Coroner:
J. A. RICE
Surveyor:
ENLOE YODER

County Commissioners:
J. M. Shuford, J. L. Rhyne, R. E. Gabriel, H. H. Caldwell and W. F. Gilbert.

If Roosevelt wants to hunt elephants, there is a G. O. P. one out of a job.

Even the Citizen has got aboard. We will now proceed.

If Taft goes on the stump it will have to be a California one.

Over in Reidsville a negro was hit on the head by lightning and killed. This shows what a powerful force lightning is.

If Mr. Taft finds it as hard to break his new horse as it is to break the South he evidently has trouble mapped out for himself.

In The Ladies Home Journal a woman has an article on "Why I wouldn't marry my husband again." We suspect the husband could answer that in a few words.

Salisbury, N. C., A turn in the affairs of the Gold Hill Copper Company, which was two weeks ago placed in the hands of B. B. Miller, of Salisbury, as temporary receiver, came today when Frank P. McDermott, of Elizabeth, N. J., was named as ancillary receiver and all properties were ordered into his custody. The plant, which has been turning out a rich yield for years, is valued at about \$500,000. Able counsel have been employed by each side. Walter George Newman, of New York, is the prime mover in the matter.

THE OUTLOOK BY STATES

Although it is yet too early in the fight for anyone, caring for his prophetic reputation to venture and positive predictions still the lowliest amateur if provided with clear vision, can observe the tendencies that point to Mr. Bryan's election.

For the first time in decades the Democratic party is united and using common sense as well as oratory. And the Republicans not expecting such a thing are evidently aghast at the spectacle every move they make brings votes to Bryan. An adding to the J. O. P. mistakes, the good moves of the Democrats a layman may be excused if he feels jubilant over the prospects.

Minnesota is normally a Republican State but for the last eight years the Democrats have elected their Governor is the person of John Johnson. Mr. Johnson made a national reputation for himself and was prominently mentioned for President. Last week the Democratic convention stamped to him and it is a foregone conclusion that he will be Governor another term. Incidentally it means that Minnesota's electoral vote will go to Bryan.

In Illinois the Democrats have named for Governor their ablest man Adlai Stevenson. The Republicans named Deneen whose opponent Yates declares he will fight him at the polls. As a result it is a foregone conclusion that Stevenson will win.

In West Virginia the Republicans have borrowed a Democratic habit—fighting among themselves. There are two sets of Republican candidates for the State offices fighting and hating each other. The Democrats have united and W. Virginia will be but another case of the fox carrying away the food while the two chickens fight.

In Ohio, Taft's own State, an idiotic attempt to eliminate Foraker has resulted in a negro belt and Republican defection. Judson Harmon, the Democratic nominee, will almost certainly win.

But in New York where unity was most necessary damfoolishness is most rampant. The Republicans must choose between Hughes and a machine man. If Hughes the machine will knife them. If machine, then Hughes will knife them. No wonder Tammany is grieving. 'Tis a beautiful situation.

Nature is Harness.

Mme Nature, who for some 5,000 years past has been masquerading as the freest of wild Amazons and deigning to serve and annoy mankind only in fleeting instants while she posed for a picture or inspired a poem is now perforce compelled to lay away her wayward ways, to don conventional garb and help men work out his own salvation by the light of the Almighty Dollar!

Here is a power that mankind covets, she has a thunderbolt that we fain would wield, she has energy that we seek to transform. Time was when we did our work, like our wrangling, by main strength and awkwardness. Then lazier grown and wiser we devastated the forests and delved in the earth for fuel to maintain the steam we had called to our aid. But the forests are gone and coal is failing and we must needs seek other power.

Thanks to one B. Franklin and his climbing kite we know both what we need and how to obtain it. Electricity is to be the twentieth century what steam was to the nineteenth. This can be obtained in many ways but chiefly through the water courses.

No section of the country has a water power to compare with that of the South. And it is for this reason that the future center of manufacturing is to be the South and not the North.

The water sprites of Catawba river are now threatened to be harnessed and their gamboling

estopped. Theirs for the wheel and distaff. Instead of laughing waters we want working waters. 'Tis too much trouble to gather wood or mine coal; henceforth we'll 'een push the button and let nature do the rest. All this to happen if the new water power company is a success.

Children Exposed to Contagious Diseases Not to Attend School.

The superintendants of graded schools, and principles of private schools shall not allow any pupil to attend school under their control while any member of the household to which said pupil belongs is sick of either smallpox, diphtheria, measles, scarlet fever, yellow fever, typhoid fever, cholera, mumps, whooping cough, itch, or during a period of two weeks after the death, recovery or removal of such sick person.

A wilful failure on the part of any superintendent of a graded school or principal of a private school to perform this duty, the same shall be deemed a misdemeanor, and, upon conviction, shall be fined not to exceed twenty-five dollars.

HOUSEHOLDES FAILURE TO GIVE NOTICE OF CONTAGIOUS DISEASES.

If a householder knows that a person within his family is sick with either of any of the above diseases, he or she shall immediately give notice thereof to the health officer or mayor. Any person neglecting or refusing to give such notice, the same shall be deemed a misdemeanor, and, upon conviction shall be fined not more than fifty dollars.

PHYSICIANS TO GIVE NOTICE OF CONTAGIOUS DISEASES.

If a physician knows that a person whom he is called to visit is infected with either of above named diseases, he shall immediately give notice thereof to the health officer or mayor, and if he refuses or neglects to give such notice of it in twenty-four hours he shall be guilty of a misdemeanor and shall be fined not more than twenty-five dollars.

QUARANTINE REGULATIONS.

