ENCAMPMENT OF THIRD REGIMENT

TWELVE COMPANIES HAVE BEGUN MANUEVRES AT CAMP GLENN.

DISPATCHES FROM RALEIGH

Doings and Happenings That Mark the Progress of North Carolina People Gathered Around the State Capitol.

Raleigh.

Twelve companies of the Third Regiment of the North Carolina National Guards have begun their ten day encampment at Camp Glenn near Morehead City. Practically all arrangements were completed for the arrival of the soldier boys there at that time and the grounds are in first-class condition.

Special trains carried all of the companies to Morehead City. One special started from Greensboro, and another from Raleigh. All of the companies in the central section of the state, which are included in the Third Regiment, are included in the first encampment, and the others will go at a later date during the summer.

In addition to the field maneuvers, the regiment will also engage in target practice, and will be put through a thorough practice in every respect.

Eight hundred men are in the camp and special preparations have been made for their entertainment. A unit sanitary kitchen and repairs to the sewer and water systems are among the improvements that have been made by the state with the ten thousand dollars that have been spent there during the past several months.

There are twelve companies in the Third Regiment, and the first encampment will last from July 6 to 16, ten days in all. The companies composing the regiment are Company A, Lexington; Company B, Raleigh; Company C, Henderson; Company D, Lenoir; Company E, Oxford; Company F, Franklin; Company G, Reidsville; Company H, Warrenton; Company I, Burlington; Company K, Asheboro; Company L, Thomasville; Company M, Durham.

The Third Regiment band will go from Raleigh, and the regiment infirmary from Reidsville will be present.

Of the features of first encampment will be the regimental dance, and the governor's reception on the evening of July 11, this to be held at the Atlantic Hotel. Gov. Craig will be present, and will be the honor guest on the occasion.

The First Regiment will camp at Morehead City from July 20 to 30, and the Second Regiment will go to Augusta, Ga., from August 4 to 14.

Standard Fire Insurance Policy. Commissioner of Insurance James R. Young made public the letter of transmission and recommendations to Governor Craig and the next General Assembly for his forthcoming annual report, a number of matters of much interest being considered.

He reports that the National Association of Insurance Commissioners has a special committee at work now on revisions for the "standard fire insurance policy" provided by statute in this and many other states of the Union, and that a number of very important amendments will be reported by this committee to the annual convention of the insurance commissioners in Asheville in September. These will then come to the state legislatures for adoption or rejection.

Commissioner Young predicts, however, that a number of amendments of very great value will be the outcome and that the legislatures will readily adopt them.

He reports that the building and loan associations of the state had receipts the past year aggregating \$7,785,599, a gain of \$843,000 over the previous year and that the state firemen's relief fund has grown from \$6,895 in 1907 to \$5,758 for the past year, the fund for the present year having been very recently distributed to the several cities and towns entitled to it for their fire-fighters.

Best Cough Medicine for Children

"I am very glad to say a few words in praise of Chamberlain's Cough Remedy," writes Mrs. Lida Dewey, Milwaukee, Wis. "I have used it for years both for my children and myself and it never fails to relieve and cure a cough or cold. No family with children should do without it as it gives almost immediate relief in cases of croup."

Chamberlain's Cough Remedy is pleasant and safe to take, which is of great importance when a medicine must be given to young children. For sale by Grimes Drug Co. and Moser & Lutz, Lutz, adv't.

The summer communion will be held at the Reformed Church next Sunday morning. Preparatory services on Saturday afternoon at 4 o'clock.

Would Co-Operate in 'Frisco Exhibit.

There was a protracted conference recently between the members of the North Carolina Commission on representation for this state at the Panama-Pacific Exposition next year, members of the State Board of Agriculture and representatives of the leading railroads operating in the state, the special purpose of the conference being to agree on some concerted action as to the representation that the state shall have at the great exposition.

