PROFIT FROM EGGS IN

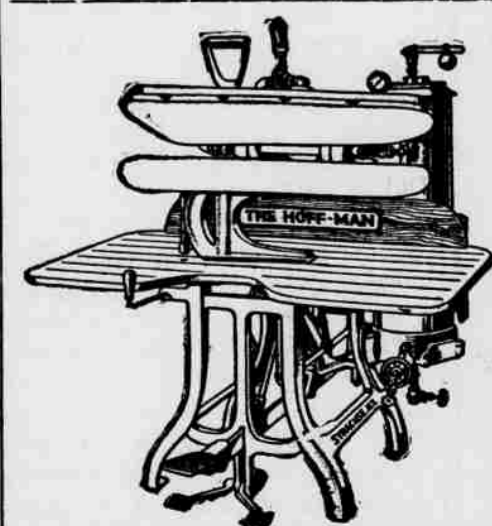

LENOIR, NEWTON, HICKORY Speaking of eggs, the Lenoir Topic says that J. N. Smith of Caldwell county has a year's record of 80 hens which permitted him to sell 805 dozen eggs for \$192.25 and 840.17 worth of chickens, total of \$236.40. At present prices his eggs would be worth \$322. A certain denizen of this print shop who has nine hens has also kept a record—in his head; paper and pencil haven't been needed. In 90 days the nine hens have produced two (2) eggs, and there is every reason in the world to believe that it was wholly an entirely an accident and not intentional—drat 'em. Also dodgast 'em—Newton Enterprise.

And a certain denizen of this shop bought him a wire fence, had a chicken house made, and purchased ten pullets at one dollar per along in September. He has fed them generously and they sing their content, but only five eggs have they laid during the whole winter. They won't pay interest on 30 cents, to say nothing of \$30.

\$100 REWARD, \$100

The readers of this paper will be pleased to learn there is at least one dreaded disease that science has been able to care in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts through the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

REV. W. CHARLES SMITH

ACCIDENTALLY KILLED

High Point, Jan. 23.—Rev. W. Charles Smith, a Baptist minister of Mechanicsville, a suburb of High Point met almost instant death yesterday afternoon about 4 o'clock while on a hunting expedition. His gun was accidentally discharged while he was attempting to cross a fence, the charge of one barrel entering his neck and causing death almost instantly. The body was brought here shortly afterward to be prepared for burial.

Mr. Smith was accompanied by J. W. Montgomery, a merchant of Mechanicsville, and a Mr. Roberson of the same place. Both men were near when the accident occurred and rushed to his assistance. A related by these two the accident occurred in the following manner, the man being at a point about four miles northwest of High Point.

Before attempting to cross a rail fence Mr. Smith put his gun on the opposite side, butt down, retaining his hold of the barrel as he proceeded to climb over. When he put his foot on a rail near the top it broke and, going down, struck one of the hammers of the gun, discharging it. His head was almost immediately over the muzzle and the full load of shot went into his neck.

The deceased was about 35 years of age and was quite well known in the section. He is survived by his wife, Mrs. Effie Smith, his parents and two brothers.

AT THE PASTIME TODAY

In the filming of the latest Red Feather feature production, "The Isle of Life," which will appear at the Pastime this afternoon and tonight Universal Director Burton George had to take his whole company of over thirty players on board a steamer. The boat that was selected was the steamship Congress, which plies between Los Angeles and San Francisco. In the play an Italian rake falls in love with a beautiful American girl and to win her throws her overboard and then jumps over himself to save her. These scenes are all very realistically portrayed and prove to be a stirring anti-climax to the picture which is excellent in all the other details of plot construction and direction.
