Ex-Governor of North Carolina

ROBERT BROADNAX GLENN. Governor of North Carolina.

Two of the heroes of the battles of '96, '98 and 1900, who went furthest into the camp of the enemy. The administration led by each of them as Governor will go down in history as among the most distinctive in the history of the State for brilliant achievements in peace, in educational advancement, in moral uplifting and in industrial progress.

The Republicans are arguing that Republican candidates for Congress should be elected because Democratic Congressmen have no influence in a Republican Congress. By the same token the people should elect Democratic Congressmen this year because the next House of Representatives will be Democratic and Joe Cannon bossism will be a back number. Don't fail to get out a full vote for your Democratic Congressman. Every one of the ten have been faithful representatives of the interests of the people.

Now, I have done the best that I ould tonight—the best in my way. could tonight—the best in my way. But later I hope to be able to make a more logical talk. I wish I were able to go from the East to the Tennessee line and tell this message to all the people. I have not long to live. I have children and grandchildren; but I say to you that no stroke of this right hand shall aid in putting the Republican party over these children and grandchildren, (Applause.) I say it because I have tried it in the past and, having tried it in the past and having having tried it in the past and having found nothing but ruin and disgrace, cannot help but fight it now.—Cyrus

Nothwith-standing Mr. Cox's private character is good, there are few men in the State who are, by their interests, environ-ment and views, so disqualified to serve the people in an official capacity as Mr. Cox. He has for years been the all-round "handy man" of the Southern Railway Company in Guilford county. The arrangement has been profitable to Mr. Cox and, I have no doubt, to the railway company also. Mr. Cox his given evidence of his high appreciation of the favors the railway company has bestowed upon him, and he is as prone to think with it as the sparks are to fly upwards.

North Carolina.

The sworn reports made by the officials of the Southern Railway to the Corporation Commission show that for the six months ending December 31, 1906, under the old high passenger rates, their receipts from passenger fares in North Carolina were \$957,564. For the six months ending December 31, 1907, under the 2 1-2 cent rate, their receipts were \$1,047,-88, an increase for the six months of \$80,024; an increase of \$13,337 per month and of nearly \$500 per day.

Like reports from officials of the

Atlantic Coast Line for the same period show \$432,065 under the high rate and \$475,086 under the low rate; an increase under the low rate of \$43,021, or \$7.170 per month and \$258 per day.

Like reports from officials of the Seaboard Air Line show passenger re-ceipts of\$226,887 under the old high

rate, and \$303,802 under the new low rate, and \$303,802 under the new low rate for the same period of six months; an increase of receipts under the reduction rate of \$76,915, or \$12,819 per month and \$427 per day. These are facts. They show beyond the point of cavil that the suggestion made by the Republicans that the Democrats have done the railroads an injury in reducing passenger faces. an injury in reducing passenger fares is absolutely without foundation. It is true that the railroads, in common with every other class and form of enterprise in the whole country have suffered greatly within the last eighteen months, but their troubles are traceable to the empty freight cars with which the Roosevelt panic filled side tracks from one end of the counside tracks from one end of the country to the other.

It is safe to say that nine out of every ten independent candidates are men who have tried and failed to get office in the Democratic party. Before they were beaten they talked long and loud about their devotion to party

Of course there are a few exception of the rule.

What honor is there in such a course—what principle? Who can put confidence in the man that is blown about by every wind of doctrine, finding a resting place only where his personal interest dictates?

For these reasons all so-called independent movements in politics start out discredited in the eyes of right-thinking folk and usually end up in
