Mr. M. O. Sherrill's War Story.

Mr. Miles O. Sherrill's pamphlet "A Soldier's Story" is being highly praised in the State press. It has been added to since published some years ago, now containing a picture of the author taken 50 years ago.

A SOLDIER'S STORY.

The Star has received an intensely interesting pamphlet under the above title, the author being Miles O. Sherrill, of Catawba county, now for many years the efficient State librarian at Raleigh.

It is the story of a soldier who fought on many fields, finally to fall in battle with a mangled leg, to endure what was little less than death, to be maimed for life, a living sacrifice to inexorable war.

The one legged "Johnny" still lives to tell the tale and it is one of the most tragic interest. It is more than a story, however, for it is history.

Europe in a Ferment.

No since 1834 has Europe been so distracted by economic and political unrest as it is today. The ferment of popular discontent is not merely local or national, but is common to many countries, spreading beyond boundaries and passing from one capital to another.

Behind the sudden outbreak of strikes throughout Spain appears to be an organized revolutionary movement. The government has been forced to meet it by suspending the constitutional guarantees, which is equivalent to declaring martial law.

Hardly have the dock and railway strikes in England been settled than Ireland is visited by a railway strike that ties up traffic and increases the prices of foodstuffs.

As a result of the dear-food riots of last Saturday, Vienna is under martial law for the first time in sixty years.

In France, after a year of dock and railway strikes that demoralized a score of cities in the North have been the scene of food riots.

In 1848 "the year of revolutions," the principal reasons for agitations among the people in Europe were political.

At the present day the restlessness of the masses in Europe is less due to the desire for constitutional changes such as inspired the revolutionist of 1848.

Potomac Synod Comes This Month

Hickory Getting Big Advertising—Must Help Entertain.

Hickory will have the honor of entertaining the Potomac Synod of the Reformed church during the month of October. It is perhaps the most representative body which has ever met in our city.

These delegates come from North Carolina, Virginia, and as far up in Pennsylvania as Altoona. Some of the most distinguished men in the Reformed church will be here.

Hickory is receiving some fine advertising free on account of this meeting. All the church papers of this denomination contain notices of this meeting and the Messenger of Philadelphia and the World of Cleveland, Ohio, will contain lengthy accounts of the meeting and Hickory.

Let the town play the part of a hospitable host which we know she will. The Reformed congregation cannot well care for this body of persons; we do not want them to do it alone.

COBB, SHAKE.

Top o' the morning to the Morganton Herald! Its editor celebrates his 31st anniversary as a journalist next month, all but two years of this time in Morganton. Says he of himself:

He has had his "ups and downs," as the elevator boy would say, his seasons of reasonable prosperity and smooth sailing and his times when the wolf came very near the door.

COMMENT

Nearly all the auto-cars which went from Hickory to Charlotte this week lost their way on the returning trip, leaving Charlotte at midnight after the play. There is a great need of sign-boards on the roads throughout this and adjacent counties.

Simplificity is refreshing.

Mr. Flagler on His Trip Compares Other Towns With Ours.

During the past thirty days, I have seen many towns or small cities in several different states, many of them well kept and showing evidence of prosperity but none of them show the evidence of material growth during the past three years, that Hickory shows.

To me the most engaging thing is a growing crop. I would instal next to this, the Creations which follow the Man of Types who leaves under his creative hand an outline of products comparable to sweet potatoes disclosing their head behind the plough shares in the autumn innng.
