

Deputy Marshal Shot And Killed Making Arrest

John Hurst alleged to have killed Marshall J. H.

Short MAKING WHISKY WAS THE CHARGE

Covington, Ky May 28 (AP)—Blood hounds have been sent to Mauldon to aid in the search for John Hurst who is alleged to have shot and killed J. H. Short, deputy United States Marshal late Saturday when the latter attempted to arrest him on a warrant charging illegal manufacturing of whisky. Deputy's marshal from the entire eastern district of Kentucky were ordered to join in the search for the fugitive, who, according to dispatches fled to the hills clad off in night clothes.

SMALL BLACK DOG ACTS AS MOTHER TO YOUNG LION

Berlin, May 28 (AP)—Berlin's Zoo is probably more successful than any other place in the world as a breeding place for wild animals. While it lost many inhabitants during the war, care was taken to keep pairs and the cages are gradually being restocked with animals born in captivity.

Strange foster families developed by the keepers who have learned the difficulties of compelling certain mothers to look after their young under the unnatural conditions they face in captivity.

A few months ago a fine lion cub was entrusted to a small black female dog. The young lion is now five times as large as its foster mother and is developing a heavy mane. Still he is as docile as a puppy and he and the little dog remain on the best of terms and play about together to the great joy of visiting children.

SAY EDUCATION WOULD CHECK NEGRO MOVEMENT NORTH

Oxford, O., May 28 (AP)—The providing of means for the education of the negroes is one way to keep them in the southern states and check the alarming movement of the blacks northward is the opinion of Dr. H. C. Minnich, head of the State Normal College, Miami University in a statement made here upon his return from a tour of the negro educational institutions of the south. According to Dean Minnich, one-third of the negro population of the state of Georgia has migrated to northern states.

Dean Minnich said that unless the negroes are educated in the south they will continue to move northward. His tour, he said, showed conclusively that the attitude of southern whites has changed from that of hostility to friendship in the matter of education of the negroes. It also showed that the standard of these negro educational institutions is steadily rising, and that the number of students matriculated in these various institutions is growing by leaps and bounds.

AUTOISTS PAY TOLL

Harrisburg, May 28 (AP)—Death abetted by carelessness, is gathering a large harvest this year at the railroad crossings in the state of Pennsylvania. During January, February and March there were 238 grade accidents compared with 112 in the first quarter of 1922. The deaths numbered 33 as against five, and the injured 143 as against 73. Of these totals, automobiles figured in 202 accidents, with death to 21 and injuries to 110 occupants.

One hundred and twenty-seven automobiles ran into and thru lowered gates but were stopped in time to prevent serious injury to occupants.

Last year in the National Forests alone, 6375 fires laid waste 378,000 acres and to bring a tree to maturity requires from 40 years to a century.

FIVE SOUTHERN STATES DISCUSS PROHIBITION

Atlanta, Ga., May 28 (AP)—John Barleycorn found himself more completely barred from two southern states, permitted restricted latitude in one, not a live topic in a fourth and a subject for humorous discussion in a fifth at the conclusion of sessions of the state legislatures in 5 southern states.

In North Carolina and Tennessee prohibition laws were tightened, in North Carolina by making the state laws conform with the Volstead Act and in Tennessee state by revising old statutes. A previous law in North Carolina permitted a citizen to receive one quart of liquor every 2 weeks, and although that statute is superseded by the conformity act, courts may yet convict under the previous law, the state supreme court has held.

Tennessee's legislature passed a bill to make it a felony to transport into the state liquor in quantities of "one gallon or more," or to move it from place to place within the state. Another act prohibits any person from giving away, selling or furnishing for beverage purposes intoxicating liquor, the drinking of which "shall result in the impairment of health or body or death of any other persons." A third measure bans possession of still apparatus while a fourth amends a previous prohibition law so as to strike out the words "for the purpose of sale" of liquor, and to prohibit the manufacture of whiskey.

Alcohol, as contained in patent medicines and flavoring extracts, failed to find a majority of enemies in the South Carolina assembly. One bill to restrict the sale of flavoring extracts to female heads of households, and another restricting the sale of patent medicines containing alcohol, were voted down.

Here also was lost a bill to make the buyer of whiskey a lawbreaker as well as the seller, as suggested to Congress by Representative Upshaw of Georgia.

Prohibition failed to find a place on the agenda of the Alabama legislature. In the Virginia assembly the subject was discussed only during the closing session and then in a humorous manner, according to the records.

LESS AIR MEANS GREATER COMFORT IS CLAIM OF DAYTON COMPANY

Tire engineers have recognized for years that if the carcass of a tire could be built so that it would overcome the weaknesses of rim cut, tread separation, and bulging when underinflated, that such a tire would prove revolutionary in the number of miles of service which it could be expected to deliver.

This is true because it enables a tire to yield to road obstructions. It protects the tread from chipping and cutting and results in thousands of additional miles of service.

Practically all tires during the past ten years have been sold with a more or less provisional guarantee, depending largely upon the maintenance of a high air pressure to protect the carcass from deterioration.

