JACK ELLIOTT'S SENSE OF HUMOR IS GREAT

Jack Elliott started a rough house at the Carolina & North Western when the shops Friday night closed a term of three months on his legs for it. Jack cut loose from the car moved out in a rage. Some 20 shots were fired at him through the screened windows and others through the doors. It was not a big funny Friday night, but when the darkies appeared in the courtroom yesterday the judge looked more like a joke than a man. At any rate, Recorder Pratt put the joke on Jack, who will serve 120 days.

FIRE THREATENS HOSEIERY MILL PLANT

Fire that originated in the warehouse or storage room of the Elliott Knitting Mills last night about 8:30 threatened the mill for several minutes, but was placed under control with a loss estimated at \$1,000 by Mr. Eubert Lyerly. How the fire caught was not known.

It was due to the heroic work of the firemen and several assistants that great damage was not done. The part of the plant where the fire caught was built of sheet iron and was used to store boxes in which hosiery is packed and when these wooden boxes caught fire they blazed rapidly and threatened first the older mill, adjoining. Not only were the old and new mills in jeopardy, but the ice plant across the street and several other buildings near by were in danger.

The fire department made a run for the scene and three streams of water were soon playing on the flames. Firemen worked like beavers on the outside, inside and top of the building and stopped the flames, which had a good start.

An automobile truck in the building was destroyed.

Mr. Lyerly and his friends are thankful in view of the seriousness of the fire, that the damage was not greater. The plant did not have to close down and was running today as usual.

POLICE SAY THEY HAVE NAME OF BOMB MAKER

Pittsburgh, June 4.—Arrest of the man who manufactured the bombs which exploded late Monday night near the homes of Federal Judge W. H. S. Thompson and W. W. Sibray, chief inspector of the bureau of immigration, is expected soon by authorities who are investigating the outbreak. Police officials said that they had secured the name of the bomb maker from John Johnson, 35, in Pittsburgh, who was arrested after a fight with officers. Authorities refused to divulge the name of the bomb maker but said that a number of detectives are searching for the man who is alleged to have come to Pittsburgh about 10 days ago from Cleveland, O.

In addition to Johnson, a score of alleged radical agitators were arrested yesterday and are being held for investigation. Johnson, according to the police, told the name of the bomb maker after he had been confronted by evidence, furnished by Miss Florence Becker, who gave the police a description of two men who she said placed a package on the porch of a house across from In-sperch Sibray's home shortly before the explosion occurred. Miss Becker described Johnson, even to his manner of dress, as one of the men, according to the police.

Miss Ave Martin of Granite Falls spent today in the city shopping.

PREMIUM LIST OF FAIR ABOUT READY

Announcement that the premium list of the Catawba County Fair is about ready for the printer recalls the fact that the president and directors, according to announcement last fall, are planning to make the institution this year much better than ever before. That is why this fall's exhibits are bound to be better.

Mrs. Herman, secretary, has about completed compiling the list of premiums and as soon as these are approved by the directors they will go to the printer and be ready for exhibitors.

SKIPPER AND SON CHARGED WITH MURDER OF SEAMAN

New York, June 4.—Seafaring of the sort that flourished in the 18th century when a foremast hand was virtually a slave and his briny skipper, armed with a belaying pin, his undisputed master, was described in federal court here by John W. Campbell a 22-year-old high school boy of Maquoketa, Iowa, who answered the call of the sea, and ran away from home to ship with Skipper Adolph C. Pedersen as cabin boy on the antiquated barkentine Puako.

Campbell was the first witness for the government which has charged Pedersen and his son, Adolph, mate of the Puako, in an old-fashioned indictment, with the murder on the high seas of Alex Hansen, a seaman. They are alleged to have driven Hansen overboard by cruelty and to have left him to perish in the sea.

HOOVER OPPOSES CONTROL OF PRICES

By the Associated Press.
Paris, Tuesday, June 3.—All the important governments of the world with the exception of Argentina having guaranteed wheat prices to the farmers and all the European governments having subsidized wheat, it seems that there will be little but government trading in wheat this year.

The American members of the supreme economic council, however, believe there is no necessity of continuing centralized control of food prices.

The question of food control after peace has been signed has been discussed by the economic council, Herbert Hoover and the other American members opposing control, taking the view that as there will be no food shortage after the next harvest, food control, as it now exists, will be unnecessary. Mr. Hoover insists that trading in food should prevail throughout the world as in other commodities, or production will be stifled and a shortage created.

GERMANY MAY ASK FOR AN ALLIANCE

By the Associated Press.
Berlin, Tuesday, June 3.—There seems to be a widespread demand on the part of Germans that efforts be made to induce America to enter into a sort of limited alliance with Germany to take a sort of protective over the country, giving Germany financial aid and protection and taking in return the lion's share of the profits of the country's industrial activities. This settlement, which first made its appearance last December, appears to be gaining in popularity.

SHOWER AT CHURCH

A swarm of bees at Houck's chapel near Hickory settled in the church some time ago and already the bees have been robbed. As the bees located in the wall, entering through a knot hole, it was difficult to get to them and the persons who sought the honey left most of it on the walls. The busy bees, however, have returned to the job and are manufacturing another supply. Mr. Jeff Bolich observed their activity this week.

