ASSOCIATED PRESS REPORTS

MONDAY EVENING MONDAY, JUNE 4, 1917

HONOR THE DAY

Hickory women and men will make registration day more memorable than it otherwise would be. Plans for honoring the young men who sign the roll, for decorating the registration places and of seeing to it that the day is observed patriotically already have been made.

Whether a single man from Hickory reaches the war zone in France it is the hope of all our people, as it is the hope of all the people in the United States, that this will be the last conflict between nations. The senselessness of war should be driven home and we should see to it that the world is made safe for democracy.

Nobody is laboring under any delusions as to why we are to send men to France. It is better to help England and France than to call for help on this side of the Atlantic. The junkers would lay for us just as surely as they laid for France, and later made war on all neutrals.

The Lenoir News says that a petition will go to Governor Bickett asking him to commute or life imprisonment the death sentence of Charlie Walker, the young white man who murdered a young girl in that neighborhood last year, and the Lenoir paper is confident the governor will allow the law to take its course.

The war department is hopeful that colleges will not abandon intercollegiate athletics because of the war. Some of the best men the government has were drawn from the athletic class, who have been quick to respond to the call, and it is not desired that sports be abolished in the United States.

Hickory is the natural and logical location for a big packing plant. It is easy of access to several counties, railroad facilities are good, and live stock is plentiful in this territory.

This business of rising at 5 a. m. is fine theory, but as a matter of fact doesn't it make one feel he has done a day's work about 11 o'clock? Don't all answer at once in Hickory.

The Record regrets that Geo. F. Cochran has left Newton for Wilmington, but he knows that best wishes attend him. No better newspaper man is at work in this state. The Star is to be congratulated.

It is good to know when one goes home from a day's toil that if he cannot hear the watch dog's honest bark, he can at least call the roll of chicks and find them all there. The cat which killed nine chicks is dead.

Farmers are urged to save a few sheaves of wheat and oats for exhibition at the fair. It is to be borne in mind that the next event is to be an improvement on all other fairs held here.

The food waste in the United States is estimated to be around \$700,000,000 a year. That should be reduced by about \$650,000,000 this year.

If we had the price we would take several liberty bonds.

If we believed the Russians knew their business we would not tell them best thing they could do is to put Grand Duke Nicholas in command of the army.

Record friends took the hint and Saturday was a good day for news with this paper. The Record will be five times as interesting if everybody phones in his or her bit.

MISS GEORGE WASHINGTON AT PASTIME TUESDAY

The following is a short synopsis of "Miss George Washington," a five reel drama, featuring Marguerite Clark, Paramount's biggest star, which will be shown at the Pastime Tuesday June 5th.

But Room 72 is occupied by the School for Young Ladies, so impresses the George Washington Truth Society with her truthfulness that she is presented with a medal for her veracity. As a matter of fact, she is a frightful little fibber, as her school friend Alice Altwood can testify. Bernice is engaged to Paul Carroll, who is not known to any of the Altwood family except Alice.

Just a Few Details That are Different:

"All cars are good cars," said a man the other day, "but some cars are better than others."

Of course we admit that the Studebaker car is better, but let us call your attention to a few details that you don't find in other cars:

The front seats are individual adjustable chairs, removable or reversible. You can take them out, or the passenger in the righthand front seat can turn and face the passengers in the back seat.

The Studebaker Four is a beautiful 5-passenger car, lighter than the average, stronger than the strongest, and more powerful than the most powerful of other makes. But cleverly concealed under the tonneau seats, there are two folded arm chairs which instantly convert the Studebaker 5-Passenger Touring car into a big roomy 7-Passenger Touring car—if you are a car owner you have been impressively taught that there are times when two extra seats are a great convenience.

Studebaker cars are upholstered in genuine leather, but not just genuine leather like many other cars. Studebaker uses exactly the same quality of genuine long-grain, semi-glazed, leathers as you find in cars costing from \$2,000 up—leather that costs 50 per cent more than the average kind Studebaker buys its leather like it buys its steel, the best in the market.
