HOW MONEY GROWS

There are over seventeen million people in the United States making their money grow by depositing in the BANKS.

\$1.00 a year for fifty years is only \$50.00, but compounded it is \$290.00. \$50.00 a year for fifty years, is only \$2500.00 but at interest it is \$14,500.00.

This shows what systematic saving will do, any one can save money, and when you plant savings in OUR bank you will harvest dollars in future life. Plant the seed now to have the big tree later.

The Work of the Schools for the First Month.

The enrollment in the school for the first month is 557 pupils; and the average daily attendance for the month has been 495. Last year for the first month the enrollment was 527, and the average daily attendance was 435. There has been an increase in enrollment of 30 and in daily attendance of 60 over last year. And the percentage of increase in the colored school has been equally as great.

The honor roll for the first month will be found below. To get on the honor roll a pupil must have for the month perfect attendance, excellent deportment, and very good work.

Mr. Newland on Good Roads.

Some things said by Mr. Newland in a speech before the good roads convention at Asheville.

Lieutenant-Governor W. C. Newland addressed the convention. He told of the turning pike in progress of instruction now from Lenoir to Blowing Rock. They now have \$65,000 raised to macadamize this road, which he hoped will be a starter for good roads in the county, this money being raised by subscription. He was of the opinion that taxation or bond issue is the only way to get good roads. He condemned the old system of building road as out of date and impracticable. He stated that Caldwell county is being hampered in its development because of bad roads. He stated that the reason the cost of living is so great now is that people are coming to town and leaving the farms. He predicted that if good roads are constructed people will not forsake the farms; they will then raise their own "hog and hominy" instead of getting it as now from the West. He thought that the price of living would be reduced if good roads were constructed, that the rush of the people to the city would be stopped as there would be no need to go to the city as country life would be more desirable.

Mr. J. A. Martin Raises Bid on Elk Mountain Mills.

Asheville, Oct. 7.—Receivers of the Elk Mountain cotton mills, a corporation located 5 miles below Asheville, which has been in the hands of receivers for several months and which recently was sold at public outcry for \$96,000, have reported to the court that they have a private bid of \$144,000 for the property and recommend that the bid be accepted. After the public sale of the property for \$96,000 the receivers recommended that the bid be not accepted and the court promptly acting upon this advice rejected the bid. Afterwards the receivers under instructions from the court sought a sale of the property at private sale and brought here representatives of a number of well known corporations to look over the mills and make bids. Several bids were made. That of Mr. J. A. Martin of Hickory for \$144,000 being the best submitted, the receivers recommend that it be accepted. It is probable that the matter will be acted upon at once.—Charlotte Observer.

Two Lenoir Citizens in Race For Judgeship.

Lenoir, Oct. 7.—People here are beginning to discuss politics and especially the candidates for judgeship for this judicial district. It is understood that Judge Council, whose term expires next year, will not stand for re-election. For his place Lenoir will have two candidates, Capt. Edmond Jones and Mr. Lawrence Wakefield. Both of these gentlemen are highly qualified for this exalted position by intellectual endowment, education and experience. Both are men who have held important places of trust and honor. Each is ripe in the knowledge of the law; each has his friends and admirers and each will receive strong support. The ultimatum will be watched with interest.—Charlotte Observer.

General Taylors Horse.

Mr. Nelson Powell, who has a wonderful memory and is an authority on things of the olden time, tells us that the fine white horse that President Zachary Taylor owned when he was elected President, was raised in this county, then Burke. In 1838, Maj. E. P. Miller, who was ordered with his company, to assist in removing the Cherokee Indians, had a man named Grinway, in the company who acted as quartermaster of the commissary department and he owned the famous white horse. He sold the horse to General Scott and at New Orleans, Gen. Scott sold him to Gen. Taylor. When Gen. Taylor was elected to the presidency he took the horse to Washington where he was much admired, having become with passing years perfectly white and was known as "old White." When he died he was buried with military honors, a detachment of troops firing a salute over the grave.—Lenoir News.

HIGH ART CLOTHING

HIGH ART CLOTHING is worn by good dressers throughout America.

Some men choose HIGH ART CLOTHING for style, others for wear, others for fit, others for that careful workmanship which is the delight of critical men. Whatever their reason, it is due to the primary cause of "superiority"—a superiority based on the intrinsic merit of cloth and workmanship, coupled with artisticness in designing and fashioning a matchless combination.
