

Do You Have Headache?

If you do, very likely it comes from your eyes and can be relieved with properly fitted glasses. Eye strains, headache and nervous troubles, the result of optical defects can be relieved.

My examinations are made by the most modern methods and greatest care exercised in the selection of the proper formula for the lenses in every instance.

GROUND BROKEN FOR YOUNG MEN'S DORMITORY AT BOONE
Boone, Aug. 24.—The last term of the Appalachian Training school, which closed the past week, was one of unusual interest. The students were for the most part from east of the ridge and represented a large number of the far eastern counties. The fall term began on the 21st with a number as usual for the first day in spite of the fact that a number of the older students were among the drafted ones.
Ground has been broken for the new young men's dormitory and the work will be pushed as rapidly as possible.

NEGRO PREACHER MEETS DEATH AT MOB'S HANDS
York, S. C., Aug. 24.—W. T. Sims, a negro preacher about 50 years of age, met death five miles from here at the hands of a mob composed of unknown white men and negroes who were spending the night at the home of Bob Burris, who states that the yard was full of men of both races at the time Sims was removed. Sims was shot in the legs, wounded in the head and brutally beaten.
Sims was found about 500 yards from Burris' home shortly after daylight. He was conscious at the time, but could give no coherent story of the night's happenings. He did say that he knew of no cause why he had been so treated.

It is said by members of his race that he had made reckless statements about the war and had endeavored to stir up opposition to the draft.
It is said that he had incurred the enmity of many members of his congregation of late because of keen criticisms and alleged misappropriation of church funds.
Two men, Fred Peninger, white, and Frank Twitty, colored, are being held by the police on charge of complicity in the crime.

SABOTAGE SEDITION IN WAR NEW YORK WORLD
Industrial workers of the world leaders engaged in fermenting disorder and destructive strikes have been arrested and locked up at Spokane, Wash., by national guardsmen now in the service of the United States. These arrests must therefore have been made on orders from Washington. They are accordingly indicative of a purpose of the national government to take a hand in suppressing the lawless and seditious activities of this organization among the lumber and farm and mine workers of the far west.
"You are military prisoners and are not detained under the civil law," said the major commanding in the arrests at Spokane. This may convey a wrong impression. The civil courts are open in the affected region. Their authority has not as yet been superseded by a declaration of martial law. The habeas-corpus writ is presumably still available. But the industrial workers of the world are hereby given notice that federal law is going to have something to say in their cases from now on, and that federal soldiers will be used to any extent necessary in bringing them under that law.

It has become high time that summary action was taken. These industrial workers of the world leaders are not engaged in promoting strikes or ordinarily understood. They are organizing sedition against the United States in time of war, as their choice of lumber camps and wheat fields and mines for concerted idleness and destruction so well testified. They are now making of their policy of sabotage more than a harmless nuisance or crime. Sabotage becomes seditious, and sedition is going to be death with by a strong hand.

PERU STANDS READY TO BREAK WITH GERMANY
Washington, Aug. 24.—Peru's readiness to break relations with Germany is clearly indicated in the Peruvian president's recent message to congress which was received from the American minister and made public by the state department. The attitude of the United States in entering the war was indorsed and it was intimated that Peruvian waters were open to American warships.
Unofficial dispatches from Amsterdam saying Peru had sent Germany an ultimatum as the result of a German prize court's refusal of damages for the sinking of the Peruvian sailing vessel Lorton created no surprise at the state department. The Peruvian president's message to congress said:
"Peru, which in all its acts of international life, has endeavored to incorporate these principles of justice in the political relations of the American people; Peru which in a war not far back sacrificed for these ideals the blood of its sons, the riches of its treasuries and the hopes of its future, cannot be indifferent to the words of President Wilson and adherers, once more to such noble purposes."
