ALLIES STAND PAT ON THEIR DECISION

Will Keep Troops in Constantinople Despite Demand of Turks for Their Removal—Will Allow Turkish Civil Authorities to Assume Control—Peace Conference Delayed.

By the Associated Press.
London, Nov. 6.—As a result of the new situation created in Constantinople by the demand of Rafet Pasha that the allied military occupation of the city cease, the peace conference called to be held at Lausanne November 13 has been postponed, possibly for two weeks, it was announced here today.

It is stated in authoritative circles that in no circumstances will the British point of view regarding the presence of allied troops in Constantinople be changed. The British intended to uphold the Mudania armistice agreement and remain in the neutral zone with their troops.

If the Ankara government, however, wishes to send civil administrative officers to Chanak, Gallipoli and Constantinople, there will be no objection, it is declared.

So far as can be learned today the sultan has not abdicated. It is believed the British authorities are taking measures to protect him and the prince, his heir.

MUST ASK PERMISSION

By the Associated Press.
Constantinople, Nov. 6.—The Turkish nationalist government has handed a note to the allied high commissioners to the effect that the warships of all nations must ask it for authorization to pass the straits of the Dardanelles, the Havas correspondent here has been informed. They must also salute the new government of Turkey.

SEEK FRESH CONQUEST

By the Associated Press.
Constantinople, Nov. 6.—The Turkish nationalists, after overthrowing the sultan and declaring him beneficent, are now seeking fresh conquests in a manner that is being trouble with the allies.

Last night after taking over control of Constantinople, the nationalist announced withdrawal of the allied troops from the city and served notice that allied or American sailors would not be permitted to land from their ships at Hamalet ports except special permission from the Ankara government.

An extraordinary meeting of the allied commissioners quickly assembled to decide what stand they should take in the quickly altered situation. It was determined that they would refuse categorically the nationalist demand for military evacuation of Constantinople by the allied forces.

By the Associated Press.
Asheville, N. C., Nov. 6.—After firing four shots point blank into the body of his wife, Mrs. Lillie Pressly, William H. Pressly, aged about 50, of 41 Haywood avenue, placed a revolver to his own head and was killed instantly.

By the Associated Press.

ARMISTICE DAY PROGRAM FOR FRIDAY

Final plans for the Armistice Day program in the city auditorium have been completed. This occasion will mark the annual participation by the American Legion in a community wide observance of that memorable day in the world's history. Community Service is cooperating with the legion in this beautiful program and the committee announces that everybody is invited to attend and no admission will be charged.

Armistice day is one of particular significance; a day that should ever be held dear to the hearts of the people of America; to the whole civilized world; for it marked a new era in the progress of civilization; it awakened in mankind a new feeling for his brothers in all corners of the world.

In the glory of a victorious peace, we should ever be mindful of the suffering and wounds of those comrades who fought and bled, those men who kept the enemy from our very doors. The program to be carried out in Hickory this year will not be filled with long winded speeches but will include selections by the Hickory Concert Band, solo and group vocal numbers, old songs of the A. E. F., a sketch called "Oo! La La" set in France, illustrated songs in tableaux form, and the beautiful and impressive "Cereemonial of the Flag of the Free." A touch of realism will be depicted in the soldiers climbing out of a dug out on trench at the eleventh hour on November 11, 1918.

Those in charge of the various groups in the celebration are Mrs. E. B. Menzies, for the dramatics and executive chairman; Mrs. John Gettner, for the vocal music; Mrs. E. Lyerly, in charge of the tableaux; Prof. J. E. Barb for the Hickory Concert Band; Mr. Laurie A. Deal for the Legion and Mr. H. D. Schubert as general director.

TO ADVANCE MONEY FOR UNFORTUNATE

Arrangements to send the 37-year-old crippled and imbecile son of Wilson Rice, who lives six miles south of Hickory, to the school for the feeble minded at Kinston were expected to be completed today by the commission and Rice. Mr. E. Hefner, in charge of the board of facts in the situation and the county was expected to aid.

Dr. E. M. Craig, pastor of the First Presbyterian church, received a letter Saturday night from Dr. McNairy, head of the institution, advising him that Rice could be sent down. It will take \$300 to provide for his maintenance until the general assembly makes appropriations in January. Members of the Presbyterian church at once announced their readiness to help and one member, K. C. Menzies, offered to guarantee the amount needed.

