that America is awake to the fact that this country is waging a war for self-preservation and knows that when the struggle is carried to a successful conclusion the liberty of the United States will never be imperiled again.

After describing the Liberty Bond which the government is selling as having the entire country's guarantee of the safety of the principal—the money invested in it—the secretary added "but America cannot assure her soldiers of their principal—their lives."

"The soldiers does not ask the government to guarantee him safety," said Mr. McAdoo. "He expects to die if necessary, but he has a right to ask the civilian population to do this much for him—to arm him with the best gun that American money and American ingenuity can devise, a gun that will shoot faster and farther than any gun yet made, and give him the best bayonet that can be forged by American skill and brawn."

"It is the only chance he has for his life. That is all we can do for him. Isn't he entitled to it?"

The 65,000,000,000 raised through the second Liberty Loan will be devoted chiefly to this the secretary said in closing, and "we shall end this thing for ever and America's liberty will never be imperiled again."

SUGAR RATIONS ARE SOLD IN NEW YORK

By the Associated Press. New York, Oct. 24.—The first war rations since the United States went into war went into effect here today when retail stores throughout the city restricted the sale of sugar from five to two pounds at 10 to 11 cents, the lower price prevailing where patriotism ranks above avarice. The sugar famine is not expected to be broken until the new crop is available in January.

Under the rules adopted housewives will be able to buy from their grocers bags every two weeks containing, 2, 2 1-2, 3 and 5 pounds, depending on the size of their families.

Newton people gave the quota of soldiers who left there today a big dinner yesterday, Mr. Eubert Lyerly, chairman of the local exemption board, reported today. The good ladies had everything a man could desire to eat and the Catawba men were made to feel that somebody was thinking of them.

No hole had been cut in the wall and it was apparent that the men had scaled it. Outside aid probably was furnished, officers believe.

A Duty and Opportunity

Buying bonds of the United States Government is not charity nor is it something you should wait to be begged to do---it is your individual duty and opportunity to serve your country in a business way. Do you fully realize this?

You certainly would feel under obligations to support a body of men protecting your home from invaders and this is exactly what the American army in France is attempting to do for YOU. Do you realize this or is it something a little distant and hazy to YOUR mind?

We Americans Must Wake Up!

This is a fight for all of us---not the other fellow, regardless of who started it-- WE must finish it or get finished.

The undersigned banks, assisted by the patriotic citizens of Hickory, are trying to place Liberty Loan Bonds with every man, woman and child in this section. Will you help? It does not take much money--we will help you, without charge.

Shall we beg you to do YOUR DUTY and to STAND BY YOUR OWN HOME?
