RHEUMATISM

Physician Believes a Genuine Remedy for the Disease Has Been Found

Rheuma, the wonderful rheumatism remedy sold by Hickory Drug Co., and all druggists, gives quicker and more lasting relief than other remedies costing many times as much.

Rheuma passes the deadly poisonous secretions into the bowels, and kidneys, from which they are quickly thrown off in a natural, healthy way.

Read what a reputable physician says about Rheuma: "I have made a most careful investigation of the formula employed in the manufacture of Rheuma, and I heartily recommend it as a remedy for all forms of rheumatism. I find Rheuma far in advance of the methods generally employed in the treatment of rheumatism, and altogether different in composition from the remedies usually prescribed."—Dr. Lyons.

This should give any sufferer from rheumatism confidence to try Rheuma.

WEEK-END HOLIDAY

MOVEMENT INAUGURATED BY NEW JERSEY BANKER.

Would Also Have All Days of Celebration, Except Christmas and New Year's, Observed on Week's Last Working Day.

A holiday that would be celebrated over the entire North American continent north of the Rio Grande is one of the possibilities of the Saturday full holiday national movement that has been started here by Alfred N. Chandler, a banker, says a Montclair (N. J.) dispatch to the New York Sun. The movement is to be of wide scope and headquarters, in charge of Mr. Chandler, are to be opened in Newark. The object of the movement is to have the present "fixed date" holidays, except Christmas and New Year's days, shifted to specified Saturdays nearest the dates of their present observance, and as an equivalent offset in annual holiday hours thus gained, the adoption of eight Saturday full holidays in the summer time, including Independence and Labor days.

Whether Washington was born on the twenty-second calendar day of February or on the third Saturday of February; whether Lincoln was born on the twelfth calendar day of February or on the second Saturday of February; whether the Declaration of Independence was adopted on the fourth calendar day of July or on the first Saturday of July; whether Columbus discovered the western hemisphere on the twelfth calendar day of October or on the second Saturday of October—none of these precise dates of the calendar is of paramount importance when compared with the spirit of the event commemorated in the minds of those who are behind the Saturday full holiday national movement.

"The business and professional man in these days begins the week's work on Monday mornings keyed up in spirit for five or five and a half days of continued and uninterrupted effort," said Mr. Chandler in speaking of the movement, "but on the average in every sixth week there comes with a bang a legal holiday in the middle of the week. At such times it becomes difficult to throw off the pressure, to relax, to get the holiday spirit. We prefer rather, once we have started, to prefer the continuous week's work and begrudge the time lost, feeling that we are not doing our duty to ourselves, our families or our business.

"This interruption would be materially lessened if the different states would adopt the plan of observing their various legal holidays on specified Saturdays instead of on fixed calendar dates," continued Mr. Chandler. "Dominion day is observed throughout Canada on the first day of July. Should we decide to observe our Independence day annually on the first Saturday in July it is not unlikely that the Canadians would conclude to observe their Dominion day on the same day. Such harmony would be of sentimental benefit and a gain usually of one business day each year in business intercourse between the two peoples."

As showing the tendency upon the part of mercantile business toward a Saturday full holiday, Mr. Chandler pointed out that a leading department store in New York city has for the last 15 years made every Saturday in July and August a full holiday for its employees, and during the last two summers the number of stores that have been closed all day Saturday has so rapidly increased that last year there were 24 prominent retail stores in New York city which were closed all day every Saturday in July and August.

Mr. Chandler also points out that an average of four and a half days would be added to the school term by having Saturday holidays.

VICTORY ASSURED

The South Falls In Line.

A short time ago the name of Ironized Paw-Paw was unknown in Virginia, North and South Carolina—all had been accustomed to hear of the old reliable Paw-Paw Tonic.

The march of progress and science brought Iron and Nux to universal use, then our chemists got busy and added these two important items to the original Tonic, in use for the past 25 years, making a compound of 3 powerful forces into 1, now known as Ironized Paw-Paw.

Since January 1, 1917, we have introduced this great and new remedy into nearly every city and town in Virginia and now completing North and South Carolina. Thousands of bottles have been sold and in no one single instance has any dissatisfaction been made known.

We stand or fall on the merits of our preparation. Remember! It is not a cure all. We point the road to health—Nux for the nerves—Iron for the blood—Paw-Paw for the stomach.

Don't trifle with your health. If you need a tonic, are run down, nerves disordered, or stomach weak and troubled, seek no further! You have the remedy at hand—Ironized Paw-Paw, which has stood the test of time.

Ironized Paw-Paw Remedy will do more than brighten the world; to dispel gloom to 111ke happy homes and strong iron bodies, than all the medicines that have been compounded. The evidence we are publishing every day should be conclusive proof.

There is no guesswork about these statements, they come from your neighbors, from people you can go and see and from people you are bound to believe.

A system that is overworked or run down requires a harmless stimulant. Ironized Paw-Paw lifts and holds you. Your druggist probably keeps it, but if he doesn't it is sold at the Hickory Drug Co.

Ironized Paw-Paw, price \$1. Formula on every bottle. Mail orders promptly attended to. Interstate Drug Co., Inc., New York. adv

show great generalship. It so happens that the resignation from the department is not conditioned upon any actual work, but leaks from the department indicate that it is the same old trouble between the Kilgore and the commissioner. The going of Dr. Flowe will intensify the feeling that "foreigners" have control of the division of agriculture.

The number of men trained at State College of Agriculture and Engineering and the old A. and M. now in the state department is testimony to the friction that goes on. The North Carolina college's contribution to the department teaching agriculture is as nearly nothing as it could be either by accident or design. And this makes for disagreements, albeit that circumstance has not figured in the fuss.

Roberts to Succeed Flowe

It is expected that Dr. Roberts, assistant veterinarian, will succeed Dr. Flowe whose resignation goes into almost immediate effect.
