THE SOUTHERN RAILWAY COMPANY An Ambition and a Record THE needs of the South are identical with the needs of the Southern Railway; the growth and success of one means the upbuilding of the other. The Southern Railway asks no favors—no special privilege not accorded to others. The ambition of the Southern Railway Company is to see that the railroads to see perfected that fair and frank policy in the management of railroads which invites the confidence of governmental agencies; to realize this liberality of treatment which will enable it to obtain the additional capital needed for the acquisition of better and enlarged facilities incident to the demand for increased and better service; and, finally, To take its place in the body politic of the South alongside of other great industries, with no more, but with equal liberties, equal rights and equal opportunities.
