Guatemala City, Guatemala, Jan. 2.—The ruins of Antigua, the old capital of Guatemala, which are said to antedate the Egyptian era, are being studied by separate expeditions of archaeologists from Harvard University and Yale. Antigua is the most ancient city of Central America, and was destroyed by a volcanic disturbance which, according to evidences, killed all the inhabitants by pouring scalding water upon them.

MANY FAMILIES ARE MOVING INTO LENOIR

Lenoir, Jan. 2.—On account of the pressing need for more room at the graded school building, a new room has been added by cutting off a part of the auditorium, which will provide for a portion of the much needed room at the beginning of the spring term to be opened early in January. Within the past few years there has been three or four new rooms added to the building by utilizing the basement by building and fitting up new rooms, until nearly all the available space has been taken in this manner and it will not be many years until the school board will have to build another and a much larger school building to take care of the pressing demands on the school. Since the establishment of the school many people have moved to Lenoir from the country and adjoining counties to get the benefit of the school for their children, hence the demand for more room increases each year.

MEDICAL SCHOOL INSPECTION

The school teachers of Hoke county are responsible for the schools of that county having medical school inspection. At a recent meeting of the teachers of the county, the proposition of the state board of health setting forth the plans of getting medical inspection for the schools of the county was put before the teachers and there was a unanimous vote for this feature of school health work. According to Mr. J. A. McGowan, superintendent of the Hoke county

schools, each school is to contribute for this purpose a certain amount which it is to raise by entertainments, subscriptions, or in other ways. This was the plan adopted by the teachers and a committee of five teachers, with Miss Sadie McBrayer, Sanatorium, N. C., as chairman were appointed to make plans preparatory to inaugurating the work which will begin probably February 1. Dr. A. C. Bulla will be put in charge of the work. The schools of Hoke county, each of Hoke, will also get this feature of health work.
