FRIDAY AUG. 17, 1917

VARDAMAN IS WORSE

When such men as Vardaman are permitted to exercise themselves in the senate without restraint, uttering words that would make trouble for persons in the ordinary walks of life, one does not feel like criticising them for their foolish words and activities.

The difference between Vardaman and his imitators is that he is supposed to know better; the others are misled by such as he. His offense therefore is all the greater.

HANDLE THE SPEEDERS

Persons who live on sandclay roads whether in Hickory or in the country, have no patience whatever with automobilists who dust through the community at a lively rate of speed, with cut outs thrown wide open, and every device attuned for causing discomfort.

The reckless driver is not only a menace to himself, but is a positive nuisance and danger to persons living along highways. It is not comfortable for one's house to be filled with dust. Breathing it is bad and injurious.

Automobile owners should have a proper regard for the feelings and comforts of others. If they haven't this regard, then the officers of the law should intervene and make them pay for their fun.

The public is expecting Lens to fall at any time. Canadian troops have been fighting in the city and the place is almost surrounded. Its capture would turn the Germans out of a section that has furnished them fuel to operate their trains and make their position all the more difficult to maintain on the rest of the line.

The Catawba Cooperative Creamery, long since past the experimental stage, enters its eighth year of usefulness with prospects of expanding its already large trade in butter, eggs and other products.

North Carolina consumed from 3,000,000 to 5,000,000 bushels of wheat more than is produced and the majority, including many farmers in the east and south, will be benefited by lower prices.

Those wounded Americans carried to Bath, England, hospitals undoubtedly were volunteers in the British army, for if American troops under Pershing had gone into battle the war department would be aware of it.

From all accounts the Confederate reunion at Newton Thursday was the best yet held. As long as there are left any of the heroes of the War Between the States, it is a good custom to gather somewhere and do them honor.

MAJOR PRATT

Dr. Joseph Hyde Pratt of Chapel Hill, state geologist, will be major in command of the North Carolina engineers who go with the first expedition to France.

We have always felt that the Catawba County News was a sort of hyena, but the News corrects us. It does us good to hear the News say it is all right, and we trust it is sincere.

Farmers who held their wheat for \$5 a bushel instead of selling it for \$2.75, may be forced to turn loose for \$2—which is a big price under normal conditions.

FOOD COMMISSIONERS ARE NAMED IN 28 STATES

Washington, Aug. 17.—Appointment of 28 men as federal food commissioners in as many states was approved by President Wilson.

THE SOUTHERN RAILWAY COMPANY

An Ambition and a Record

THE needs of the South are identical with the needs of the Southern Railway; the growth and success of one means the upbuilding of the other.

The Southern Railway asks no favors—no special privilege not accorded to others.
The ambition of the Southern Railway Company is to see that unity of interest that is born of co-operation between the public and the railroads; to see perfected that fair and frank policy in the management of railroads which invites the confidence of governmental agencies; to realize that liberality of treatment which will enable it to obtain the additional capital needed for the acquisition of better and enlarged facilities incident to the demand for increased and better service; and, finally—
To take its niche in the body politic of the South alongside of other great industries, with no more, but with equal liberties, equal rights and equal opportunities.

"The Southern Serves the South."
