The Hague, Netherlands, Aug. 2.—The Germans are steadily carrying out their scheme of dividing Belgium into two parts, comprising the Walloon or French speaking and the Flemish provinces respectively. The past month has seen the splitting up of the ministry of the interior and the ministry of foreign affairs, leaving only two departments not yet affected, those of finance and of justice. The Walloon ministers are being transferred to Namur, the German appointed capital of the French half of Belgium, the Flemish remaining at Brussels. Where the Belgian officials have refused to lend their cooperation and obey the German instructions, and this has occurred in the case of a number of leading administrators, such dissenters have been replaced by men more pliable in German hands, often chosen from among those who had lent themselves to forwarding the separation idea or have otherwise commended themselves to the occupying power. According to the "Tageliche Rundschau," each of the projected parts of Belgium is to have its own budget.

Corns Peel Right Off With "Gets-It"

2 Drops, and the Corn is a "Goner!"

When you've got to walk on the sides of your shoe to get away from those awful corn-pains, there's only one common-sense thing to do.

Put 2 or 3 drops of "Gets-It" on the corn right away. Pain and inflammation will disappear, the corn will begin to shrivel from that instant—then it loosens and falls right off.

There's no other corn-remover in the world that acts like "Gets-It." No new discovery has been made in corn-removers since "Gets-It" was born. Don't forget that fact. "Gets-It" does away forever with the use of salves that irritate, bandages that make a bundle of your toe, plasters that half do the work. Knives and scissors that draw blood. Use "Gets-It"—no more digging or cutting. "Gets-It" is sold everywhere. See a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill. Sold in Hickory and recommended by Hickory Drug Co.
