

## HOW MONEY GROWS

There are over seventeen million people in the United States making their money grow by depositing in the BANKS.

\$1.00 a year for fifty years is only \$50.00, but compounded it is \$290.00. \$50.00 a year for fifty years, is only \$2500.00 but at interest it is \$11,500.00.

This shows what systematic saving will do, any one can save money, and when you plant savings in OUR bank you will harvest dollars in future life. Plant the seed now to have the big tree later.

**Hickory Banking & Trust Co.,**  
The Farmers Friend.

Zerden, Ladies Waist Pattern, \$2.50.

### Retarders of Progress.

How strange that the greatest opposition to local bond issues or special taxation for improvement of public schools, for building good roads or for other local betterments should almost always come from those who pay the least tax and, consequently, bear the smallest part of the additional burden. Such is the case, however. This fact is well illustrated by the Lexington Dispatch, which asks why should a man who pays absolutely no tax except 45 cent on the poll array himself against taxation for good roads? It cites two instances in its home county of the absurdity of opposition by the taxpayer to such taxation. It says that a few days ago one citizen asked another how he stood on the township roads question. The latter answered that he was opposed to anything which would increase the taxes. Inspection of the tax books showed that man paid five cents road tax, and the Dispatch says were the proposed tax rate put at the maximum limit of 20 cents that man's tax would not exceed seven cents. "The same man," says the Dispatch, "was asked how he had voted in the graded school bond election, and he replied that he had voted against the school. The tax books showed that he pays ten cents school tax. He admitted that he sends four children nine months in the year to the graded school."

It is just such citizens as this man who stand in the way of local improvements and thereby retard progress. Their general opposition to such measures is so well understood that it is to them the leaders of the opposition in contests for bond issues or special taxes by popular vote appeal and on them rely for defeat of the propositions. The instances cited by the Dispatch are not isolated ones. On the contrary they are within the rule which governs men's actions in nearly every election of the kind. The men who will have to pay the heaviest taxes are the strongest advocates of additional assessments for improvements, and those who are affected the least in this manner are the most violent opponents.—Charlotte Observer.

### Fight Over Office.

The Republicans, in the State, have another fight on over office. A. E. Holton wants to succeed himself on District Attorney for this district. He has had it a long time, and has made as good officer as any of them can. Mr. S. B. Adams and Mr. Rollins also want it. Adam thinks he ought to have it, because of the services he has rendered as State chairman. Rollins wants it, and he is Judge Pritchard's choice. Holton wants it because it tastes good. So they have it.

Cook says he did it. Peary says he did it, but the chances are neither one did it unless he took Hollister's Rocky Mountain Tea. It is the most searching and finding remedy—there is no doubt after taking—as sure as you take it you get results. Do it tonight. Moser & Lutz.

### News Items.

The following items are clipped from the Statesville Landmark, because they contain some thing:

Mr. A. T. Grant, of Davie county, who was recently appointed census supervisor for the seventh district, has resigned as a member of the Legislature. He has represented Davie in the House for several terms.

The State University now receives \$75,000 annually from the State and its total income last year from this and all other sources was \$146,000. The payroll is now \$100,000 annually and besides this it requires \$50,000 for general maintenance.

The State Board of Agriculture will, at its December meeting, select a location for a new State test farm to be located in what is known as the old bright tobacco belt, including especially such counties as Durham, Granville, Forsyth, Surrey Stokes and others.

The ten oil inspectors—one in each congressional district—are now at work and are sending samples of oil to the State Department of Agriculture for analysis. Some of the samples are not up to the standard but the companies are given until the 20th of this month to get rid of the oil below the standard.

## SLEDGE'S BARGAIN STORE
