The general agreement will be submitted to the French and British cabinets which are now in session and will be referred to Rome by the Italian representative here.  
It is considered to be little doubt that all that will be required of the allied generals at Mudania will be to give their answer this afternoon.  
The resolution agreed upon provides for the steps for the occupation of Thrace.  
The Greek army and those of the Turkish army desiring to leave must do so immediately.

It was the kind of fall that went directly to the soil—moderate most of the time. It will enable farmers in all sections to put their plows into the ground and turn the earth for wheat sowing. Farmers may find difficulty in plowing until more rain falls, however. The earth was baked so hard that a lot of water will be needed to penetrate it.

## John Scott, Tar Heel Baseball Ghost, Puts Yankees in Darkness

By the Associated Press.  
New York, Oct. 7.—Their aspirations cooled by the frigid breath of a ghost from baseball's graveyard, Miller Huggins' Yankees stood today in the shadow of their own tomb. They must recover from the blight of the phantom Long John Scott, whose whose rattling Tar Heel bones gave them a scare yesterday from the likes of which only one team in baseball history has ever recovered.  
The unearthly pitching that the spook brought from the baseball cemetery caused the Yanks' bat to pass through as if the balls were bits of ectoplasm, and in a worldly way of speaking defeated them 3 to 0 in the third game of the world series. The defeat was the second the Yankees have suffered in the series.

In the series of 1921 the Giants set a precedent by winning the title after spotting the Yanks to the first two games.  
Long John's pitching bones were laid to rest last July. Pat Moran, of the Cincinnati Reds officiated. He had pronounced John's pitching days over, the dirge was droned and the baseball world soon forgot that John Scott had ever lived. Then some world being communicated from the spirit land and Scott learned that John McGraw of the Giants needed pitchers and he would have them even if they had to be resurrected.  
Then the ghost appeared yesterday in the pitcher's box. Scott put them where the Yankees couldn't see them. Most every living being is thinking about Scott today, but the Yankees are thinking of other things. Miller Huggins is trying to forget about him by trying to win today's game.
