Hickory Drug Company

The REXALL Store Telephone 46

Local and Personal

Judge Frank Carter passed through Hickory this week en route to his home at Asheville.

Mr. Raymond P. Whitener of Newton route 4 was a visitor to Hickory today and while here had the Record sent to his address.

The Knights of Pythias will hold an important meeting tonight. Among other things degree work will be carried on and a full attendance is desired.

The Home Canner Manufacturing Company has been purchased from the commissioners by Mr. W. L. Mitchell for \$2,720.32, he having raised the bid of Mr. Blodgett 10 per cent. It is said that the litigation over the patent rights, which are held by Mrs. Blodgett and others, has just begun.

The Boy Scouts are making good progress selling Liberty bonds and the best thing about the matter is that the bonds have been placed among different people. Mr. Menzies said he believed Hickory would take more than \$25,000 worth, which is not enough, but more than other towns in this section are doing.

Cody-Powell

A wedding that will be of much interest to friends in and around Hickory was that of Miss Clara Powell, daughter of Mrs. Mary Powell of this city to Mr. Lyman E. Cody of Eaton, Col.

The parlor of the bride was most artistically decorated with ferns, palms, and roses. An arch and altar of flowers were so arranged to bring out the color scheme very beautifully. The bride was dressed in a traveling suit of blue with accessories to match in harmonizing colors, while the brides maids also wore blue crepe de chine dresses.

Rev. E. J. Sox performed the ceremony to which only a few special friends were invited. To the strains of Mendelssohn's wedding march, the bride came in on one side on the arm of her brother, who gave her away at the altar, followed by her brides maids. The groomsman entered from another side of the room, and met the bride before the altar. During the ceremony Geibels "D'Amour" was played by Miss Fannie Rinkfl on the violin, accompanied by E. L. Carter. Shortly after the ceremony the bridal party marched out into the hall of Lagye's "Chant d'Adieu" where many friends had assembled to congratulate them. They left this morning on No. 11 for Kansas City where they will spend some time, and from there they go to Eaton, Colorado, where they will be at home after June 10.

Mrs. Cody is an accomplished young lady of this place who for many years has taught in the Catawba county school system. Mr. Cody is a prosperous business man of a staunch christian faith.

COMMUNITY CLUB TO MEET FRIDAY AFTERNOON

The Community Club will hold its regular meeting Friday afternoon in the Chamber of Commerce rooms at 3 o'clock instead of 4. Many things of interest are to be discussed and every member is requested to be present if possible.

TAKE THE RIGHT KIND OF IRON FOOD EATEN NOWDAYS HAS LESS AND LESS IRON.

Nature Provides Acid Iron Mineral For Sick

From the Great Lakes to the Gulf of Mexico, is iron, put there that man might stiffen the backbone of ships, built like skyscrapers and locomotives. This is the iron of the builder and of cannon and shrapnel which kills men and ruins teeth and stomach. Then go to one side, nature deposits iron for another purpose and it is called "Acid Iron Mineral." Unlike commercial iron it has been protected through thousands of years from elements, water and air by a casing of mable-like rock and clay. Acid Iron Mineral was set aside by the Creator for medical purposes, in one great deposit not far from the world's greatest commercial iron ore beds. It is the only deposit known to exist in the whole universe.

Acid Iron Mineral possesses wonderful medicinal properties. Three forms of iron, calcium, potassium, magnesium and sulphuric acid blended and proportioned exactly right for the treatment of stomach, kidney, bladder and blood complaints. So perfect is this natural compound no chemist has come forward to claim the large sum offered to chemists able to make Acid Iron Mineral. Some of Nature's secrets are beyond solving and Acid Iron Mineral is one.

Where chemists employed alcohol, syrups, etc, nature needed none to make Acid Iron Mineral. Pure as the rippling brook. A-I-M is Nature's Elixir.

No man or woman in need of a tonic or troubled with impoverished, impure blood, rheumatic complaints, nervousness or loss of vitality should longer be weak and half efficient. A-I-M, tested 30 years, brings back color and sparkle to cheeks and eyes. It helps stomach, kidney and bladder back to normal. Get a bottle at your druggist. 50c or \$1.00, adv.

FUNERAL OF MR. AMES HELD WEDNESDAY MORNING

The funeral of Mr. A. R. Ames, who met his death while performing his duties as a lineman of the light department of the city of Kingston Monday May 28, was conducted at the residence of Mr. F. P. Johnston on Ninth avenue, by Rev. J. G. Garth pastor of the Presbyterian church. A large number of friends gathered, and beautiful floral designs were offered as tokens of the sympathy and love of friends. A large cross was presented by the city council of Kingston, which was represented by Mr. S. T. Pate, who accompanied the body, and also attended the funeral. Mr. Pate is an alderman of the city of Kingston. The funeral was one of the saddest that has ever occurred in Hickory, because of the circumstances attending the death and taking place as it did in one of the most prominent families of the city. The pall-bearers were Messrs. A. C. Hunter, N. W. Clark, P. P. Suttlemyre, Fred Flagler, June Jones and Dr. T. F. Stevenson. The minister conducting the funeral read the following sketch:

Austin Reuben Ames was born in Minnesota August 5, 1890, though the present home of his parents is De Funiak Springs, Fla. Mr. Ames had two brothers and two sisters. One sister died as a small child, and so the surviving members of the family are, the parents, Mr. and Mrs. F. S. Ames, Messrs. Guy and Walter and Miss D'ett Ames. We gave a sad welcome to the parents Wednesday. Austin Reuben Ames was a dutiful son and grew up to honor the rearing he received from godly parents who made a covenant for him and for all their children in their infancy, have committed the keeping of their souls to Him who never fails those who trust Him. Austin was faithful attendant at Sunday school as a child, and though he had never connected himself with the church, he gave his anxious father the assurance that he was trusting in Christ as a Savior, and he had confided to his wife his purpose to unite with the church, realizing his duty to God and to his home.