There was a great deal of discussion of the whole situation that finally developed into the adoption of a resolution offered by Commission T. S. Powell of Asheville, that the states of Alabama, South Carolina, Virginia and Georgia be visited by representatives of the North Carolina Commission especially for the purpose of interesting them in some plan of co-operation, especially through bringing about a grouping of the states mentioned in their exhibits in agricultural palace.

The commission decided to set about at once stirring up public sentiment for a complete representation of the state and the raising of funds for the purpose. To this end a man especially fitted for the work is to be put in the field at once to go throughout the state working up the sentiment and securing pledges of financial support. Later, with the resources all marshalled for the exhibits, the commission will bring pressure to bear in the next session of the Legislature to make some creditable appropriation for the exposition exhibits.

There is also a plan to have co-operation as to exhibits by the railroad companies, this to extend to the Southeastern states and the railroads operating in this group. Florida will not be asked to co-operate for the reason that she already has arranged for a full-fledged state building of her own.

Gen. J. S. Carr of Durham presided as chairman. There was a very full meeting of the members of the commission. Interest and enthusiasm for a creditable representation was great. It was decided to send Alf Thompson of Raleigh to Virginia, Leonard Tutts to Alabama, J. A. Brown to South Carolina and T. S. Powell to Georgia to take up with the administrations of these states the question of co-operating in the installation of exhibits at the exposition.

Farmers Moving to This State. For the past several days three and four letters a day have been coming to the state department of agriculture from farmers in all parts of the United States informing the Commissioner of agriculture that they are making their preparations for moving into North Carolina this fall. Some write that they are preparing to settle on the black drained lands of the eastern section of the state and others are coming into the Piedmont section.

Big Company is Issued. A charter was issued for the Palmetto Island Company, Southport, capital \$1,000,000 authorized, and \$46,000 subscribed for redeveloping real estate, seaside resorts and real estate development and building generally. The principal incorporators are F. T. Boyd and E. A. Lackey of Hamlet, W. H. Pike of Southport and quite a number of others of Hamlet, Southport, Rockingham and other points.

Goes to Mattamuskeet. Col. J. P. Kerr, private secretary of Governor Craig, has gone to Mattamuskeet Lake, Hyde County, for the purpose of attending a meeting of the commissioners for the drainage of the lake bed and immense body of surrounding swamp lands. There is understood to be very general satisfaction on the part of those having the work in hand at the progress made and the results being obtained.

Raleigh Makes Up Budget. Raleigh's City Commission has just made up its budget of expenses for the next year, the sum total being \$165,412 as compared with \$165,657 last year. An entirely new item of \$2,500 in the new budget is for the maintenance of playgrounds for the children of the city.

Col. Williams Succeeds Dr. Middleton. A commission was issued by Governor Craig to Col. W. H. Williams of Washington as a member of the Board of Directors of the Central Hospital for Insane at Raleigh. Colonel Williams succeeding Dr. S. O. Middleton, resigned.

Crop Condition is Promising. By the department of agriculture the statement is made that crop conditions are developing very satisfactorily now in all parts of the state. The wheat crop now being threshed is proving to be a considerable improvement over last year's fine crop and the total yield will be considerably more than last year. Corn conditions are very promising and with fair seasons for the remainder of the growing period, the yield will be well up to the average. Commissioner Graham says tobacco has suffered most.

One County Has No Automobile. State Treasurer B. R. Lacy was amazed a few days ago to learn that there is a county in North Carolina that has not a single automobile in it. It is Mitchell county and the information came in a letter from the sheriff of the county, Joseph Tipton, who replied to letters from the state treasurer urging that special attention be given to seeing to it that all automobile owners pay the state license taxes and that automobile agents have their state licenses when offering to sell machines.

WILSON CONFERS WITH J. P. MORGAN

FIRST OF A SERIES OF CONFERENCES PLANNED WITH THE BUSINESS MEN.

