Raleigh. Judge W. M. Bond, in the superior customers. court ruled in favor of the Seaboard panies to refuse to submit their books July 26. Everybody invited. on deliveries of intoxicating liquors to inspection of citiens generally on demand as provided for in the state statute providing machinery for the

enforcement of the prohibition law. The seaboard has been indicted for Tuesday on business. refusal to allow Superintendent R. L. Davis of the State Anti-Saloon League to inspect the records of deliveries at the freight depot of the Seaboard at Raleigh, counsel for the Seaboard contending that to do so would violate regulations for interstate commerce and that these had precedence over any state statute.

Judge Bond examined only one witness, Superintendent Davis of the Anti-Saloon League and heard the times to submit to any examination city. by a duly accredited officer of the law as to any specific deliveries, but that under the interstate statutes, its book could not be opened to citizens generally for any and all sorts of examinations. There was argument too by former Governor Kitchin as counwhich it was insisted that deliveries lina. of whiskies in the state are subject to police regulation and that the Webb-Kenyon act specifically puts these matters under the state regulation and that, therefore, the state statute authorizing such examination as was tion of the interstate commerce act. However, Judge Bond ruled with the

railroad company. The state and the Anti-Saloon go on up to the United States supreme court before the matter is finally settled.

Moving Pictures of State Farm. Chairman H. B. Varner, of the state prison board of directors, was at Raleigh arranging for a series of moving pictures to be taken of the splendid 7,500-acre state farm in Halifax county, on Roanoke river, with a view to showing to the people of the state without any cost to the prison management or the state, through the moving picture shows, some idea of

Respectfully submitted, JOHN MITCHELL

WASHING TREATS WITH ZEPATA TO LEAD HIM FROM RE-BELLION.

WANT CARABAJAL TO RESIGN

And New President is Willing to Give Government Into Hands of General Carranza Conditionally.

Washington.—Every influence and diplomatic agency at the disposal of the government is working for immediate peace in Mexico.

The administration is convinced that, with the elimination of Huerta, \$6379.05 the factions in Mexico wil be drawn together quickly. To assure restoration of normal conditons without further bloodshed, officials here are exerting themselves to smooth the way for a new and stable administration which shall be recognized by the

powers. Not only is the American government at this moment counseling General Carranza to arrange with Francisco Carbajal, Huerta's successor, for the peaceful transfer of the government at Mexico City to the Constitutionalists, but it became known the administration is indirectly in communication with Zapata, leader of the revolution in Southern Mexico.

Zapata has 24,000 men, and though most of them are poorly equipped they would constitute a serious menace to a new government if they remained in revolution. Zapata who demands agrarian reforms, made common cause with the Constitutionalists and obtained supplies from them with which to fight the Huerta government. It is not known yet, however, whether he will lay down his arms in favor of Carranza.

The United States is using its influence through friends of Zapata to bring him into harmony with the peace program and an emissary from General Carranza is now on his way to confer with him.

These activittes on the part of the American government result from a desire that when the Constitutionalists are installed in Mexico City and comply with the conditions prerequisite to formal recognition, there shall be an end to revolution in Mexico with its ever-threatening international aspects.

Carranza has been informed that he must conduct his triumph temperately: that an amnesty for political offenders be declared and the rights of the clergy and other foreigners who have suffered, especially Spaniards, be given due respect.

STRIKERS DEFEAT GUARDS.

Pitched Battle Near Fort Smith, Ark. Between Hundreds of Men.

Fort Smith, Ark.-After a pitched battle between several hundred striking coal miners and their sympathizers and 100 guards stationed at the Prairie Creek mines of the Mammoth Vein Coal Company near Fort Smith which ended in the rout of the guards, tipples of three mines were destroyed by fire and dynamite. The property damage is estimated at \$200,-000. So far as can be ascertained no one was kiled or seriously wounded in the fighting, which began shortly after day break and continued until late in the day, when the mine guards retreated after their ammunition was exhausted.

Rioters held possession of the mines for several hours, wrecking the plants with torch and explosives.

County officials went to the scene late in the day, but before they arrived the attacking party had dispersed.

The rioting was a culmination of a series of disturbances which have occurred at intervals since the contract with the United Mine Workers was abrogated last March and announcement made that the properties owned by the Bache-Denman Coal Company, but leased by the Mammoth Vein Company would be operated on an "open shop" basis.

Constitutionalists Will Not Last. Havana.—The former Mexican minister of commerce, Querido Moheno, prior to his departure here for New York, via Key West, said Huerta's resignation was no surprise to him and expressed the belief that a constitutional government would be short lived. "Within ninety days," \$ 206.96 he added, "the people who are now shouting aproval will cry leath to the revolution. In six months Huerta will be the most popular man in Mexico. because the Latin race always pities the fallen and opposes the powerful."
