NOTICE OF RIGHT TO DEMAND THE SUBMISSION OF WATER BOND ORDINANCE TO A VOTE OF THE QUALIFIED VOTERS OF THE CITY OF HICKORY.

Whereas on the 14th day of August, 1917, the City Council of Hickory passed an ordinance authorizing the issuance of the City of Hickory's Bonds in an amount not in excess of fifteen thousand dollars for the purpose of extending the water works system.

And whereas said ordinance contained a paragraph in literal compliance with Section 17 (1) (j) III of "The Municipal Finance Act of 1917," providing that said ordinance should not be submitted to the voters of the city, unless within thirty days after its first publication a petition for its submission was filed under said Municipal Finance Act.

And whereas said portion of said section is inconsistent with other parts of "The Municipal Finance Act of 1917," other parts containing provisions for submission to the voters upon filing a petition within thirty days after the last publication of said ordinance:

And whereas the City Council desires to comply with the spirit as well as with the letter of the law:

Now, therefore, notice is hereby given that the said Water Bond Ordinance will be submitted to the voters for their approval or disapproval, if a petition is filed within thirty days after the last publication of said ordinance; and that the city will not issue or attempt to issue any Water Bonds until thirty days after the last publication of said ordinance has passed without a petition having been filed or if one is so filed will not issue or attempt to issue such bonds, unless the ordinance shall be approved by the voters of the city. The voters have until the 10th day of October, 1917, to file a petition for referendum.

JOHN W. BALLEW,
 9 21 to 10-10 City Manager.

NEW ORLEANS MAY CLOSE VICE DISTRICT

By the Associated Press.
 New Orleans, Oct. 2.—Mayor Berhman said today that the city council at a meeting tonight would be called on to enact an ordinance for closing the New Orleans restricted district, for years one of the most notorious in the country. This action will be taken on request of Secretary Daniels to eliminate objectionable features where soldiers and sailors are quartered.

CLOSED FOR SCARLET FEVER

To determine the responsibility for closing the school at English Chapel in Transylvania county, on account of scarlet fever, is the purpose of the state board of health sending its representative, Dr. T. M. Jordan, to that county to make an investigation of the scarlet fever situation and place the responsibility for its spread where it belongs. Information came to the board that the school had been closed and that the quarantine officer was not consulted—evidence that the new state quarantine law is not in good working order. The board, eager to get the law working effectively in every county and its purpose firmly impressed upon the minds of the people, considers that such a situation demands an investigation both in the interest of the law and to check the spread of the disease.

There are three possible agents, the board explains, on whom the responsibility of the epidemic and the closing of the school could rest. If the physicians failed to report the cases of scarlet fever, as they occurred, to the county quarantine officer, they are responsible for the disease spreading. If they did report, and the quarantine officer failed to quarantine the disease, also to give the proper instructions and literature to both parents and teachers, concerning the control of contagious diseases, upon him rests the responsibility. And if both the physicians and the quarantine officer did their duty and the parents failed in theirs or the teachers neglected to comply with the instructions given them, then they are responsible.

The closing of a school on account of some contagious disease heretofore has been common and called for no investigation or comments. But in the light of the new state quarantine law, such a situation demands an investigation in short order and implies that the requirements of the law have not been complied with.

How to Stop Loss of Hair and Start New Growth

If your hair is thinning out, lifeless, full of dandruff, and your head itches like mad, it's a sure sign of the dangerous dandruff germ, and quick action must be taken to save what hair you have and start a new growth. Don't wait until the hair root is dead, for then nothing can help you, but get from your druggist four ounces of Parisian sage—it don't cost much and there is nothing you could use that's any better. Dr. Sangerbun, the famous Paris specialist, discovered that dandruff and falling hair are caused by a microbe—then came the discovery of the value of Parisian sage (liquid form) to destroy this germ, prevent falling hair and the formation of dandruff. A few massages with Parisian sage are all that are usually needed, and very soon you should be able to see the new hairs coming in. Parisian sage is women's favorite hair dressing, because it will not stain and makes the hair lustrous, soft and fluffy. Be sure you get Parisian sage (Giroux's), for this brand is guaranteed by the Hickory Drug Co. and can supply you. adv