MEETING IS VERY CORDIAL

President Expects Business Men to Learn That They Have Nothing to Fear.

Washington.—For nearly an hour President Wilson discussed business conditions with J. P. Morgan at the first of a series of conferences which will bring to the White House men foremost in American industry and finance. It was one of the very few occasions during the 16 months of his administration that the President has received one of the recognized leaders of "big business."

Officials said that while the Administration's greatest legislative projects were underway—the tariff act, the currency bill, and while the trust program was being perfected—the President felt there should be no opportunity for a charge that they were receiving inspiration from business or financial centers.

Now that two of the Administration reforms have been completed and a third is in a final stage the President is said to feel that an exchange of thought and information with captains of industry will be conducive to the business revival he expects to see along lines which the administration holds to be legal.

Soon Henry Ford, Detroit manufacturer, will confer with the President and after that a delegation from the Chicago Association of Commerce, including representatives of six corporations with Nation-wide interest, will come for a conference.

Out of these exchanges the President expects business men to learn that lawful enterprise has nothing to fear from the Democratic administration; that the trust program having reached a point where he foresees its successful completion, business shall have the rest many of its leaders have been asking; and that under the "constitution of freedom," as the President has christened the trust legislation commerce and finance respecting the laws will not be harassed by the Federal government.

Whether Mr. Morgan came at his own request or at the invitation of the President was not established. That point often is left in doubt as to important White House conferences. Officials said Mr. Morgan asked for the engagement. Another version was that mutual friends arranged for Mr. Morgan to "talk things over" with the President. The two men have been acquainted for some time and Mr. Morgan knew the President at Princeton and the personal element in the call was a large one.

Catarrh Cannot be Cured with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly upon the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials, free.

DANIELS PRAISES VICTORY OVER LOBBY

FREED LEGISLATIVE BODIES FROM MIAMI THAT AFFECTED THEM.

THE FIRST PROGRESSIVE

The Secretary Declares That Thomas Jefferson Was Certainly the First Progressive.

Charlottesville, Va.—The administration's tariff, currency and anti-trust measures are the three declarations of independence that will unfetter American business life and make possible an era of unprecedented prosperity, Secretary of the Navy Daniels declared in an independence day address here. The secretary, speaking before the University of Virginia summer school, said congress had listened to the people's mandate and the writing of the three declarations had been, the concrete result.

When congress began writing its "declaration of independence against unjust tariff taxation of the many for the benefit of the favored few," and its declaration against the money trust, there was a "honorable path," the secretary said. "That honor was a pernicious and invisible lobby. Before any reforms could be accomplished, before any pledges could be kept, the lobby had to be destroyed. Woodrow Wilson has done nothing that will free legislative bodies from the miasma that affects them equal to his victory over the lobby. That fight not only destroyed the evil of the lobby, but ended the ability of selfish interests to prevent the enactment of other declarations of independence."

Characterizing Thomas Jefferson as the "original progressive," Secretary Daniels said President Wilson with the exception of Madison and Monroe, was more like Jefferson than any other man who had occupied the White House.

OFFICERS RE-ELECTED. Western North Carolina Lumbermen Report Good Year.

Asheville.—The re-election of W. O. Riddick as president, C. A. Dickey as vice president and W. B. McEwen as treasurer featured the first annual meeting of the Western Carolina Lumber and Timber Association, which was held at this city.

Immediately following the election of officers for the coming year, the reports of those who have served during the past 12 months were heard. The organization was perfected July 4, 1913, and the reports of the officers showed that the first year has been a very successful one. It was shown at the meeting that as a result of the work of the lumbermen's association a great deal of money has been saved by those engaged in this line of business in the western part of North Carolina.

