

Do You Have Headache?

If you do, very likely it comes from your eyes and can be relieved with properly fitted glasses. Eye strains, headache and nervous troubles, the result of optical defects can be relieved. My examinations are made by the most modern methods and greatest care exercised in the selection of the proper formula for the lenses in every instance.

EXTRAORDINARY FIND OF HISTORIC POTTERY

Santa Fe, N. M., July 21.—An extraordinary find of historic pottery and relics has been made by Earl Morris, excavating Pueblo ruins at Aztec, San Juan county, with a force of 25 men for the American museum of natural history. The discovery includes 60 pieces of rare pottery over 20,000 carved red and black stone heads, baskets, matting, knives, battle-axes and other stone implements. Turquoise beads, mosaics and shell ornaments are classed as among the finest ever excavated in the south-west.

Grains of corn with cobs, tassels and husks were found intact, as were also beans and bean pods, pumpkin seeds, pine cones, cotton fibre, Yucca leaves, rushes, cotton yarn and cloth, sandals, snow-shoes, beaver teeth and bones of animals and human beings. One skeleton, in a sitting position, indicated the man had been decapitated. The find was made in an underground communal dwelling buried for centuries.

SUNSHINE AND SMILES

(By Ewart W. G. Huffman)

Let me off at dreamland station
Let me off at dreamland station
There's the place I love to go,
Neath the moonlight's sweet emotion
Where the fairies live and grow,
There be stars and milky heavens,
Azure sky from east to west:
Say, I'll get off at Dreamland station
And with thee dear love I'll rest.

Let me off at dreamland station
That's the country I love best,
Teachers, preachers, clerk and nation,
All come here and go way blessed.
Lovers Lane and June eternal,
Crowned by daises in the dell,
And the big-eyed moon that watches
Like the daises—he won't teil.

Let me off at dreamland station
Just next door to cupid's home,
Love dwells there whose occupation
Is to make a happy home.
Dreaming sweet, so sweet that
Things called earthly cannot be,
For it's here you love and loving's
Always half the world to me.

The air is full of music,
The woods are full of sweets,
And everybody's smiling
At everyone he meets,
And it's good to be a-living
When men are men, not cheats.

Take a gill of sunshine
And a pint of smiles,
Mix a little laughter
And steam it till it biles'
Then put a quart of loving
And 'bout as much o' joy,
Then drink it down and run and play,
And be again a boy.

U-BOAT DANGER IS NIL IF STEAMERS ARE SPEEDY

New York, July 20.—Danger from submarines is virtually non-existent if the vessels attacked can attain a speed of 20 knots an hour, according to charts displayed at a ship building conference held here under the auspices of the chamber of commerce of the state of New York. The chart showed that 100 per cent of vessels with a speed of five knots or less which had been attacked by submarines have been sunk, the percentage of losses decreases steadily as the speed of the ship increases. At 16 knots an hour the percentage sunk has been about 25.

"If the present rate of sinking is maintained without the full force of our industrial efforts, there can be only one conclusion; and that is that we shall lose the war," declared E. H. Outerbridge president of the chamber, in outlining the seriousness of this submarine campaign.

THE SOUTHERN RAILWAY COMPANY

An Ambition and a Record

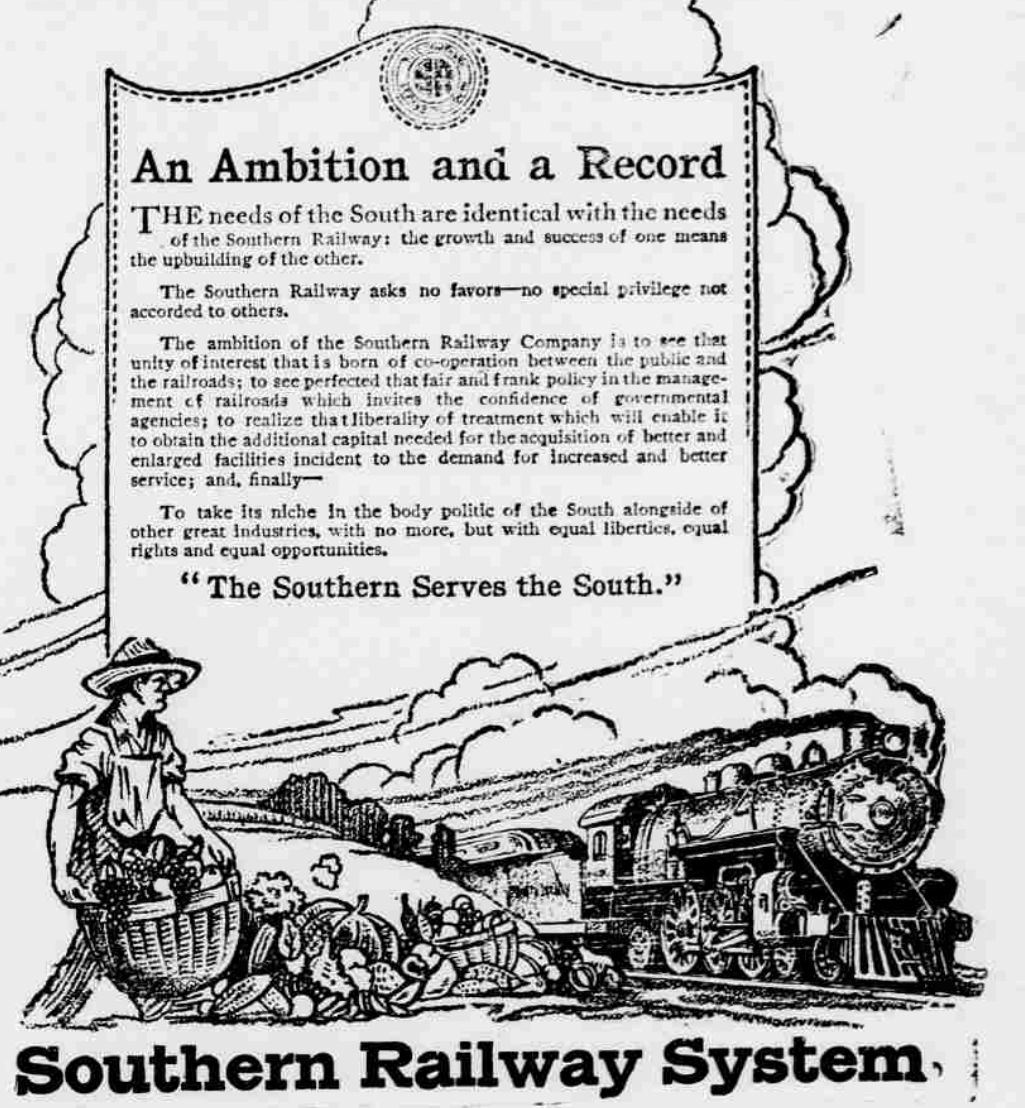

THE needs of the South are identical with the needs of the Southern Railway; the growth and success of one means the upbuilding of the other.

The Southern Railway asks no favors—no special privilege not accorded to others.

The ambition of the Southern Railway Company is to see that unity of interest that is born of co-operation between the public and the railway; to see that the public and the railway are united in the management of railroads which insure the confidence of governmental agencies to realize that liberality of treatment which will enable it to obtain the additional capital needed for the acquisition of better and enlarged facilities incident to the demand for increased and better service; and, finally—

To take its niche in the body politic of the South alongside of other great industries, with no more, but with equal liberties, equal rights and equal opportunities.

"The Southern Serves the South."