Therefore, the announcement of the Dayton Rubber Mfg. Co. that Dayton Thorobred Cords were built to deliver their maximum service when underinflated comes as a revolutionary departure in tire construction. It is in direct opposition to all the warnings of tire makers that a tire had to be highly inflated if the owner were to expect long service.

A great step in the comfort and service which may be secured from the use of automobiles is made by this announcement.

Miss Earline and Della Carter are improving, from the measles which kept them at home last week

Dr. Tupper Declares Christ Necessity In Nation's Life

Every nation that perished had heart disease in the way he puts spiritual Decay

CHURCH GROWS AT GREAT RATE HE SAYS

The services in the tent Sunday afternoon and night were indeed a great spiritual treat.

There were entirely too few attended in the afternoon, which shows that our people do not care to attend services afternoons. At night the tent was well filled and an appreciative audience heard Dr. Kerr Boyce Tupper with profound interest.

At the afternoon service, Dr. Tupper took for his subject the "Spiritual Life of America" notwithstanding the fact that we had no state religion this was essentially a Christian Nation. Notwithstanding the fact that we had no state religion this was essentially a Christian Nation. Notwithstanding the fact that we had no state religion this was essentially a Christian Nation.

He gave figures which showed that Catholics numbered about 14-million Protestants about 79-million. That was when they were both figured on the same basis.

At the night service Dr. Tupper took for his text Matt. 9th chapter and the 45th verse. Jesus passed through all the cities and villages teaching, preaching, and healing all manner of diseases.

His sermon was confined largely to Christ the teacher and preacher, who had never written any books, not even a line. Once he had written some words in the sand. But in the absence of all this he outlives all others.

Christ never referred to God, except as My Father, Our Father and Your Father.

Christ he said was a necessity. Every nation that died had heart disease and was without Christ.

DR. TUPPER TO DELIVER WONDERFUL LECTURES

Dr. Kerr Boyce Tupper who preacher at the tent Sunday afternoon and night is to speak three times this week at the Spray Methodist church. These lectures will be on great church leaders. Tuesday night his subject will be John Knox the Presbyterian. Wednesday night, John Wesley the Methodist. Thursday night, Charles Haddon Spurgeon the Baptist.

Dr. Tupper's lectures or sermons will enlighten many church members as to the great leaders who founded the church of which they may now be a part. Taking the course as a whole and hearing all three lectures should make all broader and better in every way.

MISS YOUNG VINDICATED BY JUSTICE LEHMAN

New York, May 28 (AP)—Supreme Court Justice Lehman, rendered a decision vindicating Miss Stella Larimore Young, actress who was named by Geraldine Farrar as one of the several correspondents in her suit for divorce from Lou Tellegen.

RAILROAD LABOR MEN WOULD ABOLISH RY. BOARD

Chicago, May 28 (AP)—Railway labor as printed by heads of 15 of the 16 standard unions yesterday, mapped out their legislative program for submission to Congress, the Tribune says. The organization would abolish the United States railroad labor board, says the newspaper. No final action was taken, however.

Dublin, May 28 (AP)—A document addressed by Eamon DeValera to all ranks in Republican army calling for a discontinuance of armed struggle has been taken by Free state authorities from a captured Republican leader it was announced.

Millions Go Out On Strike Report From Ruhr Says

Communist Ejecting Miners from the pits. Workmen guards search passersby

PEOPLE SEARCHED SAY THEY MISS MONEY

Berlin, May 28 (AP)—Two million miners and tens of thousands of metal workers are now on a strike in the Ruhr, according to a special dispatch to Vossischezeitung. Although these figures are probably grossly over estimated it is believed that undoubtedly every mine center in the Ruhr is idle as a result of the tactics of communists who are visiting pits and forcibly ejecting workers. No further disorders since yesterday are reported and casualties for the week end stand at 7 killed and 93 wounded.

Essen, May 28 (AP)—Communists elements are still striving for the upper hand in Dortmund, where disorders in the Ruhr on account of strikes and Communist activities appear to be centered. The workers guards took up positions in the streets and searched all passersby ostensibly for fire arms but many complained that their money and valuables had been taken. Terrorist methods at Dortmund was preceded by bitter fighting between Communists and blue police. At a nearby mine police were driving off Communists after two police were killed and 11 wounded fatally. Communists left two dead and carried away many wounded.

GERMAN GIRLS PREFER STRIKE PAY TO WORK

Essen, May 28 (AP)—Thousands of women and girls have been thrown out of work due to the closing of factories in the Ruhr as an outcome of French and Belgian occupation, but nevertheless domestics are as difficult to acquire as in the cities of the United States. This is largely due to the fact that the women and girls draw strike funds of one kind, or another either from the municipalities or from the Berlin government which usually amount to more than they would receive for household services.

In many instances the women are furnished lodging and food by the authorities and in addition as part of the passive resistance program they get a weekly allowance of marks as pin money. Near Essen and old German barracks has been converted into a sort of camp for unemployed women, and in this place alone more than 400 women are quartered.