Gold After Diamonds. Newbern.—Following the sensation created recently when it was rumored that a diamond mine had been discovered beneath the city hall, another sensation sprang into being when F. H. Brumate of Beaufort, a Government chemist and geologist, made known the fact that while on a visit to the famous Ransom Spring, located on the property recently purchased by Dr. S. Sloan of Boston, Mass., and on which he is to build a palatial residence, he had discovered particles of gold and had also found traces of iron. The pieces of ore found by Mr. Brumate were discovered in the river bed near the spring.

Solicitor Moves to Newbern. Newbern.—Solicitor Charles L. Abernethy, who has for several years made his home at Beaufort, will during the latter part of next month move his family to Newbern and in the future make his residence in this city. His object of moving here is to be nearer the center of the district.

Bryan Leaves Home in Asheville. Asheville.—Secretary of State William J. Bryan has leased a home in this city for the summer months, and with his family will spend as much time here as his official duties at Washington will allow. Mrs. Bryan, accompanied by her daughter, will arrive here the latter part of next week and will remain until the early part of September. After filling several chautauqua dates in this state during the next two weeks, Mr. Bryan will join his family here for the balance of the summer.

Irish Potatoes Are Short. Mount Olive.—The harvesting of the Irish potato crop in this section is about finished, and the total yield is smaller than it was at first thought it would be. There are, perhaps a few hundred barrels yet to be gathered, but it is not likely that the crop will total more than 27,000 barrels. While it has been known for some time that the crop was considerably short this year, yet it was believed earlier in the season that the yield for this year would be at least 40,000 or 45,000 barrels.

Charlotte Firemen Killed.

Chief J. H. Wallace of the Charlotte fire department and Capt. W. B. Glenn of the No. 2 station were killed about 9 o'clock in the morning and three other firemen, Messrs. R. T. Barnes, J. R. Erwin and C. W. Todd were more or less seriously injured as the result of the explosion of a quantity of blasting powder that had been stored in a barn belonging to Mr. John B. Hawkins, a railroad contractor in the rear of his home on South Cedar street. The barn had caught fire and the department had been summoned to extinguish the flames. Never having been apprised of the presence of the explosives, Captain Glenn and Firemen Barnes, Erwin, Todd and several others had just laid a line of hose and had rushed through a double fence for the purpose of reaching the seat of fire. The hose was not quite long enough and Chief Wallace had called for a little "slack." Several of the men turned to drag up the line and this accounts for their escape. The next moment the explosion occurred. Captain Glenn was killed instantaneously and Chief Wallace was felled in his tracks and so also were Firemen Barnes, Erwin and Todd.

Kentucky Lands Mrs. McKimmon. Mrs. Jane McKimmon, whom both the state and the United States departments of agriculture are claiming has been lecturing in Kentucky on tomato canning and the papers of Lexington have been giving her liberal write-ups. The bottled and canned goods that made Kentucky famous were not tomatoes. That state has doted upon other products, among them being its fine horses and finer women. But the Lexington press takes time to glorify Mrs. McKimmon's work and to say a word about the charming woman who makes it so attractive. Two very flattering stories of Mrs. McKimmon's work have appeared in the Lexington papers. One of these dealt with the technic, so to speak, the other tells in running way how the North Carolina genius has impressed the meeting of Kentucky agents who are attending the demonstration work out there.

Revenue Increased. With the closing of the fiscal year of the internal revenue department the books of the local deputy collector showed a gain in business over the preceding year of \$734,803.53, the stamp sales for the year amounting to \$5,866,443.83. This is by far the largest business in tobacco stamps done by the local revenue office during any year of its existence. The second largest year's business was that of the year 1912-1913, when the sales amounted to \$5,181,640.30. The total number of pounds of tobacco manufactured in the Twin City during the last fiscal year is 73,330,548 6-8, as against 64,145,603 6-8 pounds for the previous year.

Blackberries Short, Peaches Fine. The blackberry crop near Newton this year is the shortest in several years. They are so very small that it is tedious for the pickers to get them in any quantity. The long drought is no doubt responsible for this. The dry weather seems to have been advantageous to the peach crop. Peaches are fine, about the usual size and perfect in flavor and soundness.

