DR. PEERY HEARD AT ST. ANDREWS

St. Andrews Lutheran church was well filled on Sunday with two attentive audiences to hear Dr. B. B. Peery who supplied the pulpit morning and evening. As was expected, the sermons were of a high order and the people were all greatly pleased. At the morning service Dr. Peery spoke on the text, Isaiah 40:1, "Comfort ye my people, saith your God." The text at the evening service was "One thing thou lackest," Mark 16:21. Dr. Peery also made an interesting talk before the Sunday school, giving the members of the Sunday school who were making a special offering for European relief first-hand information in regard to conditions in Europe and the various peoples who are to be aided through the special effort being made now by the Lutheran church throughout the country.

The offering for European relief made by the Sunday school Sunday morning amounted to \$114.05. The Sunday school had been asked for \$100. The congregation has now given including the offering from the Sunday school three times the amount of its quota in the campaign. A few weeks ago St. Andrews Sunday school gave more than \$100 towards the Armenian fund. Two weeks ago St. Andrews church responded to an appeal of the Rev. O. W. Aderholdt for assistance in building a new church at Statesville by pledging nearly \$1,300. On the second Sunday in April the Sunday school gave \$125 as a scholarship used by one of the Lenoir college graduates at the Southern Lutheran Theological Seminary.

St. Andrews congregation is in splendid condition and is looking forward hopefully to the future. For its financial and numerical strength there is no congregation in the Tennessee Synod, and there are none anywhere, who have done better work. Rev. J. C. Peery, president of St. Andrews college, former pastor of St. Andrews church, will continue to serve as acting pastor until a regular pastor is on the ground.

Having Some Fun
The Hickory Tyros were being entertained this afternoon for the party and a M. West was said to have been out hunting frogs. It was said that James C. Shuford was the money's worth.

Tonight's The Night

SUMMER SCHOOL FOR LENOIR COLLEGE

Owing to a rather insistent demand for such a move, the authorities of Lenoir College have decided to hold a summer session this year for the benefit of teachers wishing to prepare themselves more fully for high school students desirous of advancing themselves or of making up back work, and for college students who desire to take advantage of the courses offered.

The work to be offered divides itself into the following classes:
1. Work similar to that done in the other regular county summer schools of North Carolina. This is to be carried out with the cooperation of the State, and secures for this school recognition as the official county summer school for Catawba county, although teachers from other counties are to be welcomed.
2. Advance courses for the benefit of teachers who have certificates, but who wish more extensive professional preparation.
3. Courses for which college or high school credit may be obtained, designed to fill the needs of high school or college students who wish to make up back work, or who are desirous of obtaining advanced standing.

Whilst full arrangements have not yet been made, it can be definitely announced that the session will commence July 12, and close August 23. There will be seven or eight members of the faculty. No tuition fee will be charged those taking the regular county summer school courses, but a registration fee of \$10 will be charged for the advanced courses of teachers. The tuition for the courses outlined in group 3, above, will be announced later. Teachers and other students registering for these courses can obtain board and lodging on the campus at the rate of \$6 a week. Full announcement furnishing all details will be made in the near future. In the meanwhile, all persons interested are requested to correspond with the president, Lenoir College.

RECRUITS TO BE SENT BY ARMY PLANES

Railroaders may go on strike, and trains be late, but the men who enlist for the air service, or for the field artillery at Camp Bragg, N. C., will get to their destination on schedule time.

The local recruiting office announces that all men who enlist in the air service or for Camp Bragg, will be transported to their destination in an army plane. Three DeHavilland planes, from Poik field, manned by regular air service personnel, arrived in Greensboro yesterday, and will make daily trips to Camp Bragg, from Greensboro and other points in the state.

The air service desires to enlist a limited number of young men who are high school graduates, or men who have had experience as photographers, persons, outdoor scenes, or machinery for commercial purposes and are familiar with process of developing and printing.

Radio and telegraph operators who are able to send not less than fifteen words per minute.
Men enlisting as photographers will be sent to Langley Field, Va., to the aerial school of photography. And men enlisting as radio, telegraph, and telephone operators to the Air Service Communication School, Post Field, Fort Sill, Okla.

The banks will be closed Thursday, May 20, and their employees will help celebrate the declaration of independence.

URGES ADMISSION OF DESIRABLE ALIENS

By the Associated Press.
New York, May 18.—Temporary modification of the immigration laws to permit influx of desirable immigrants to meet America's labor shortage was urged here today by United States Senator Walter E. Edge of New Jersey, before the National Manufacturers' association.

He also urged a process for preventing new immigrants from falling into the hands of the unscrupulous. "Immigrants should be saturated with loyalty and patriotism," Senator Edge added, "and should not be allowed to go through the melting pot of radicalism and anarchy."

ANOTHER SHOT IS FIRED BY JOE DANIELS

By the Associated Press.
Washington, May 17.—Secretary Daniels today let go a verbal broadside against the advocates of a general staff for the navy declaring that they sought "to Prussianize" the navy department and make a civilian secretary a "rubber stamp."

Mr. Daniels said Meyer told him, as he pointed to the secretary's desk, "and it should remain here if congress wants to depart from the policy of civilian control of the navy." Mr. Daniels said, "it should do so openly and without pretense by making an admiral the secretary. The most ardent advocates have not urged this," he said, "because they wished to keep a 'rubber stamp' as civilian head of the navy."

Markets

COTTON.

By the Associated Press.
New York, May 18.—Reports of more favorable weather conditions in the south and the circulation of May notices estimated at about 1,500 bales caused a good deal of scattered liquidation in the cotton market this morning. Active months sold eight to 34 points lower.

TWO REPORTS ON GOVERNMENT PLANTS

By the Associated Press.
Washington, May 18.—Two reports, one by the Republicans, condemning the government's nitrate policy by charging reckless waste, and the other by the Democrats, charging partisan criticism by the Republicans, were submitted today.

Along with its 41 terms of general condemnation of the government's policy, the committee comprising Chairman Graham of Illinois, and Representative Jeffries of Nebraska, submitted recommendations for future disposal of the Muscle Shoals properties which Representative Garrett of Tennessee, the Democratic member, declared was beyond its province. Mr. Garrett indicated that he would make a point of order along that line and leaders said a bitter fight would result.

Washington, May 18.—President Wilson today telegraphed Evangelist Booth, commander of the Salvation Army, congratulations for its war service.

THE RECOVERY OF FRANCE.

Springfield Republican.
One of the most hopeful symptoms in Europe is the rapid regeneration of the regions in France which were devastated by the war. A few weeks ago the first of the rehabilitated countries was opened, with modern machinery which it is said will increase the prewar production. In the Somme district nearly half of 400,000 acres of farm land has been restored to usefulness, and at the end of the year only 70,000 acres will remain unclaimed. The cereal crop from the district already restored will be 5,000,000 bushels, and of 20,000 damaged houses 3,000 have been made habitable. Fortunately the wheat crop will be good throughout France. Before the war it was normally 90,000,000 quintals \$330,000,000 bushels; last year it was 50,000,000 quintals, and this year the expected yield is 75,000,000 or 275,000,000 bushels. By eating "bread that is not very white but bread that is 'French,'" says the Paris Matin, it will be possible to get through the year without importing wheat, and this will mean a considerable economic relief.
