**GERMANS ARE READY FOR PROFITS ON WINE**

(By Associated Press.)

Treves, Germany.—The wine auctions for the 1915 vintage in the famous Moselle district as soon to begin with big profits expected. Last year's wine was not only of remarkably high quality but also the yield was almost phenomenal. Wine experts have exhausted their vocabulary in trying to find terms to describe it. Following the example of previous years they have adopted a nickname for last year's vintage, and the term selected not only expresses their judgment of wine but also a prediction that Germany will come out of the war victorious; they call the 1915 vintage the "Victorious."

The wine yield of 1915 was so large that the auctions will have to be arranged in series through November and December, while a part will be carried over to the spring auctions. The grape harvest last year was so abundant that many growers did not have casks and other vessels sufficient to accommodate the vintage, and many grapes had to be sold. And as for quality the experts assert that no such wine has been made on the Moselle since the year 1893.

**CHRYSANTHEMUM SHOW DREW 25,000 PEOPLE**

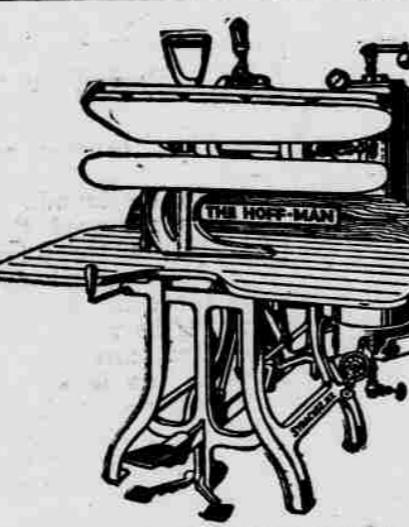

(By Associated Press.)

Washington, Nov. 15.—All records were broken at the sixteenth annual chrysanthemum show of the department of agriculture, which recently closed with a week's exhibition, and as a result this annual event hereafter will be conducted on a much larger scale. During the exhibition this year nearly 25,000 people visited the government's green-house on the Mall and enjoyed the beauties of the rare collection of prize blooms. At the close of the show the government officials distributed many of the blooms to persons ill at their homes and in the various hospitals of the city. On Sunday, the last day of the show, more than 7,200 inspected the flowers and at times during the day there was a waiting line where some persons remained an hour before gaining admission.

**WILD DUCK DISLIKES AEROPLANE, THEY SAY**

(By Associated Press.)

Keil, Germany.—Ornithologists have discovered that the wild duck does not like the aeroplane, apparently taking it for some huge bird of prey. From the North sea of Schleswig-Holstein it is reported that the great flocks of ducks, which in previous years stopped for rest and food on the coastal sands in islands on their flight from the far north to the south, have avoided that region this year. The explanation offered is that they were frightened away by the many aeroplanes that are constantly scouting along the coast.

**GOOD SIGNS**

Statesville Landmark.

The strongest evidence that the people are in favor of road improvement is the fact that two Republican counties in this section—Alexander and Yadkin—last Tuesday elected Democrats to the legislature on the good roads issue. In Alexander Dr. S. T. Crowson a former Statesville man, defeated Charles T. Moore, Republican, who fought Alexander's good road bond issue. Dr. Crowson was the only Democrat elected in Alexander and the fact that he favored road improvement put him out in the strong Republican counties of Yadkin a Democrat was elected to the legislature on the good roads issue. The candidate who opposes good roads at this stage, in this part of the country, stands a poor show of election.