NORTH CAROLINA BRIEFS. An order issued by Adjutant General Young disbands the division of naval reserves at Plymouth, designated as fourth division for failure to measure up to the required standards of efficiency. At the same time the adjutant general accepts a new division to take the place of the Plymouth organization, this being a company to be organized at Belhaven.

Senator Overman, ranking member of the appropriations committee, placed the following appropriations in the sundry civil bill: For a quarantine wharf at Wilmington, \$25,000; repairs on fish hatcheries at Morehead City and Edenton, \$5,000 and \$3,500, respectively; for rebuilding and repairing life-saving stations on the North Carolina coast, \$20,000.

After having been in office a little over 14 months, Commissioner of Internal Revenue Osborn upon entering the fiscal year showed that he had collected more money for the government at less expense than ever before in history.

An Old Fort delegation, composed of J. C. Greens, H. A. Westerman, J. K. Cowan, J. H. Turner and D. W. Adams appeared before Governor Craig recently to urge that he use his influence to have the commission of McDowell county build the road from Old Fort west to the top of the mountain, rather than to the bottom.

Washington.—The state and federal masters were appointed: Allen, Thomas W. Altan; Balsam, Sarah K. Bryson; Nat Moore, Mary E. Squires; Tabor, William C. Graham; Wolf Mountain, Olivia E. Galloway.

Rural life week at Chapel Hill had a strong series of meetings to close its program. Dr. Liberty Hyde Bailey director of the agricultural department of Cornell University, had charge of the last four meetings. Dr. Bailey has been the pioneer of the country life movement and is the author of a score of books on it and kindred subjects.

PRESIDENT TALKS OF INDEPENDENCE

AMERICANS SHOULD MANAGE THEIR OWN AFFAIRS IN WAY TO HONOR FOUNDERS.

CRITICIZES THE KNOCKERS

Facts, or Alleged Facts, Being Given Out Do Not Always Tally, Says President Wilson.

Philadelphia, Pa.—Advocating the modernizing of the Declaration of Independence by applying its principles to the business the politics and the foreign policies of America, President Wilson thrilled a huge crowd assembled in Independence Square within a few feet of where the original declaration was signed.

The president touched on Mexico, the Panama tolls repeal controversy, his anti-trust program, business conditions and his ideas of modern patriotism. Pounding his fist on the table on which the Declaration of Independence was signed, he declared Americans today must manage their affairs in a way to do honor to the founders of the nation. There are men in Washington today, he declared, whose patriotism is not showy but who accomplish great patriotic things. They are staying in Washington, doing their duty, keeping a quorum in each house of Congress to do business. "And I am mighty glad to stay there and stick by them," he added.

Touging on business conditions of the country, President Wilson said a great many allegations of facts were being made, but that a great many of these facts do not tally with each other.

"Are these men trying to serve their country or something smaller than their country?" the president asked. "If they love America and there is anything wrong it is their business to put their hands to the task and set it right."

Eighty-five per cent of the Mexican people, the president said in touching on Mexico, never have had a right to have a "look-at" their government while the other 15 per cent were running it.

"Now, the American people have a heart that beats for them just as it beats for other millions," Mr. Wilson continued. "I hear a great deal about the property loss in Mexico, and I regret that with all my heart, but back of it all is a struggling people. Let us not forget that struggle in watching what is going on in front."

"I would be ashamed of the flag if we did anything outside this country which we would not do in it," the president declared.

Speaking of Panama tolls, the president said the treaty with England might be a mistake, but its meaning cannot be mistaken and he believed in keeping the nation's obligations. He believed in keeping the name of the United States unquestioned and unshaken.

Before the president got his speech well under way the crowd surged forward in such confusion that a panic was threatened. Two companies of marines and sailors stood before the speaker's stand and the president was forced to stop several times but finally got the crowd under control.
