HICKORY'S STREET FAIR.

It is both selfish and impossible that one town should be center for all celebrations and festivities, and when our neigh boring towns extend us an in vitation to join them in a day of genuine enjoyment and merri ment, we are always glad to sen them a large and representative patroange. Such seems to have been true on the fourth for to Morganton, Lenoir and other towns Hickory sent a thousand or more representatives, and it better still that they were al

glad that they went. However, in giving our neigh bors the right of way on the fourth, and accepting the rea entertainment which they give us, we are placing ourselves under obligations for an exchange of civic courtesies. For several years it has been the custom of Hickory to hold an annual street fair and this the event upon which we try to concentrate our efforts in the making of ar occasion of merriment for both our neighboring towns and ourselves. In the past the towns to which we lend ous patronage or the fourth, have contributed street fairs the big success which past. Because they contribute so generously to the event which we decided several years ago to inaugurate, we are glad to con tribute all that we can to make their fourth of July celebrations as big a success as possible. We feel and know that they are equally glad to lend both encouragement and patronage, in order that we make of our fair the same success which they make of their fourth of July celebrations. We do not ask for their co-operation however, because we join with them in our attempts to help them make a success of their occasions of celebration, but because of the fact that they entertain us so royally when they invite us, we wav. want to also set apart an occasion for celebration and invite them NEWS OF THE HOOKWORM in the said mortgage.

In line with the idea which we expressed in last week's issue of the Democrat, we are glad to see such able editorial writers as Mr. Clarence Poe of The Progressive Farmer taking the same position which we then attempted to give expression to. Mr. Poe takes the same view regarding Mr. Maxwell's proposal to establish a million dollar steamboat line as 24,906 persons have been microan only cure for our present scopically examined and 6,258 freight rate abuses. A great many people in their attempts to accomplish a world of good at viously reported of 242,000 perone stroke are unconsciously hurting the cause by forcing the sons treated.
