MONDAY, AUG. 20, 1917

The Record acknowledges receipt of "Common Rocks and Rock Minerals" by Dr. Collier Cobb, professor of geology in the University of North Carolina, and one of the foremost experts in his line in the country. Incidentally this is the second edition of the little volume, which we will find use for. Dr. Cobb believes that a man who has not a bowing acquaintance with the rocks and minerals of his section is not a very good citizen and according to Roy Abernethy the professor can never forgive a fellow who refers to quartz as pints.

General Korniloff's assurance that the Russians are improving in fighting morale is encouraging at this time. The 1917 campaign may not prove decisive, but if all the allies are ready by spring 1918 to deal some hard blows on each front, the conflict soon will be brought to a close. If the Germans do not succeed in their schemes of conquest by the first of the year, however, they will not wait for the pressure that all the allies will be ready to exert in the spring.

A restatement of the peace terms or war aims of the allies, called forth by the people's efforts to stop the great war, may so clarify the situation in Austria-Hungary that an early peace will follow. Austria-Hungary, with its many subject races, is desperately in need of a chance to save the structure of government from falling, and that country would be glad to accept almost anything short of disintegration from within.

The Washington correspondent of the Greensboro News learns that 700 Belgian children, with an arm or other limb hacked off by the Germans, have been taken to Canada, where homes will be provided. That's one story we don't believe, although the Prussians have practiced cruelty on their prisoners, both children and men.

Former Judge J. Crawford Biggs of Raleigh is said to be slated for the position with the department of justice as special attorney in the investigation of alleged land and oil frauds on the Pacific coast. Judge Biggs, it is said, has been offered the place made vacant by the death of E. J. Justice, and the country will gain if he accepts.

The one-cent stamp tax on bank checks has been defeated by the senate, but in the various changes that will be made before the war revenue bill is passed finally the tax may be re-inserted. There is no guessing as to what might happen.

Germany has been asked to state its war aims on at least one occasion, but the Prussians prefer to keep their secret. They prefer dark rather than light because their deeds are evil.

Men drawn for the draft who fail to report are classed as deserters, and deserters in war time do not receive much consideration.

At least one more rain in this section would assure the corn crop a maturing and prospects for the past two days have been favorable.

MAN AND BRIDE STRUCK AND KILLED BY TRAIN

Gastonia, Aug. 20.—Horace Smith and his bride of a week were struck and killed by an eastbound Southern train at the Loray grade crossing in West Gastonia about 11 o'clock Saturday night. Smith was killed instantly, his body being badly mangled. His wife was taken to a local hospital where she died a few hours later. The couple lived at Rutherfordton where they were married a week ago. They were visiting relatives here. The bodies were shipped to Rutherfordton.

ACCOMPLICES IN GRACE

New York Herald. The Manufacturers' Record pays its compliments in no uncertain terms to the persons in this country who are advocating a Prussian peace. "Weak minded degenerates, men and women, led by Germany's lecherous traitors to America and to civilization, will struggle to save Germany from defeat and punishment. Let such people be branded now as the accomplices of the rapists and the murderers, the favored friends of Barbarism run rampant and let every honest woman and decent man forever shun and ostracize every degenerate man and woman who under the false cry of peace joins in the effort to save Germany from paying the full penalty of its hellborn and hell-guided work."

Those are strong words, but not too strong. They express the sentiments of all true Americans. We are in this war to preserve civilization as we understand civilization. For Americans there can be no peace unless it does not come as the result of the unconditional surrender of Germany, no peace that does not mean the overthrow for all time of Prussianism, no peace that does not provide reparation as well as restoration, no peace that does not contain in it provisions of punishment for the crimes committed, collectively and individually, by Germans for and in the name of Germany.

COLLEGE BUSINESS AS USUAL

News and Observer. President Edward K. Graham, of the state university, has addressed a letter to the alumni of the institution declaring that in his opinion, an alumnus cannot perform a higher service to the state and country than by doing all he can to influence young men not yet called into government service to go to college.

There should not be any falling off in the attendance of our educational institutions on account of the war. In war and in peace the need is for trained and educated men. The brains of the war is just as important as the brawn of the war. The nation cannot permit its supply of educated men to be diminished by war or by any other emergency. Rather it should seek in war to increase its supply, for the demand is greater than in times of peace.

