

# Between U. S. AND Devastation

Behind the shielding shelter of LIBERTY BONDS stands all that we hold dearest and most sacred--life, liberty and loved ones--facing a crisis more direful than any America has ever been called upon to face before. A crisis that threatens the very existence of the Nation --of our homes--and loved ones.

For should victory rest upon the banners of the Teutonic Allies in Europe, an invasion of America to wrest staggering tribute would be the next step in the Prussian program of world conquest and dominion. An invasion that would lay waste to great cities, turn peaceful towns and villages into havoc-strewn scenes of desolate horror and leave a galling yoke of tyranny and despotism for future generations to bear.

It is to prevent this that our sons have laid aside the habiliments of peace to don the kahki of the soldier. Every state, every city, every town and village of this vast country, have contributed their quota of fighting men, ready to do or die in the cause of liberty.

## Can We Afford to be Less Patriotic

Emphatically NO! Let us show them that we are with them in spirit even though we may not march at their side, ready to provide them with every comfort and equipment necessary to insure victory to their arms. Help them to uphold the glorious traditions of our Nation by subscribing liberally to the Second Liberty Loan of 1917, for every dollar invested in a Liberty Bond helps to shorten the war, and bring early, honorable Peace.

### HAIR HINTS

Helpful Advice for Care of the Hair Worthy the Attention of Everyone Who would Avoid Dandruff, Itching Scalp, Gray Hair and Baldness.

If your hair is getting thin and you are troubled with dandruff or itching scalp, get four ounces of Parisian sage from your druggist. This helps to prevent baldness and grayness and keeps the scalp clean.

"Before going to bed I rub a little Parisian sage into my scalp," says a woman whose luxurious, soft and fluffy hair is greatly admired. This keeps the hair from falling out and makes it easy to dress attractively.

Everyone knows sage is good for the hair, but be sure to get Parisian sage (Giroux's), for this brand will not stain the hair and is delicately perfumed. Hickory Drug Company can supply you. adv

### GLAD TO TESTIFY

Says Watoga Lady, "As To What Cardui Has Done For Me, So As To Help Others."

Watoga, W. Va.—Mrs. S. W. Gladwell, of this town, says: "When about 15 years of age, I suffered greatly... Sometimes would go a month or two, and I had terrible headache, backache, and bearing-down pains, and would just drag and had no appetite. Then... it would last... two weeks, and was so weakening, and my health was awful. My mother bought me a bottle of Cardui, and I began to improve after taking the first bottle, so kept it up till I took three... I gained, and was well and strong, and I owe it all to Cardui. I am married now and have 3 children... Have never had to have a doctor for female trouble, and just resort to Cardui if I need a tonic. I am glad to testify to what it has done for me, so as to help others."

If you are nervous or weak, have headaches, backaches, or any of the other ailments so common to women, why not give Cardui a trial? Recommended by many physicians. In use over 40 years. Begin taking Cardui today. It may be the very medicine you need. NC-130

### NORWAY IS ACTIVE IN FIGHTING SPIES

By the Associated Press. Christiania, Oct. 16.—Norway is making vigorous efforts to stamp out German espionage within its shores. The Swedish revelations have given a great impetus to the anti-spy campaign.

The interned German ship, "Berlin," is to be removed from Hommelvik to Aegsenford, further inside the coast line. It has been urged for a long time that the position of the "Berlin" offered opportunities for espionage on shipping. Guards have been placed not only over all Norwegian military establishments but also at some of the large industrial works. Thus a military picket has been posted at the Fredrikstad iron works, where the new slips for 10,000-ton ships are now ready, and trespassers have been warned to keep away.

Under a law of July 1917 the commune of Christiania has ordered that the chief of police may forbid persons who are not Norwegians to reside in the Commune longer than a certain fixed period. A new law concerning the necessity of passports and the expulsion of aliens is to be rigidly enforced after October 1.

A spy case which caused a great flurry for a time was that of a Dane named Kristiansen who has now been expelled from the country. The whole affair developed into an impudent fraud, with one of the belligerent governments as the victims. Kristiansen was obtaining money from this government by giving it promising to give information of no real value about another.

### BERNSTORFF AND THE TURKS

New York World. A little while ago it was intimated in certain quarters that Count von Bernstorff's appointment as German ambassador at Constantinople was a punishment for his failure to rise to the full dignity of frightfulness in the United States. In view of later developments, and considering the thing that the Turks did to the Armenians the count has every reason to regard the designation as a promotion and reward.

### WANTS AMERICA TO SUPERVISE BALKANS

By the Associated Press. Amsterdam, Oct. 16.—American control or supervision of the Balkans is advocated by the Bulgarian newspaper Mir, in a large editorial which says in part:

"Of all the belligerents the Americans alone are in a position to form a true appreciation of the situation in the Balkans. They are interested and well acquainted with local conditions, and are in a position to give everybody his due. Having such a knowledge of the Balkan peninsula, they ought to have the moral will to exert their authority on their allies in the interest of peace and democracy in the Balkans."

"We do not ask that America should take our side and that she should protect us. We know that she should take the defense of pressed rights in our country, and that she should become an impartial judge between us and her allies. We desire that she should bring a situation in the Balkans which will be in agreement with the principle of national unification. International justice and true democracy. We would like to see the United States exerting their moral authority not only where their material interests are affected but also where moral truth and sacred justice call for them. Devastated Macedonia cries for justice to all the world. Can America remain a silent witness when other countries are endeavoring to subjugate Macedonia?"

### MARGUERITE CLARK AT THE PALACE

The special attraction at the Palace this afternoon and tonight will be Marguerite Clark in "The Valentine Girl," Paramount picture in five parts. The following is the story: Always beautiful, Marguerite Clark has in her latest Famous Players screen play one of the most appealing parts of her picture career, that of little Marie Moran, whose father, always so good to her, always remains a great, benevolent man, never to be a professional gambler, a card sharp. But the unhappy revelation of what he was and the shattering of Marie's ideal were but the beginning of the story. The hungry appeal of the little girl for love and sympathy, her injured perplexity when the other little girl will not play with her, her own ways to see the sunny side of things contribute to make "The Valentine Girl" thoroughly delightful.

### OBJECTS TO PASSION

The detestable practice of chasing the whole German nation together as assassins and murderers seems to be coming into favor. Stamp speakers, sent out by defense societies are evoking in the name of American patriotism the most malignant and venomous passions of their audiences, not only against the whole German nation, but against everyone in this country who disagrees with their attitude and who does not share their own rancor and intolerance. It is this headstrong and vindictive state of mind this easy confusion of sin, pugnacity with the sense of absolute righteousness which has been and always will be the most fruitful mother of wars.
