How to be Plump.
Most people constantly suffer from loss of appetite, especially for breakfast, an unpleasant taste in the mouth, loss of spirits, irritability, with a heavy, dull headache, biliousness, sick headache, blotches on the skin, lack of energy and a feeling of weariness, all of which are due to constipation. Constipation is the forerunner of indigestion, sluggish liver and nervousness, and it is of the utmost importance that the bowels should be gently regulated by a reliable aperient. Dr. King's Blood and Liver Pills meet this want. 25c. at stores of all Medicine Dealers.

Granite Falls Items
Correspondence of the Democrat.
Granite Falls, Sept. 20.—The Watkins & Sherrill Company is outfitting a new fire-proof engine house, at their table and pecker-stick plant, which will very materially add to the safety of their property and convenience of their work. Contractor Robert Payne has the contract to build it of concrete and is rushing the work to completion. The company is also equipping their plant with steam heat and electric light for the further convenience of their employees. The business of the plant is increasing.

MAKE THE FARM BEAUTIFUL
By Foresight and Management Proper Care of Lawn Need Not Interfere With Routine Work.
(By J. BAILEY BRUCE.)
Given a chance to select between a handsome house and barns with a neglected lawn and shrubbery and a very plain set of buildings in the midst of grounds embellished with trees, plants and shrubbery, who would not prefer the latter?
An attractive lawn is a paying investment and adds to the value of the farm property. Home means more to the whole family when it is surrounded by the beautiful things of nature. The study of plants, trees and flowers is educational, uplifting and broadening, while the co-operative work of beautifying the home binds the whole family more closely together.
By foresight and management the care of the lawn and shrubbery need not interfere with or interrupt the other operations of the farm. One attractive country home is far-reaching in its effect on the neighborhood. Others will see the effect and follow the example.
Every set of farm buildings and location presents a different problem but there are certain principles that should be observed in planting the lawn and the shrubbery. Trees and shrubbery should be grouped so that they will bring into view desirable objects and obstruct views of undesirable objects. Aim to have a good view from every window in the house.
Plan to have the evergreens grouped so that they will afford wind-breaks for the house, barns and out-buildings and afford protection for the small fruit. Few farmers realize the influence of wind-breaks in modifying the temperature of either cattle yards and feed lots. There are few more convincing arguments in favor of planting windbreaks than to observe bunches of little calves and pigs huddled on the sunny side of a wind-break during the sunny days of early spring and fall.
There are various kinds of grasses and shrubs and trees that are adapted to every kind of soil and climate and in each locality there is an opportunity to select hardy grasses, shrubs and trees that have a wide range of color habit and character of growth and time of blossom. There is much to be said about the selection and distribution of varieties, but our purpose here is to make a plea for an interest in making an attractive lawn and beautifying our farm homes.

INFLAMMATION AND PAIN
Cured by Lydia E. Pinkham's Vegetable Compound.
Creston, Iowa.—"I was troubled for a long time with inflammation, pains in my side, sick headaches and nervousness. I had taken so many medicines that I was discouraged and thought I would never get well. A friend told me of Lydia E. Pinkham's Vegetable Compound and it restored me to health. I have no more pain, my nerves are stronger and I can do my own work. Lydia E. Pinkham's Vegetable Compound cured me after everything else had failed, and I recommend it to other suffering women."
—Mrs. Wm. Seals 605 W. Howard St., Creston, Iowa.

Thousands of unsolicited and genuine testimonials like the above prove the efficiency of Lydia E. Pinkham's Vegetable Compound, which is made exclusively from roots and herbs.
Women who suffer from those distressing ills should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.
If you want special advice write to Mrs. Pinkham, at Lynn, Mass. She will treat your letter as strictly confidential. For 20 years she has been helping sick women in this way, free of charge. Don't hesitate—write at once.