The danger is, as President Graham points out in his letter, that the opportunities for employment resulting from so many men being called into war service will cause many young men to be prevented from going or returning to college. It is here that the alumni of the various institutions can get in some good work. Let them advise as between going to work and going to college, that the young man go to college. This is safe advice, for whether the war lasts a year or five years the educated man of the future will be the one best equipped to serve himself and his state and country.

HOW TO BE RID OF DANGEROUS DANDRUFF

The only way to get rid of dandruff—the sure hair destroyer—is to remove the cause. Dr. Sangerbund, the famous Paris Specialist, discovered that dandruff and falling hair are caused by a microbe. Then came the discovery of the value of the genuine Parisian sage (liquid form) to destroy this germ and promptly prevent the further loss of hair. Get from your druggist about four ounces, and rub a small quantity well into the scalp. Only a few applications are usually needed to destroy the germs that cause dandruff; your scalp will immediately feel cool and comfortable, and your hair appear soft, bright-looking, and seems heavier than it really is. Since Dr. Sangerbund's discovery the American people are realizing that dandruff is as unnecessary as it is dangerous, and that they can be quickly rid of it and save their hair by a few days' use of this inexpensive and harmless liquid. Be sure you get the genuine Parisian sage (Giroux's) for this brand. It will not stain the hair and is guaranteed to give perfect satisfaction or money refunded by the Hickory Drug Co., can supply you.

RUSSIA AND HER ALLIES

Springfield Republican. In the Stockholm affair it is perhaps necessary to distinguish more markedly than usual between the Russian government and people because the government, while popular, can hardly as yet be called stable. It would not help the allies, for example, to persuade the government to their way of thinking about the conference if the government could not carry Russia with it. A difference of opinion on this point is probably at the bottom of the recent clash in the British cabinet. While Lloyd George takes at face value the concessions of the Russian government, and probably is careful to avoid looking under the surface, Mr. Henderson during his visit to Russia evidently formed a clear impression that a conference was greatly desired, and that participation would strengthen the cause of the allies. Which is in the right may perhaps be shown by the reactions in Russia. Very curious indeed in Lloyd George's remarks in his reply to Mr. Henderson: "In Russia there is a socialist government which has not the whole of the facts." Who is concealing the facts and what kind of facts are referred to? The reference is mystifying and seems in a measure to suggest that Mr. Henderson is correct in thinking that Russia has not in reality abandoned its desire for the conference. If that is the case it would appear to be the duty of the allies, finding themselves unable to assent in this matter, to use the utmost promptitude and energy in finding other ways to reassure the Russian government and people.

WORLD MOVES FORWARD WITH LONG STRIDES

Peace Has Its Victories No Less Than War—Science Robs Calomel of Its Nauseating and Dangerous Qualities—Calotabs the New Name.

Here is good news for the sixteen hundred million of people in the world who have livers to be cleaned, systems to be purified and biliousness, constipation and indigestion to be corrected. Calomel, the only successful liver medicine, has been robbed of its griping, nauseating and dangerous effects. Calotabs, the new name, makes calomel taking a real pleasure. In future, ask your druggist for Calotabs, the de-nauseated calomel tablet. He is authorized to refund the price if you are not "perfectly delighted" with Calotabs. One tablet on the tongue at bedtime, a swallow of water—that's all. No taste nor unpleasantness of any kind. You wake up in the morning feeling fine, with a hearty appetite. Eat what you please and go about your work. The genuine Calotabs are sold only in original, sealed packages—never in bulk. Price thirty-five cents for twenty doses. Your money back if you are not thoroughly delighted.

Nuxated Iron Makes Strong, Vigorous, Iron Men and Beautiful Healthy Rosy Cheeked Women

Dr. Howard James, late of the Manhattan State Hospital of New York and formerly Assistant Physician Brooklyn State Hospital, says: "Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good. You don't get the strength out of it, and as a consequence you become weak, pale and sickly looking, just like a plant trying to grow in a soil deficient in iron. A patient of mine remarked to me (after having been on a six weeks' course of Nuxated Iron), 'Say, Doctor, that there stuff is like magic.'"

"If you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. From my own experience with Nuxated Iron I feel it is such a valuable remedy that it should be kept in every hospital and prescribed by every physician in this country."

Nuxated Iron, recommended above by Dr. James, is the only all good druggists on an absolute guarantee of success and satisfaction on your money refunded.
