PUBLIC HEALTH NURSING (By Dr. J. R. Campbell)

lie health nursing ought to be, I wish with manufacturing plants. view of the origin, and scope of the

world war, and the reports began to read. I for physical defects. The authori-I've reached from 20 to 35 per cent f the vounger ment as the limit of 22 was extended, it became worse. for attention reveiled the fact that aly 2 per cent were rejected in Gercarry, rad less than 5 per cent in

The war found that Germany had " he a" -insted a large part of the to make of after defects. So did Therefore, both countries and healthier populanot only from which to select bot also for the duties of It for This led the authorities to to the public health folks to ad is to remedy these defect t on the nublic health system h the county nurse.

The nurse was to inspect all chilon while in school, hunt out the force and try to have them remto teach the children how . . . to correct old superstitions. ' in every way to increase their efficiency. She was also to look up the expectant mothers, and instruct hem how best to care for them-"es and the bables, when they came. She was to give plain in trucion to mid-wives and to license those of them, who came into a resconable understanding of their du-

mon that the nessithis work are engrmous. a great regulates a thorthe of the nurses. Thes salde of systematizing made and of clamping its ov ion for months ahead, and also the of securing the conflicture of oven and wemen at once. As t well of the work to the public. is sinely incalculable. Who could estimate the value of even a fraction of what could be done in teaching exmetant mothers how to care for thomselves and their bables? Of have never been bothered since. 1 eaching children how to guard their think Dean's are a wenderful reme which would go on growing and spreading for generations? Lock at that Mr. Halman had. Foster-Milburn what has been done by another beenels of the public health-the eradication of typhoid, emailpox malaria, and hundred's of other tequiples Sunpage this teaching halts the spread of what are called social diseases, of buying patent medicines, *nd ohtre evils, what money could pay for it?

I think the work which has been done in this country during the past year by Mrs. Alice T. Bassett has been of the very greatest value to the public. Mrs. Basset's efficiency, her thorough knowledge of her work, and her very great ability to impart her information to youngest children, and to the most untaught men and women, as well as to all others, render her excentionally valuable. Considering the needs of all the people. and the demonstration of public health nursing we have had in the past year, I feel that it would be a crime to stop this work, and almost as much a crime to take the chance of changing so efficient a nurse. Personally, I consider this work the most va'uable for all the people those here now, and those to come, that Catawha county has over engaged in Of course, I heartily endorse the

Mrs. Wm. Johnson, Box 155, Park Rapids, Minn. To marry and arrive at middle age without children is a great disappoint-

ment to many women. Think of the joy and comfort other women have in their children as they grow older. Lydia E. Pinkham's Vegetable Com-

pound has helped to bring great happiness to many families by restoring women to health. Often the childless home is due to a run down condition of the wife, which may be helped by Lydia E. Pinkham's Vegetable Compound. It brought health and happiness into the home of Mrs. Johnson. Why not to

The New Year

The new year we predict will be happy and prosperous for those who will go after thesethings as if they really wanted them.

The coming year and the years to follow look good to those, who, with resolution and industry, work for their future rather than dpeend on luck.

The coming year we believe will be one in which the wise will exercise prudence in the management of their income and conservatism in their basiness undertakings.

Among good resolutions which any one may adopt with profit is the resolution to give greater attention to thrift by a "budget" arrangement of personal or family income.
