MURPHY'S CANDIDATE

New York World. John F. Hylan is probably the deepest political mystery that York has ever had to solve. is he? How did he happen? What induced Tammany to take him as its candidate for mayor? wished him upon Murphy?

Whatever may be said against Tammany, it has a great number or men of recognized ability, of wide experience in public service and of high reputation. Instead of taking one of them, the organization reaches into Brooklyn and picks up an obscure county court judge who was never heard of until he was dragged into the municipal campaign. Having invented an issue, it would appear that Murphy had also invented a candidate. No more extraordinary proceeding

has ever been known in New York politics, and if the rank and file of Tammany meekly accepts Judge Hylan as its candidate for mayor, Chas. F. Murphy will become instantly eligible for membership in the American humorists' association.
