near the door of a crowded car when a masterfully stout woman entered.

Having no newspaper behind which to hide he was fixed and subjugated by her glittering eye. He rose and offered his place to her. Seating her-self—without thanking him—She exclaimed in tone that reached to the farthest end of the car:

"Madam," grasped the man as his face became scarled, "I beg your pardon. I—I—"

"What do you mean?" shrieked the woman. "You know very well I was speaking to my niece there behind you."—Clover Leaf.

A country newspaper threatened to publish the name of a young man who was seen with his sweetheart's head on his shoulder if he didn't come across with a dollar in subscription. Thirty-seven young men slipped in and paid for the paper and letters were received from three more saying that they would subscribe just as soon as they "sold a little cotton."

A Square Deal

Is assured you when you buy Dr. Pierce's family medicines—for all the ingredients entering into them are printed on the bottle-wrappers and their formulas are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our American forests and while potent to cure are perfectly harmless even to the most delicate women and children. Not a drop of alcohol enters into their composition. A much better agent is used both for extracting and preserving the medicinal principles used in them—viz., pure (unrefined) glycerine. This agent possesses intrinsic medicinal properties of its own, being a most valuable antiseptic and astringent, nutritive and soothing demulcent.

Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, heart-burn, foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels. Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the nasal passages, it is well while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures the worst cases.

Hoarseness and hoarseness caused by bronchial, throat and lung affections, except consumption in its advanced stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hang-on coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages—the medicine will do that—but for all the obstinate, chronic coughs, which, if neglected, or badly treated, lead up to consumption, it is the best medicine that can be taken.

Don't delay! Go Southwest!

You won't make a mistake. Twice a month, Homeseekers' tickets are sold by the Cotton Belt at very low rates. Make a trip of investigation—it will be the best thing you ever did.

# S.S.S. HEALS OLD SORES

No old sore exists merely because the flesh is diseased at that particular spot; if this were true simple cleanliness and local applications would heal them. Whenever a sore or ulcer refuses to heal readily, the blood is at fault; this vital fluid is filled with impurities and poisons which are being constantly discharged into the place, feeding it with noxious matter and irritating and inflaming the nerves and tissues so the sore cannot heal. These impurities in the blood may be the remains of some constitutional trouble, the effect of a debilitating spell of sickness, leaving disease germs in the system, or the absorption by the blood of the fermented refuse matter which the bodily channels of waste have failed to remove. Again the cause may be hereditary, the diseased blood of ancestry being handed down to posterity; but whatever the cause, the fact that the sore will not heal shows the necessity for the very best constitutional treatment. There is nothing that causes more worry and anxiety than an old sore which resists treatment. Every symptom suggests pollution and disease—the discharge, the red, angry looking flesh, the pain and inflammation, and the discoloration of surrounding parts, all show that deep down in the blood there are morbid and dangerous forces at work, constantly creating poisons which may in the end lead to Cancer. Local applications are valuable only for their cleansing and antiseptic effects; they do not reach the blood, where the real cause is located, and can therefore have no real curative worth. S. S. S. heals old sores by going down to the fountain-head of the trouble and driving out the poison-producing germs and morbid matters which are keeping the ulcer open. It removes every particle of impurity from the circulation and makes this life-stream pure, fresh and health-sustaining. Then as new, rich blood is carried to the place the healing begins, all discharge ceases, the inflammation leaves, new tissue and healthy flesh are formed, and soon the sore or ulcer is well. S. S. S. is the greatest of all blood purifiers and finest of tonics, just what is needed in the treatment, and in addition to curing the sore will build up and strengthen every part of the system. Special book on Sores and Ulcers and any medical advice desired furnished free to all who write. THE SWIFT SPECIFIC CO., ATLANTA, GA.

I want to recommend S. S. S. to any who are in need of a blood purifier, and especially as a remedy for sores and obstinate ulcers. In 1877 I had my leg badly cut on the sharp edge of a barrel, and having on a blue woolen stocking the place was badly poisoned from the dye. A great sore formed and for years no one knows what I suffered with the place. I tried, it seemed to me, everything I had ever heard of, but I got no relief and I thought I would have to go through life with an angry, discharging sore on my leg. At last I began the use of S. S. S., and it was but a short time until I saw that the place was improving. I continued it until it removed all the poison from my blood and made a complete and permanent cure of the sore. J. H. ## Bigger Cotton Yields Per Acre

The value of commercial fertilizers has been demonstrated over and over again by both government and private comparative tests. We stand ready to demonstrate to you at any time that the surest way to "increase your yields per acre" is to use

## Virginia-Carolina Fertilizers

Hon. R. J. Redding, former Director of the Georgia Exp. Station, is authority for the statement that "experiments made at this station show that well balanced commercial fertilizer applied to one acre of land, and well cultivated, may be reasonably expected to produce an increase of yield of seed cotton. At the present price of cotton this would mean a large extra profit (for both lint and seed), after deducting the price for fertilizer." You'll find reports of many other comparative tests, together with much valuable information concerning land culture in the new Virginia-Carolina Year Book or Almanac.
