HOW THIN PEOPLE OBTAIN A PLUMP, STRONG ROBUST BODY

Before I took tonoline people used to call me "skinny," but now my body is changed. My whole body is stout. Have gained 15 pounds and am gaining yet. I look like a new man," declared F. P. Smith, Pittsburg, Pa., who has just finished the tonoline treatment.

Would you, too, like to quickly put from 10 to 30 pounds of solid, "stay-where" flesh fat and muscular tissue between your skin and bones?

Don't say it can't be done. Try it. Let us send you free a 50c package of tonoline and prove what it can do for you.

Lutz Drug Store is dispensing a great deal of tonoline.

More than half a million thin men and women have gladly made this test and that tonoline does succeed does make thin folks fat even where all else has failed, is best proved by the tremendous business we have done. 5,000,000 Corns Lifted Right Off!

Try 2 Drops of Magic "Gets-It."

There's a wonderful difference between getting rid of a corn now and the way they used to try to get rid of it only four or five years ago. "Gets-It" has revolutionized corn history. It's the only corn remedy today that gets on the new principle, not only of paring up the corn, but of loosening the corn off—so loose that you can lift it right off with your fingers. Put 2 drops "Gets-It" on that corn or callus tonight. That's all. The corn is done for as sure as sunrise. No pain, or trouble, or fussiness. You do away once and for all with toe-bundling bandages, toe-cutting salves and irresponsible "what-nots." Try it—get surprised and lose a corn. "Gets-It" is sold everywhere, 25c a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill.

Every Part a Quality Part In the Chalmers

Chalmers puts quality materials and quality workmanship into every piece of every Chalmers car. Therein lies the difference between the Chalmers and most other cars.

Here are three parts out of thousands in the chassis. They are hidden moving parts of the motor—the crankshaft, connecting rods and pistons. Chalmers makes them of extraordinary materials with extraordinary care and thoroughness.

Connecting Rods—Strong, Light

Connecting rods are designed to secure rigidity and lightness. They are made of special carbon steel. Are unusually strong and dependable. Each rod weighs only 41 ounces. Yet they will withstand greater stress and strain than some connecting rods weighing almost twice as much.

One-Piece Crankshaft

The crankshaft is drop-forged from heat treated carbon steel in a single piece. Balancing weights are integral with the shaft. The shaft is 2 1/4 inches in diameter. Sturdy, but not heavy. Rigid. Strong. It is balanced while rotating at a fast rate of speed, on a unique machine. This helps you to understand why the Chalmers motor is so smooth.

Light Weight Pistons

Chalmers pistons are of Lynite. A light and tough metal, about 1/2 the weight of cast iron. Chalmers pistons reduce the strain on the bearings. They insure the marvelous Chalmers smoothness. They make possible the remarkable Chalmers power.

All of the above means quality. The kind of quality you need in the car you buy, and the kind of quality you GET in the Chalmers

Whenever you see an Arrow think of Coca-Cola.

Bottled
Coca-Cola

Its popularity is founded on its refreshing deliciousness, due to the fact that it is made with a syrup especially prepared for bottling.

For your own protection, when buying in bottles guard against misleading substitutes. Only the Genuine Bottled Coca-Cola has the name blown in the bottle, as well as imprinted on both the label and the crown top. Look for the name in all three places.

Demand the genuine by full name—nicknames encourage substitution.