If any person shall neglect or refuse to comply with or in any way violate the rule promulgated by the proper authorities, he shall be deemed guilty of a misdemeanor, and, upon conviction shall be fined or imprisoned at the direction of the court.

As our schools will soon commence, we should be interested that every illegible child should attend, and that our city should be clear of all contagious diseases. The above laws are given to show each citizen his duty. We believe our citizens will do all in their power to bring about these conditions and maintain the same. Give us your best efforts.

Very truly,
J. W. BLACKWELDER,
Mayor.

Representative Wanted.

We want a representative to handle Ford automobiles in Hickory and vicinity. Live hustler, with or without previous experience, can easily clear \$2000.00 in season. Write with references at once.

Ford Motor Company,
Dept. H.
Detroit, Michigan.

Ben Tellman says he will take no part in the campaign. We predict some failures in pitchfork circles.

The effect of Scott's Emulsion on thin, pale children is magical.
It makes them plump, rosy, active, happy.
It contains Cod Liver Oil, Hypophosphites and Glycerine, to make fat, blood and bone, and so put together that it is easily digested by little folk.
ALL DRUGGISTS, 50c. AND \$1.00.

Annual Picnic.

The Lutheran Synod held its annual picnic Saturday on the shady campus of Lenoir college. The fact that it had been looked forward to for a long time insured an immense attendance. It was estimated that over one thousand people were present and took part in the various festivities. It was an all-day affair and at noon time a sumptuous dinner was served and disposed of by the hungry crowd. In the afternoon prayer services were held and talks along different lines were made by various ministers. These were evidently as much enjoyed as the other features of the day. Everybody had a good time. In the evening an exciting game of ball was played between Brookford and a local team.

For eighteen years the Lutherans have held annual picnics here and this was one of the best.

In the morning a most excellent address was delivered in the college auditorium by Rev. E. C. Cronk, Field Publication secretary of the Lutheran United Synod of the South. Rev. Cronk's subject was "Sunday School and church music." Also an inspiring address was delivered by Dr. W. H. Greever, the brilliant editor of the Lutheran church visitor, on "Causes of our recent progress."

The social feature of the picnic is of greatest importance and each year it is more and more emphasized.

A most pleasant day was spent together by friends, neighbors and brethren—Lutheran and many of other churches.

These gatherings are worth much in every way. It is not time lost but time well spent. We all rejoice that another and greater picnic is appointed for next year.

Boy Hurt in Brookford

Last Sunday night one of Mr. Jef. Fry's boys went to Brookford to attend church. The young man, who accompanied the Fry boy went to take his sweetheart home, and the Fry boy was to wait for him at the store. While waiting there a number of boys tried to run him off where upon one of the Hefner boy's stabbed the Fry boy in four places. The wounds are serious but not fatal.

GYPSIES SCRAP.

One Lands in Calaboose.

A band of gypsies are encamped out on the Moores Ferry road about two miles from town. Their occupation while here is horse trading and other things of a nature more surreptitious. Wednesday night the gypsy nature broke loose in a free-for-all fight which was participated in by men, women, babies, dogs, baggage and all. As a result one of the men with an unpronounceable name is languishing in the Hickory calaboose.

In the Police Court.

Circus day was a profitable investment as far as the town revenues are concerned. Among the Conover visitors were J. Ed. Simmons and C. R. Brady. The former imbibed too much of the flowing bowl and was taxed \$5 and costs by the mayor. The latter paid the fine for the enjoyment of resisting the officers. Calvin Wade, of Blackville, was relieved on \$3 and cost for some expansive cursword uttered in the exalted moments. Clyde Nail, white, and Frank Baker, colored, engaged in a fistcuffing and later added \$2 each and costs to the revenues.

Facts About Advertising.

The Philadelphia Record says that more money is spent for advertising than in any other field of human endeavor. According to computations made the total investment in all forms of publicity has grown to a thousand million dollars a year, which sum equals one per cent, of the entire wealth of the nation and nears the total value of all imports. This investment sells over fifteen billion dollars worth of goods. The average cost of advertising is \$1. for over \$15. worth of stuff sold. And some folks don't think advertising payes.

The annual picnic at Whitsett on Saturday attracted two thousand people. Addresses were made by Drs. G. H. Oetwiler and S. B. Turrentine, Hon. Z. P. Smith and Revs. J. D. Andrews and F. M. Hare. Music was furnished by an excellent brass band and several fine games of baseball were played.

Hence These Tears.

"Let me kiss those tears away!" he begged tenderly. She fell in his arms, and he was busy for the next few minutes. And yet the tears flowed on. "Can nothing stop them?" he asked, breathlessly sad. "No," she murmured; "it's hay fever, you know. But go on with the treatment."—Ex.

DR. PRICE'S WHEAT FLAKE CELERY FOOD

By recent scientific experiments, Dr. Price, the famous food expert, has recently produced a Wheat Flake Celery Food, which is highly nutritious, easy of digestion, and a most delicious every day food for all classes.

On Buying a Watch
There are two important things to think about in buying a watch, one is the *Make* of the watch and the other is the *Jeweler* who sells it to you. The right watch for you is worth all it cost. The right *Jeweler* for you is the one that has the best *Make* of watches, and who will take a personal interest in advising you honestly as to the selection of the case, movement: etc., best suited to your needs.

You Want All You Pay For
The man who gets less is the one who shops around with the one idea of prices in his mind. He always finds some one to sell him an inferior watch for a little lower price, a watch ought to be a good investment: and will be if you come to us to buy it and tell us the kind of watch you would like, and the kind of work you do, we will advise you honestly as to the best watch for your particular needs.
We have them for \$1.00 to \$60.00. We have a Crack-a-Jack good one for \$9.75. Would like for you to see it.
