HAVE YOUR WATCH CLEANED OCCASIONALLY.

A WATCH will run without oil or cleaning longer than any other piece of machinery—but it needs both occasionally.

If you will consider that the rim of the balance wheel travels over fifteen miles a day, you will not grudge your watch a speck of oil and a cleaning once a year. It will increase the life and accuracy of your watch. Leave your watch with us to-day.

THE SOUTHERN RAILWAY COMPANY

An Ambition and a Record

THE needs of the South are identical with the needs of the Southern Railway: the growth and success of our means the upbuilding of the other.

The Southern Railway asks no favors—no special privilege not accorded to others.

The ambition of the Southern Railway Company is to see the unity of interest that is born of co-operation between the public and the railroads; to see perfected that fair and frank policy in the management of railroads which invites the confidence of governmental agencies to realize that liberality of treatment which will enable it to obtain the additional capital needed for the acquisition of better and enlarged facilities incident to the demand for increased and better service; and, finally—

To take its noble in the body politic of the South alongside of other great industries, with no more, but with equal liberties, equal rights and equal opportunities.

"The Southern Serves the South."
