the past season to put any player out of the game. This one was when Mr. Charlie D llinger got his collar-bone broken in the first game with Morganton.

The Subs. were as follows: Lawrence Cline, Luke Hahn, Charlie and Cedric Dellinger, and Jake Reinhardt.

Hickory 16, Newton 0: Our first experience was with our old rival Newton Graded School, on the former's ground, Sept. 20 The teams were equally averaged in size. Hickory was out of their class. Newton was too much like a baby.. The ball was Hickory's way all the game. At last we walked victorious away from the field to the tune of 16 to 0. This was all the Newton boys wanted for the rest of the season.

Hickory 0, Catawba College Scrubbs 0: Our next game was played with Catawba College's second team on October 9. The College boys were larger in size than the Hickory boys, but still Hickory took the score of 0 to 0 with much delight. The game was a hard and rough one for all this week there is still left one the players.

SKEPTICISM.

Hulten.

Rev. Dr. Hulten, of the First Baptist church, has given his atmornings to two U's that are causing unrest in the religious life of the present day: Unitarianism and Universalism. "The former," Dr. Hulten said, denies the Divinity of Jesus; the latter teaches Universal salvation of the human race.

"Universalism is first contrary to scripture; it is contrary to reason and is contrary to reason and is the foe of all spiritual life and the enemy of Christian ser-

vice. "In the next ten years," said the speaker, the South, which is the home of religion and orthodoxy, must face New England's subtle skepticism, which, even now is coming as a dangerous gone and left with us its gift of undertow with Universalism on

As evidence of the fact that taking issue with him in his protests.

Mr. Gaither Hall of Lenoir was Friday night,
