THE BEST ON EARTH

Says Mrs. Staples of Lydia E. Pinkham's Vegetable Compound.

Taunton, Mass.—"I could not eat or sleep for six months, had fainting spells and could not walk without help for three months, caused by female trouble. My cousin, who was a doctor, told me to take Lydia E. Pinkham's Vegetable Compound and it helped me greatly. Then during the Change of Life I used the same remedy. I am seventy years old now and am able to do my own housework and walk one mile to church every Sunday morning and evening. I am recommending the Vegetable Compound to my friends having the same troubles as I had. Your remedy is the best on earth. I cannot find words to express my gratitude to it."—Mrs. SUSAN C. STAPLES, 157 B School St., Taunton, Mass.

The reason that thousands of women from all parts of the country write such grateful letters is that Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives, once burdened with pain and illness. It has relieved women from some of the worst forms of female ills, such as displacements, inflammation, and ulceration. Why don't you try it?

UNIVERSAL ELECTRIC Home Needs

Take Stock Of Your Home

Spring is a season of preparation. The fields are planted; cities plan and build; factories enlarge for greater production; stores brighten up for bigger business—and homes are built, enlarged and improved, inside and out, preparatory to a year of health, happiness, comfort and convenience.

For your guidance we suggest a few items to be remembered in improving your home:

- (1) Renew all blackened and burned out lamps. New MAZDAS give better light—use less current.
- (2) Have your fans cleaned and oiled; prepare them for a season of constant use.
- (3) See that all cords and plugs on percolator, toaster, grill, cleaner, iron, washer, etc., are in good shape. A few cents spent in minor repairs now will prevent annoying delays when service is most needed.
- (4) Arrange for convenience outlets where household appliances may be attached more easily. The expense is slight.
- (5) Decide which appliances you lack which would make for greater convenience and economy for years to come; then add at least one such appliance to your equipment each month until your home is completely electrified.

Come to us for advice on all electrical matters connected with your home and business. We are here to serve you, gladly, if you will give us the opportunity.