BOHEMIAN KRYL HEARS GREAT AUDIENCE

Bohemian Kryl and his band last night delighted the largest crowd of Chautauque week in a musical festival which extended over a period of two hours and which engaged the enthusiastic attention of the audience from the opening note of the festival to the final blast of the brilliant pageant, "War, Victory and Peace." Practically every member of the audience remained until the last curtain and the program was received with great applause. Frequently Kryl and his musicians responded to encores.

Another pleasing feature of the night's entertainment were several vocal selections by Mrs. H. Knebel of Salisbury, an accomplished artist. Mrs. Knebel responded to several encores and her singing during the intermission was a delight to the unusually large audience.

Not only as a director did Kryl display remarkable genius, but as a cornetist he demonstrated his ability in unmistakable fashion. In "Fantasia on National Airs," a cornet solo composed by himself, Kryl was perhaps at his best and he was wildly acclaimed by the crowd. One of the most pleasing features of the program was "Summer Evening in the Alps." This included "The Call of the Shepherd," "The Shepherd's Song," "Dance of the Shepherd's," "Lover's Serenade," "The Storm," "Song of Joy." Rendition of each evoked enthusiastic popular approval.

But the greatest outburst of feeling upon the part of the audience, which was sympathetic throughout the evening, came when the musical pageant, the final number, was presented. Vivid portrayal of "War, Victory and Peace," the pageant included a large cast, with the soldiers of the principal allied nations represented. The routing of Mars by Uncle Sam and his lads of the army and navy was the signal for a remarkable demonstration of the emotion of the audience. Flashes of the allies waved proudly while the marking harmonies of the band were heard making the close of the performance.

The afternoon program also was enthusiastically received. Kryl and his band again being the attraction. The numbers presented include "A Colored Poem," "Dance of the Good Nymphs," "The Evolution of Dixie," "Songs from the Old Folks."

This afternoon a lecture on present conditions in France is scheduled, the speaker being a French girl who recently came to America and who has had remarkable opportunities for observation of the effect of war upon that country. Tonight the big farce comedy, "It Pays to Advertise" will be presented.

Mr. Kennedy, manager, was delighted with the large crowd last night and said so. It was about the biggest audience that could get under the tent, extra seats having been placed for the occasion.

The Metropolitan Quartette and Cartwright Packard come tomorrow, the quartette giving an entertainment in the afternoon and night and Mr. Packard drawing and lecturing. He is a decidedly great feature and was selected for the closing number in the big Chautauque.

EXPECTS STRIKE TO SPREAD IN COUNTRY

By the Associated Press.
Washington, June 4.—S. J. Koenenkamp, president of the commercial telegraphers' union of America, said here today he believed the Atlanta strike would spread until it assumed nation-wide proportions and would tie up the wire service of the country.

The primary reason for the trouble now threatening through the Atlanta strike," said Koenenkamp, "is the failure of the wire administration through Postmaster General Burleson to appreciate the force of and carry out the labor policy of President Wilson."

The postoffice department's wire control board announced that reports reaching it from Atlanta were that the sympathetic strike of telegraphers was confined to a few individuals.

NEW YORK COTTON

By the Associated Press.
New York, June 4.—The cotton market showed further nervousness and fluctuations during today's early trading. The opening was 15 to 21 points lower under yesterday's selling movement which was reported by weak cables, but the initial break for July and October attracted a good deal of covering and some fresh buying on the unfavorable weather in the eastern belt and the firmer opening of the stock market. Rallies of several points followed, but liquidation continued and the market closed off with the tone unsettled.

REAL FUNNY JOKE IS THAT NEW REPUBLIC

By the Associated Press.
Coblenz, Tuesday, June 3.—Regarding the reports received here of the launching of the Rhenish republic, today's summary of the intelligence of the American third army says: "The events of the last few days which have culminated in a definite attempt at Weisbaden to proclaim a Rhineland republic independent of Prussia, but nevertheless part of the German federation, might be regarded in the nature of comic opera were it not for the fact that they involve the deliberations at Versailles to a certain extent. To an impartial observer the importance of the movement consists chiefly in the opposition to it."

"One sees no concerted, hilarious greeting of this preferred freedom from Prussian rules, but one does see or hear much to the contrary. It would seem that in the course of events the Rhineland is to become independent of Germany, it will require a set of German politicians better known than those in this movement."

ADAPTABLE BASIS OF RATES IS URGED

By the Associated Press.
Washington, June 4.—A. P. Thom, counsel of the association of railway executives, told the American short-line railroads convention here today that any basis of rate making in the future must be adaptable to changing economic conditions. Otherwise the railroads would find themselves enjoying an income too small to operate or so large that the public would force government ownership. "The public interest is in service," Mr. Thom said.

ASKED TO BE READY FOR ANY EMERGENCY

By the Associated Press.
Paris, June 4.—A report has reached the peace conference circles that Gustav Noske, the German minister of defense, recently made a tour of the German coast defenses and directed the personnel to be prepared for emergencies.

There will be no meeting Friday night to organize the Hickory band, and the time of meeting will be announced later. There have been so many meetings here of late and there will be a conflict on Friday night, so it was decided to defer the meeting for some time. It has been found by canvass that there are at least 20 first class musicians in Hickory and the band festival last night has whetted the appetites of Hickory music lovers for something good almost any time.
