| ABOUT THE SAME The New York Herald's poll indi- cates that President Wilson is coa- tinuing to make grounds in all parts of the country and that the race be- tween Mr. Wilson and Mr. Hughes is a close one. We have never been optimistic about the result of politi- cal battles and would not undertake to make a guess on the result. All the odds should favor Mr. Hughes by reason of the fact that he is the can- didate of both the Republican and Progressive parties and they have most votes. We have noted that Mr. Hughes declared that he will be an American president and he promises safety to Americans on land and sea. That means of course that if necessary he will employ the resources of the Unit- ed States to protect Americans. That | was rendered necessary to define the status of the expeditionary force with Gen. Pershing in Mexico. If the soldiers now on Mexican soil are there merely as visitors, they would be amenable to the Mexican law, and might be arrested and tried by local courts. On the other hand, if they are there as an army of invasion the soldiers are governed by the military law of this country and are to be tried by army court martial only. Should the vote of the New York guardsmon prove to be a deciming factor in a race in that state it is predicted that contests would result. Should the vote of the guardsmen de- cide between the' Republicans, and Democratic electors, for instance, and in addition should the vote of New York decide the presidential election, it is easy to see what a disturbance would result. On the other hand, if they are there as an army of invasion the soldiers are governed by the military law of this country and are to be tried by army court martial only. Should the vote of the New York guardsmen prove to be a deciming factor in a race in that state it is predicted that contests would result. Should the vote of the guardsmen decide between the Republicans and Democratic electors, for instance, and in addition should the vote of New York decide the presidential election, it is easy to see what a disturbance would result. Every state in the union would become intensely interested in the decision of the status of the New York guardsmen on the border, so far as voting is concerned. The same thing, on a smaller scale, might arise in state and county elections. If the border vote does not decide any election, nothing will likely be said about it, inless some one, for the sake of a precedent, should attack the right of the guardsmen to cast their ballots away from home under circumstances like the present. | common notion is that tax family goes mainly to support office holders and their families, to keep fodder in the rack of the ringsters. It is an inveterate, and in places an tocurable notion—or apparently so. As a matter of fact for every dol- lar or state revenue that goes to oil the machinery of state government in North Carolina nine dollars come straight back to the taxpayers for the education of our soldiers, our blind and deaf, the victims of tuberculosis, the insane and feeble minded. for the protection of our properties from fire, our persons from disease, and our farmers from fraud; for the reg- dation of financial institutions and other corporations in the interest of public security; for the development and conservation of our natural-re- sources, the protection and develop- ment of agriculture and the general public welfare. For all these purposes of state the tax burden in North Carolina is \$1.37 per inhabitant—the price, say, of two or three circus tickets. Make It Dangerous Life. "It is unnecessary to go over all that ground. The principle is as old as the hills and has always been ac- cepted by everybody." "Exactly. And that is just what | Hickory Camp No. 80 W. O. W.
