Before the Hall Case Arose

Miss Florence North, attorney for Charlotte Mills, the daughter of the slain New Brunswick choir singer, was a boxing promoter before she entered the sensational murder case. Here she is shown with members of her "stable." "Possibly I shall return to the boxing game when the Hall case is cleared up," Miss North said today.

CITIZENS WELFARE LEAGUE HEARS ADDRESS

It was an address worth hearing—that of the Rev. Mrs. G. H. Pye to the citizens' Welfare league at Pene-lope Baptist church Tuesday night.
 Mrs. Pye spoke of our interest in boys and girls. We must save them. We must do our duty as parents. The preachers cannot do all this work. Pastors, superintendents, teachers have their work to do, but they cannot do all the work. A great deal must be done by the parents. A great many people are too busy to have family prayer and to teach their children. If you don't teach them, the devil will. The speaker told of visiting prisons and finding that the inmates had not had a good home life. She urged that parents require obedience. She spoke of the right kind of homes, true Christian homes, homes of kindness, gentleness, and love.
 Mrs. Pye laid it on the hearts of fathers to teach their boys what they should know of sex life, and on the hearts of mothers to teach their girls.

The West Hickory policemen reported improved conditions. They believe the league is helping.

The next meeting will be held at the West Hickory Methodist church on Tuesday night after the second Sunday in December. Mrs. Justice will read a paper on Prohibition and the Rev. W. H. McNairy will speak on the sins of youth; text, "His bones are full of the sin of his youth, which shall lie down with him in the dust."

NEW HEARING GRANTTD IN POWER COMPANY CASE

Washington, Nov. 14.—The supreme court yesterday granted the application of the Southern Power Company to have reviewed the case brought against it by the North Carolina public service company and the cities of Greensboro and High Point. The case originated in the state courts which held that the Southern Power Company could not be compelled to furnish electric current to the North Carolina public service company for sale by it in Greensboro and High Point.

LAST week you will recall the list of a number of articles handled at the Little Furniture Store in the Basement, but that does not by any means cover the list of useful articles that you can purchase here. Every effort is made to see that every article that goes out of here is in first class condition, and the most careful attention is given the workmanship on framing, careless work and damaged material is never passed on the public, and yet you are not charged any more for good work and good material than you would pay for inferior material and work.

There is not a dealer in the western part of the state that handles as large a stock of picture framing materials as you will find in this little store in Hickory, so why go elsewhere for what you can get in your home town and get it for less than you can purchase it anywhere else.

Everything in the picture framing line, from the smallest wall hook that will prevent your breaking the plaster to the largest frames that can be built.

Come see for yourself and be convinced.

Tragedy

The frightened eyes of this eight-year-old boy had just seen his father, John Andrews, bent his mother to death with a section of iron bed, according to the story sold the Morristown (N. J.) paper. The boy is John Andrews, Jr., one of eight children. Andrews denies his son's statement.

ROADSTER \$975 LIGHT-SIX COUPE-ROADSTER \$1225

The Studebaker Light-Six Roadster and Coupe-Roadster were primarily built for business use. In meeting the urgent demands of business, they naturally have fulfilled the needs of the small family.

Each is built for hard usage, day in and day out. And as they are completely Studebaker built—you know they will stand up under hard going.

The bodies are attractive, roomy and thoroughly comfortable for all-day travel. Ample

luggage space is provided under the rear decks.

There's an internal hot-spot to reduce gasoline consumption to a minimum. Valves are inclined at a 20 degree angle to give a new measure of power, greater flexibility and better acceleration. Crank shaft and connecting rods are machined on all surfaces, thus eliminating vibration and insuring longer life to the motor.

Studebaker low prices are made possible by great volume and complete manufacture. Studebaker quality is traditional.

The three-passenger Roadster has cowl lights; storm curtains opening with the door; large plastic glass window in rear curtain, and inside and outside door handles. Both models are upholstered in genuine leather; have ample space under the rear deck for luggage; ignition and thief-proof transmission locks, and cowl ventilator.
