TOTAL OF KILLED PRESENT TARIFF IS REDUCED TO 97 USELESS, SAYS SCHWAB

By the Associated Press.
Washington, Jan. 31.—No tariff bill will build a foundation for prosperity unless it provides an American valuation basis to "remedy the holes in our present laws which the fluctuations in foreign exchange have torn in it," Chas. M. Schwab of New York declared in a letter to the tariff league today.
"Today we are confronted with a basic weakness in our tariff policy, which is affecting injuriously the whole industrial fabric of the nation," Mr. Schwab said. "Fluctuations in foreign exchange are playing havoc with wages and orders. Because our present tariff laws were framed at a time when foreign moneys were normal, they are today inoperative as far as protecting labor, industry or yielding revenue are concerned."

MUCH INTEREST IN HICKORY ELECTION

Nominations for mayor of Hickory are coming in thick and fast these days, a bunch being brought over with the mail this morning, and somebody is sure to get the \$10 offered through the Record. J. A. Bowles had some new nominations today, but as his name was suggested yesterday those who enter him will not receive any award. There is no objection, however, to suggesting his name.

J. A. Bowles was placed in nomination late yesterday by Geo. F. Ivey and Rev. C. S. Kirkpatrick.
Some witty fellow, who didn't indicate his name, has suggested John Hefner as "probation" candidate for mayor of Hickory. Endorsed by Hickory's leading prohibitionists and church members, this is our next petition for his parole was signed "mayor." Hefner is serving a term on the roads for dealing in liquor and a petition for his parole was signed by many Hickory people. Governor Morrison, however, declined to look with favor on the petition.

The senator was informed that he could have the appointment if he desired, but he said at the time that he could render better service in the senate.
The eighth circuit to which five judges will be appointed consists of the states of Minnesota, Missouri, Iowa, Arkansas, Nebraska, Colorado, Kansas, Oklahoma, Wyoming, Utah, New Mexico and North and South Dakota. The salary of a circuit judge is \$5,000 and that of a local States senator \$7,500.

JAPAN AND SIBERIA

By the Associated Press.
The Japanese government has now given an answer to the question when it will withdraw its troops from Siberia. The answer is couched in classic form. It is much the same as that which the English government 40 years ago gave in regard to withdrawing from Egypt. The British soldiers were positively to be recalled as soon as a stable native government made it possible. The troops, however, are still there—just now in larger number than ever. The Japanese statement may be compared with military precedents. We have military pressure from those countries Domingo, as well as martines Nicaragua. Our government is always consumed with anxiety to remove military pressure from those countries and to leave them freely to develop their own institutions. But how the exact hour does not give.

Senator Simmons offered his soldier bonus amendment, but later withdrew it.

The Free Press hopes that all the edges in the state will emphasize to a grand jury the necessity for looking after the still makers. When the prohibition law is made applicable to the still makers, the booze maker and the booze consumer with equal force and severity the nefarious traffic is going to be more readily stamped out. That desirable end cannot be accomplished by simply centering the fight on one link of the three-piece chain.—Kineto Press.
