A MOTHERLY COW.

Adopts a Pig and Permits it to Help Itself to Lactal Nourishment

Strange things happen in these piping times of various activities when everybody is hustling for number one.

We have "heer'n tell" of cats adopting chickens—of turkey gobblers mothering puppies, but it remained for the editor's cow to adopt a pig and care for it as tenderly as if it were her own offspring. But such is the case. And our testimony on the subject has corroboration too.

Ye editor's cow has been having the run of his back lot and at the same time a little three months old pig has been rambling about the premises seemingly content with the world at large. About a week after this companionship begun, complaint was registered as the scarcity of milk "Miss Sukey" was to furnish the family. At the same time it was noticed that young Mr. Pig was attaining marvellous growth. This aroused suspicion, and investigation as a matter of painfully necessity followed. With a credible witness we sallied forth to investigate, and lo, and behold, we found that pig "reared up" on his hind legs sucking that old cow to beat the band!

Immediate separation followed and to cap the climax the cow stood around that pigs place of imprisonment and lowed and bawled like she had lost her calf. That's all—but its the truth!—Cleveland Star.

Moore County Vindicated

The Moore county razorback hog has been made the butt of jokes for years. But he is not to be sneezed at or laughed out of his usefulness in these days when old-North Carolina hams are worth almost their weight in gold and the price of less choice parts of the hog is nearly beyond the reach of moderate means. Because of the razorback's plentifulness down in Moore county it is said that people who cannot afford to buy hog meat at prevailing prices are successfully securing their winter supply of bacon by hunting the wild hog in the swamps. One old lady set a trap and caught two, one of them a 150-pounder, and now she has in prospect a winter supply of juicy bacon at nominal cost. We protest against any more scurrilous jokes at the expense of Moore county.—Observer.

That Lame Back Means Kidney Disease

And to Relieve the Lame and Aching Back, You Must First Relieve the Kidneys

There is no question about that at all—for the lame and aching back is caused by a diseased condition of the kidneys and bladder. It is only common sense, any way—that you must cure a condition by removing the cause of the condition. And lame and aching back are not by any means the only symptoms of derangement of the kidneys and bladder. There are a multitude of well-known and unmistakable indications of a more or less dangerous condition. Some of these are, for instance: Extreme and unnatural lassitude and weariness, nervous irritability, heart irregularity, "nerves on edge," sleeplessness and inability to secure rest, scalding sensation and sediment in the urine, inflammation of the bladder and passages, etc.

DeWitt's Kidney and Bladder Pills are an exceptionally meritorious remedy for any and all affections or diseased conditions of these organs. These Pills operate directly and promptly—and their beneficial results are at once felt. They regulate, purify, and effectually heal and restore the kidneys, bladder and liver, to perfect and healthy condition—even in some of the most advanced cases.

E. C. DeWitt & Co., Chicago, Ill., want every man and woman who have the least suspicion that they are afflicted with kidney and bladder diseases to at once write them, and a trial box of these Pills will be sent free by return mail postpaid.
