The Democrat enjoyed a trip to the rifle range of the Hickory Military Company last week as the guest of Lieut. Claude Keever. The range runs along the pretty little valley of Rheinhart's creek, and is ideal. The target is the latest model for use in army practice, and requires the work of three men in the pit, to shift, paste and signal. The ranges are 200, 300 and 500 yards and the boys are doing faithful work. They need little pavilions at the shooting points to shield them from the sun. The county commissioners recently gave them \$150 and the people of Hickory and Newton ought to take pride in the company, which is one of the best in personal and department in the State Guard.

Lame back is usually caused by rheumatism of the muscles of the back, for which you will find nothing better than Chamberlain's Liniment. For sale by all dealers.
