THE CATAWBA FARMER.

We are proud of our Catawba County farmers, and we have reason to be, when agricultural papers all over the South are commenting on what has been done in this county. Only a few days ago 150 farmers from Mecklenburg County came here to see our model dairy farms, and to inspect the Catawba Creamery, and learn for themselves what has been accomplished in this creamery to take care of the butter and eggs, and get highest market prices for them. All this is something of which we should be proud. In our opinion we have the most progressive farmers that are in the State. How have they accomplished so much? It has been done by diversified farming. Our farmers do not depend on any one crop; they have for sale some of every thing that can be raised on a farm in this section, and they sell when produce is at the highest market value. When the prices get so low that they can not afford to sell they purchase one of the Home Cannerys and can all the products of the farm that would otherwise go to waste, and this is sold in the winter when there is a great demand for canned goods.

Yes, we are proud of our farmers; they are honest, reliable hard working people, who believe in good roads, good schools, good churches and good comfortable homes.

MECKLENBURG FARMERS ENJOY THEIR VISIT

(Continued From Page One)

the lesson as to the value of cattle in augmenting the fertility of the soil was further demonstrated. After a most cordial welcome and reception here as at the Shuford farm the party continued on to Hickory where dinner was had at the Hotel Huffry, the Catawba creamery was inspected and a general good time was spent at the Chamber of Commerce rooms. The farmers evinced the keenest interest in the various features of the creamery on account of the fact that a similar institution will doubtless be established in Mecklenburg at a date not very remote. It is enough to say that the visit was all that could have been desired. The welcome was hearty and the entertainment lavish and whole-souled.

The return trip was made by way of Newton and Lincolnton, Charlotte being reached at 8:30 o'clock. There was not a serious mishap along the way and everybody had a royal good time.

The Mecklenburg Farmers in Hickory.

The farmers whose visit here is noted above, arrived in the city about 12:45 P. M. After dinner at the Huffry Hotel they visited and inspected the Catawba Creamery, where they were served fresh, golden butter and butter milk fresh from the churn.

About 3 o'clock the entire delegation assembled in the hall of the Chamber of Commerce, where a pleasant hour was devoted to short speeches by a number of those present. Secretary Joy had arranged a pro-

gram and this was carried out to perfection.

County Demonstrator R. W. Graeber of Mecklenburg, presided and called the speakers.

Mrs. John W. Robinson and Mrs. Gordon Wilfong, two women whose work in the county has attracted State-wide attention, spoke interestingly and profitably to the assembly. Mrs. Robinson spoke of the part a woman had had in the work on the farm and expressed herself enthusiastically of the advantages to be found there. Mrs. Wilfong, perhaps made the most interesting talk on the program. Her remarks, while serious, were tendered in such a manner as to excite merriment among her hearers. She made, in the opinion of all present, a most excellent Progressive speech, and declared that woman would never reach the limit of her success unless she was allowed to vote. The told of her work among the United Farm Women Clubs and the Girls' Canning Club.

Mr. John W. Robinson, president and field agent of the Catawba Creamery, spoke of the work being done by the creamery. The creamery is now drawing cream from ten different counties and last month made a total of 72,000 pounds of butter, the largest month's work in the history of the institution.

Other talks were made by Messrs. H. P. Lutz, W. J. Shuford and C. C. Moore of Charlotte, a prominent dairy and live stock man. Mr. Moore spoke a good word for Catawba County by saying that since his first visit to Hickory years ago when he camped upon the present site of the Huffry Hotel, the county had made more progress than

other section of the State. Punch was served the entire assembly and cigars were passed to the men. The party left about 4:15 o'clock for Charlotte, after expressing themselves as having had a jolly good time.

Which Shall It Be?

DO you intend to continue laboring, burning valuable fuel and destroying high-priced food with that old worn-out cook stove. You KNOW that old stove eats up a lot of fuel each year. You KNOW you have trouble in getting it to bake just right, in fact, spoil a batch of bread every once in a while—you know it costs considerable for yearly repairs. Stop and think and figure. Wouldn't it pay you to buy a good range—a range with a reputation—

The Great Majestic Malleable and Charcoal Iron Range

YOU make no mistake in buying the GREAT MAJESTIC—it's the range with THE REPUTATION—ask your neighbors. Then, too, it's made just right and of the right kind of material—MALLEABLE AND CHARCOAL IRON—riveted together practically air tight—lined with pure asbestos—parts being malleable can't break—has a movable reservoir and an oven that doesn't warp—that's why the MAJESTIC uses so little fuel, takes just right every day in the year (browns bread just right all over without turning), heats fifteen gallons of water while breakfast is cooking—properly handled lasts a lifetime, and costs practically nothing for repairs. Don't buy the range you expect to last a lifetime "unsight unseen," you'll be sure to be disappointed. Come to our store during demonstration week, see the Great Majestic—have its many exclusive features explained—find out why the Majestic is 300 per cent stronger than other ranges where most ranges are weakest.
