LABOR AND WAR

Several things have been learned by working people throughout the world as a result of the war, the most important thing being that it does make a difference to working men what government is over them. Before the present war pacifism had made greater headway among laboring people than any other class of people, workmen in Belgium, France, England and Sweden having gone so far as to declare that it could make no difference to them whether they were under the rule of their individual governments or some other power.

The treatment accorded the French and Belgians, however, has aroused workingmen in Europe to the fact that it does make a difference, a vital difference, and this class of citizens has changed attitude. A country should desire peace more than any other thing, but peace is worse than war if it has to be purchased at the price of slavery.

This change in sentiment was very much desired by the war lords of Europe, because it was the cause of providing them with more cannon fodder.

FUTURE AS RESORT

There are several hundred persons in the United States—many of them known to fame—who would be glad to spend their winters in Hickory if only the facilities were provided. The first thing Hickory must do to attract this class of people is to establish a country club and build a golf course. This done, we could await results.

Since the population of the United States is turning more and more to outdoor life, the people of the east and north are seeking out places in the south which provide the facilities for hunting, fishing and playing. Hickory is in position to furnish simple recreation, but no sports.

PLEDGES VS. ACTION

Both the Democratic and Republican platforms contain planks in favor of equal suffrage and the News and Observer draws these pledges on the legislators now. The Democratic platform recommends "the extension of the franchise to the women of the country by the states upon the same terms as men," and the Republican platform favors "the extension of the suffrage to women, but recognizing the right of each state to settle this question for itself."

"We should worry. —A man out in Tacoma has invented a golf course for indoor use. You play it with a little liver pill and a slice of swiss cheese. So Hickory may get that country club, after all.

Mexican women caused a rowdy house in Juarez Sunday because American sanitary authorities had prescribed shower baths for the ladies who were employed at El Paso as cooks.

Next time you pull off the end of your shoe string—that little tin thing—just put a little tin sealing wax on the string and go on about your business.

Some folks say nothing and take it out in thinking, and some folks just say nothing.

The groceryman who advertises "My eggs can't be beat" surely said something he couldn't take back.

Silence is golden and the poor we have with us always.

HERE ARE SOME FOLKS WHO PAY NO TAXES

(By Associated Press.)
London, Jan. 30.—The Eskimos of Greenland are probably the only people in Europe who are not interested in the outcome of the great war. Such is the impression given by Jen Dangaard Insen, governor of Greenland, who has come all the way to London to appear as a witness in a claim of the Danish government to a cargo of fish seized by the British as a prize of war.

"They have heard of the war," said the governor, "but they have only a vague impression of the gigantic struggle. The Eskimo papers that are published once a month give them a rough idea of the conflict but the issues are entirely foreign to them. These papers are printed by native printers trained in Denmark. In them are reproduced as pictures taken from the Danish papers."

"The waste of human life makes the deepest impression on these Greenlanders, according to Governor Dangaard. 'The Eskimo believes it wicked to kill humans,' he went on. 'He kills all animals and thinks he has a perfect right to do so but he shrinks from the thought of taking a human's life. He heard of men being thrown against machinery in the great struggle to the south of him and believes the whole thing absurd.'"

The governor summed up the Greenlanders' unique position which he remarked may have something to do with his detachment from the war. "The Greenlanders," he said, "has these advantages: 'He has no army to support. 'He has no navy to worry about. 'There are no policemen in Greenland. 'He has no taxes to pay. 'There are no movie shows or theatres. 'All doctor bills are paid by the Danish government. 'There," added the governor, "you have a condition unique among the peoples of the world. And it must not be forgotten that the standard of civilization among these Arctic Highlanders is being raised, slowly by necessity. I am also pleased to report that his numbers are increasing. The present population of 13,000 shows a growth of about 7 1-2 per cent in ten years."

"The Danish government, which controls the country, carefully looks after the well-being of the Eskimo, and by a rigid ban on visitors to the country—nobody is allowed to go to Greenland except by special permission—leaves him to develop on natural evolutionary lines."

MRS. R. W. GRIMES TESTIFIES.

Robersonville, N. C., January 22nd, 1917.
Person Remedy Company, Charlotte, N. C. Gentlemen:

Some time ago I was attacked with a serious spell of Typhoid fever, which left me in a very weak condition and effected my limbs. We decided it had resulted in white swelling. Every remedy we could think of was used, but to no effect. My suffering was great and I had to go on crutches. At last we were induced to try Mrs. Joe Person's Remedy, after suffering for two years, and the result was marvelous. After taking eight bottles I was entirely cured, and have never had a symptom of trouble since. My faith in Mrs. Joe Person's Remedy is great and I would advise all sufferers to give it a trial and be convinced as I have. (Signed) MRS. R. W. GRIMES

IN THE SUPERIOR COURT, BEFORE THE CLERK

North Carolina, Catawba County.
M. E. Rudisill vs. Ed Link, Julius Link, Frank Link, Elizabeth Cline, Jane Martin, Oscar Link and Belzora Link.

NOTICE

The defendants above named will take notice that an action entitled as above has been commenced in the Superior Court of Catawba county wherein the plaintiff above named has filed his petition to sell land for partition, said land known as the "Whitener Mill tract." In which petition the Plaintiff sets out that he is the owner of one half undivided interest in and to the said premises, and seeks an order of sale of the said lands from the Superior Court of said county, in order that the proceeds of said sale may be divided among the various parties and tenants in common, and the defendants will further take notice that they are required to appear and answer the petition which is filed in the office of the Clerk of the Superior Court for Catawba County, on or before the 5th day of February, 1917, or the Plaintiff will apply to the court for the relief demanded in said complaint. This the second day of January, 1917.

GETTING FACTS FOR HISTORIANS IN FUTURE

(By Associated Press.)
Paris, Jan. 30.—The division of archives at the front has gathered more than 7,000 big cases of documents for the use of historians of the war. The final classification adopted covers 5,000 different subjects, and it is done with such fastidious pains that all the future historians will have to do is to name the subject or the part of the line where occurred the operations he is studying to get a complete record. Besides these archives to the military operations, red tape methods have required the different units in the French army to furnish something like 25 million written documents since the beginning of the war. A single division of cavalry was called upon for 368,000 reports and statistical documents in two years; not one of them referred to the action of the division in battle or at the front. These statistics are being used by the enemies of bureaucratic methods to foment a revolt against them.
