MISS TEXAS GUINA In "THE SHE WOLF"

A tale of the rights, glories and perils of
the women of the great west.

You owe it to the Democratic party to nominate for Governor
a candidate whom all elements of the Party can support without
reservation. Mr. Page has embittered the friends of no candi-
date, and won the respect of all men.

Mr. Page would draw to the support of the Democratic Party
that increasingly large number of independent voters in the State.
We should have an eye to the future.

Detroit Vapor Oil Stove

Fierce Heat for Fast Frying Low Flame for Slow Cooking

The "Red Star" oil range will develop a heat much more intense than you have ever thought possible from an oil-burning stove. Or the "Red Star" may be regulated to a low, even heat for slow cooking. The wide range of its heating intensity will astonish you.

Is the first, and only, stove to operate on all grades of liquid fuel, entirely without the aid of wicks or asbestos rings.

AMAZING COOKING EFFICIENCY AND ECONOMY

Many official tests have been made recently, by impartial and competent judges, to determine the relative cooking efficiency and economy of operation of all the best-known oil stoves. The "Red Star" won all points without exception. It is the most efficient and economical oil stove on the market.

FAMOUS "DOUBLE-RING-FLAME" 8-12 LB. BURNER

This patented burner is responsible for the world-wide success of the "Red Star." It creates its own gas, from the cheapest Kerosene, by vaporizing all of the heat units in the fuel. It leaves no obnoxious odors or fumes. The heavy, iron rings become red-hot and concentrate an intense heat under the utensil.

BE SURE AND GET A DEMONSTRATION

Let us show you the many exclusive features of the "Red Star." Let us show you why it is absolutely safe; why it is easy to clean; why it is so simple to operate and why it will give you an ease and economy in cooking such as you have never had.
