VOL. 11. NO. 96

HICKORY SCHOLS WILL **RESUME WORK MONDAY**

After Two Weeks' Holiday Children Will Have Review And Examinations---Why It Is Important For Every Child To Attend **Regularly This Spring.**

After a holiday season of two full weeks, the Hickory graded schools will open Monday morning for the spring term. The first two weeks of school will be given over to review from the fourth grades up, and midterm examinations will be given at the close of the second week, which is the close of the fourth school On January 22 the second month. term will begin and, like the fall term, will last four months. Commencement will come, therefore, on Friday, May 11, if no unforseen difficuties should arise to interfere with the smooth working of the schools.

During the fall the schools had to wrestle with the scarlet fever trouble it being necessary for the whole school to be postponed for a week in September and for the lower five grades to be suspended in November for two weeks. By these precautions, and frequent medical examinations, however, the authorities got the menace under control, and it is now believed that scarlet fever has entirely disappeared.

One thing which prevented the best mas was the irregularity of atten- Canning, N. S. dance caused by scarlet fever, but with this trouble removed it is conall get into the schools at once and C. E. McIntosh. attend regularly until the very last day next spring. In no other way, in fact, can promotion be expected, CIIRA