Mr. Ames married Miss Grace Johnston on Jan. 28, 1914, and was a devoted, faithful husband, consecrating his endeavors to the support and comfort of his wife and child, and spending his time and efforts for their happiness, deeming it his privilege and joy to see them happy and contented, for he was wrapped up in them. Being a railroad man, he went through a season of hard times because of the slackness of work, but he was not an idler, and when his chosen calling did not furnish him with employment, he worthily and faithfully did what opened for him in any line. He was naturally quiet and unobtrusive, diligent in attending to his own business, and letting others do the same. He was of an amiable disposition, sweet tempered, kind hearted, cheerful, ready to do a good turn for all who needed his services. He was very fond of scientific work, and as a boy he displayed a love for machinery. In recent years, he had shown an unusual gift for electricity, and it was a great pleasure to him when an opportunity opened for him to enter that calling. It was in his chosen avocation, that the mysterious providence occurred that closed his useful life. We recognize his death as the sacrifice many are called on to make in that dangerous calling. We can but esteem them as martyrs to modern science, and to the welfare and prosperity of others, who should reflect that these men have died for them. Human life might go back to the simplicity of olden days but it would be at the relinquishment of progress. But let us honor the men whom God has raised up and endowed with skill and courage, who, daring to brave the dangers they encounter, and loving their fellowmen, make the vicarious sacrifice that mankind may receive the benefits they alone can confer.

May we not believe the Spirit of God communes with these heroic souls, and gently forewarns them of coming catastrophes, that their souls may be prepared for the sublime change that awaits us all? As that soul who first learned to know his Savior on the very cross, and to whom Jesus said, "This day shalt thou be with Me in paradise," so these men, martyrs to our modern life, called from the very place of duty to meet their God, may in a moment of peril, resign not only their bodies to the hand of death, but commit their souls to the God of all grace.

But while we are warranted in seeking large comfort from the word of God, the tragic end of our friend is yet a warning to all to be ready to meet God, for in such an hour as ye think not the Son of man cometh, or death overtakes us. Be ready when the time shall come. Be ready to give your account of the deeds done in the body.

BLINDNESS PREVENTION WORK

North Carolina has been listed by the national committee for the prevention of blindness as one of the states of the union most active in the work of blindness prevention. At the last meeting of its general assembly a law was passed requiring all physicians and midwives to use the prophylactic treatment, a one percent solution of silver nitrate, against inflammation of the eyes of infants within two hours after birth and to make record of such use. The law further provides that ophthalmia neonatorum or babies, sore eyes is a reportable disease, and as a still further safeguard as regards this disease, the law provides that all midwives practicing in the state register, without fee, their names and addresses with the secretary of the state board of health on or before the first day of July, 1917, in order that the prophylactic solution and necessary instructions may be furnished them. Provision was made whereby the state board of health shall furnish this preventive solution and the necessary instructions for using it free to physicians and midwives.

"It is no longer natural for babies to have sore eyes," says the state board of health. "Ten thousand of the blind people in the United States today are totally blind because their eyes were neglected during their first few days of life. A still greater number are partly blind for the same reason. Babies' sore eyes is not caused by cold or light but by germs which, if they are not killed or washed out, may cause the baby to go totally blind within two or three days. Babies' sore eyes is not a disgrace unless they are neglected and cause blindness."

TWO COACHES OF A TRAIN OVERTURNED. SEVERAL HURT

Little Rock, May 31.—The chief dispatcher at the Missouri Pacific railroad office here said he had received a report that the entire town of Mineral Point, Mo., was destroyed by a tornado yesterday. He had no further details.

An official report to the local offices of the Iron Mountain railroad last night said that several persons were killed in the tornado that struck Mineral Point, Mo., in the afternoon and that 18 injured have been received at Desoto, Mo., for treatment.

The report said that two coaches of a train on the Potosi branch were overturned and many passengers injured. Conductor Thomas Lemaster was killed, as was a stock watchman and several others not in the employ of the railroad.

The Iron Mountain station was destroyed.

Southern Railway System

THE SOUTHERN RAILWAY COMPANY

An Ambition and a Record

THE needs of the South are identical with the needs of the Southern Railway; the growth and success of one means the upbuilding of the other.

The Southern Railway asks no favors—no special privilege not accorded to others.

The ambition of the Southern Railway Company is to see that unity of interest that is born of co-operation between the public and the railroad; to see perfected that fair and frank policy in the management of railroads which invites the confidence of governmental agencies to realize that liberality of treatment which will enable it to obtain the additional capital needed for the acquisition of better and enlarged facilities incident to the demand for increased and better service; and, finally—

To take its niche in the body politic of the South alongside of other great industries, with no more, but with equal liberties, equal rights and equal opportunities.

"The Southern Serves the South."
