

THE TRUMPET.

ITEMS OF INTEREST.

Judging by the quantity of iron and other material that is being sent up the Carolina Central, that road must be rapidly pushing forward. Its extension is a matter of deep interest to all in this portion of the State. Its objective point is not known.

The erection of a Tobacco Warehouse at Lincolnton, is much talked of. The farmers of this section are turning their attention more and more to this paying product.

Mr H. L. Robinson has just opened a meat Market in the basement of the Henderson House.

Mr. Blair Jenkins has gone North to buy new goods.

Maj. J. C. Cobb having recently purchased the McLean dwelling house, is now having it thoroughly repaired. He will put a veranda in front which will add very much to the appearance of the building.

We are sorry to say, the peach crop, according to the opinion of those who have examined, has been killed in the bud.

A paying crop.

A writer in the Henderson JOURNAL, who has cultivated broom-corn for eleven years, says that the same amount of labor that will produce three acres of tobacco will produce twenty acres of broom-corn. Estimating both crops at five cents per pound, the good, lugs and trash are worth \$150, while twenty acres of broom-corn at \$25 per acre are worth \$500. Besides, on every five hundred pounds of broom-corn you will get a thousand

pounds of seed, which are worth more than the same number of pounds of oats, because they are better food for stock and will bring \$6 per acre.

The seed then is worth \$120.-- THE BULLETIN.

Most happy shall we be to loudly sound The Trumpet for those who advertise in our columns.