About the same time Mr. E. L. Shuford advised the Record that he himself would advance the money in order to have Rice placed in the institution and other organizations in the county will help. Citizens feel that it is the duty of the commissioners to make provision, but if they do not do it, the man will be provided for anyway.

Mr. R. L. Bolick brought to Hickory today the sum of \$20.50 which was subscribed yesterday by the members of Zion Lutheran church, just beyond Brookford, to be turned over to a fund to send the unfortunate man to Kinston. Mr. Bolick turned the money over to Mr. Menzies at the bank. Mr. Hefner probably will leave Wednesday morning for Kinston with Rice.

NOEL C. HOSLEY WINS IN GUESSING CONTEST

More than a thousand persons made a pass at the age of Jimmy Jones Westinghouse, when he was on the rounds up Union square for two weeks and Noel C. Hosley guessed right. Jimmy and Noel hit it—December 20, 1919. Others shot all around the mark. There were some poor guessers, as you might realize now, some people feeling that Jimmy had not been well fed and was undergrown as if he had been afflicted with hookworm or something.

The Southern Public Utilities Company will present a cozy glow electric heater to Noel C. Hosley.

New games and stunts are always in store for the visitors and they surely are a certain cure for the blues or old age.

90 MINERS CAUGHT IN BIG EXPLOSION

Four Bodies Have Been Brought to Surface in Pennsylvania Mine in Which Giant Blast Occurred Early Today—Fear Expressed For Safety—Women and Children Wait in Rain For News.

FAVOR PLAN FOR COMMUNITY PROGRAM

By the Associated Press.
Spangler, Pa., Nov. 6.—The first rescue party to enter the Reilly coal mine after the explosion this morning reported at noon today that they had found three bodies and feared that some if not all of the other 90 men entombed are dead.

The rescue party entered the mine under the direction of Supt. O. J. Flanning and proceeded to the third entry on the right of the main entry when they came upon the bodies. The dead miners were brought to the foot of the shaft and the party went back for further exploration.

The rescuers came back to the bottom of the shaft, but declined to give any statement.

A second rescue party immediately went into the workings. The rescuers were composed of volunteers chosen from hundreds of men who had gathered at the shaft.

Solemn groups of wet eyed women and children huddled together close to the shaft to await reports from the rescuers.

A steady rain was falling, but the women, many of them bare-headed, paid little attention to the weather. One of the rescuers reported a fourth body had been found.

HAWAIIAN VOLCANO ACTIVE

By the Associated Press.
Hilo, Island of Hawaii, T. H., Oct. 12.—The great volcano of Kilauea, on this island, which has been dormant temporarily following a sensational explosive eruption in March 1921, has resumed activity, according to T. A. Jaggard, government volcanologist, whose observatory is at the brink of the volcano's abyss.

Starting with the formation of a glowing cone 600 feet down within the walls of the crater, a stream of molten lava has been pouring steadily into the depths below, while a more recent flow has occurred in the form of an uprush of gaseous lava, which violently agitated the lake formed by the upper cascade.

Within ten days the lava arose from 200 feet within the inner throat of the crater and is rising at the rate of about five feet a day. Dr. Jaggard anticipates that the liquid lava will increase greatly as the December solstice approaches, while from other indications, there appears to be a strong possibility of an outbreak of Mauna Loa, a 14,000 foot high, snow-crowned neighbor of Kilauea. Mauna Loa, the greatest active volcano in the world, also is the largest island mountain mass in the universe. Dr. Jaggard said.

Although both sides claim the election tomorrow, observers say the result will be close. The side that gets out the largest proportion of its vote is due to win.

But the result in Catawba county, the state and most of the nation will be known tomorrow night. The Record will receive returns from the various states over its leased wire.

The polls will open tomorrow at sunrise and close at sunset. The weather here probably will be cloudy, and showers, which were forecast for tonight, may occur. The weather will be mild in any event.

There will be an important meeting of the American Legion auxiliary at Legion hall tomorrow afternoon at 4:30 o'clock. All members are requested to attend.