German say there was never a time in recent years when servants were so scarce as today. The French and Belgian officers families now in the Ruhr and Rhineland have the greatest difficulty in requisitioning cooks, maids and nurses, and often have to pay a premium to the German women as an inducement to come and work for them.

RUM FLEET OFF CAPES OF VIRGINIA

Washington, May 28 (AP)—Rum fleet off Virginia Capes has been balked in the opinion of Prohibition Commissioner Haynes who said reports from agents indicated little liquor had been landed. Two lots were put ashore he said but one of these already had been seized and others located.

CLERK AND CUSTOMER CHASED IN CELLAR

New York, May 28 (AP)—After chasing the clerk and customer into a cellar and slamming the trap door on their heads two bandits tortured Joseph Stimmel into giving them the combination of the Rival Shoe Store safe by slashing his cheeks with a knife. They escaped with \$2500.

Mr. and Mrs. J. M. Lancaster and children of Bassett, Va., were visiting Mr. and Mrs. C. L. Saunders, Sunday afternoon.

Seven Killed In Car And Auto Crash Near Detroit, Mich.

A CROSS SECTION OF HOSPITAL OPINIONS ON CLEANLINESS!

One should have one's suspicions about a highly colored and perfumed soap, according to E S Gilmore, superintendent of the Wesley Memorial Hospital one of the largest and most important hospitals of Chicago. He says, "Crude oil gives a dark, colored soap, which can be refined to a certain extent, but as a rule if it is never to be marketed as a toilet soap, it is highly colored and perfumed to cover its peculiar color and odor. Dyes and Perfumes, however do not remove the irritating effect on the skin A highly colored and perfumed soap should be viewed with skepticism.

"Soap to be harmless should be made from a pure fat. If colors and perfumes are used, generally it is to cover the fact that a pure fat was not used. Ordinarily, then, colored and perfumed soaps should be avoided."

"The old slogan 'cleanliness is next to Godliness' rightly applies in some cases," says Charles Crane, superintendent of the New Rochelle Hospital, New Rochelle, New York, "but I suggest that a pure soap rids germs would be a better one.

Perfume does not make a good soap, neither do fancy labels or soap packed in a pretty box. The so-called 'medicated soap' with the exception of doctor's liquid green soap in my estimation is bunk. I think that people should be just as careful in their selection of soap as they are in their selection of food.

Dr. A. B. Denison, director of the Lakeside Hospital of Cleveland, O., is equally pronounced. He says, "The use of colored and perfumed soaps is certainly misleading. The value of the soaps can only lie in their aesthetic appeal and can in no way add to their cleansing qualities. A pure soap, uncolored and unperfumed, with warm water is probably the most satisfactory.

Dr. Malcom T. MasEachern, Director General of the Victorian Order of Nurses for Canada, who is also President Elect of the American Hospital Association, says: "It is quite evident that either medicated or perfumed soaps may be more injurious on account of certain ingredients added, than the simple, pure plain soap.

Miss Alice P. Thatcher superintendent of Christ Hospital, Mount Auburn, Cincinnati, Ohio, takes a decided stand. She says: "We here at Christ Hospital believe in the simplest soap and water cleansing for keeping the skin in a healthy normal condition and for years have used nothing but pure uncolored and unperfumed soaps for bathing purposes.

We are of the opinion that any soap claiming to do more than cleanse and protect the skin from damaging influences, is a soap to be avoided, for never in our experience has it proved to be a panacea for skin troubles."

GERMANS HONOR VOLTAIRE

Berlin, May 28 (AP)—Voltaire is sharing in the Frederick the Great revival which is spreading all over Germany. The books of the eccentric French philosopher who lived so long at San Souci Palace, Potsdam with Frederick the Great are being offered in the bookshops along with the works of the idolized Prussian king.

The general hatred of Frenchmen because of the Ruhr occupation apparently does not extend to Voltaire whose portraits are freely exhibited beside those of Frederick the Great.

RUSSIA EXPORTING GRAIN

Berlin, May 28 (AP)—From 30 to 70 carloads of Russian grain are arriving at Reval daily for trans-shipment to Germany. The consignment are said to be parts of more than 80, 000 tons tagged for this export. They consist mostly of wheat and rye.

Seven auto passengers killed and dozen on Inter-urban car hurt

CAUSE NOW UNDER COUNTY INVESTIGATION

Detroit, May 28 (AP)—With the 7 victims of a crash identified, Oakland county authorities were investigating the circumstances surrounding a collision about 10 miles north of Detroit last evening of an automobile and a southbound inter-urban car. In addition to the 7 dead, all of whom were Detroiters a dozen or more passengers of the inter-urban car were cut by broken glass or were injured when they jumped from the car after it crashed into the automobile.

BANK MAY QUIT VLADIVOSTOK

Vladivostok, May 28 (AP)—The Soviet government, in its endeavor to collect two per cent on all money brought in to the country has demanded considerable sum from the Korean Bank. This institution refuses payment, saying it would rather close up in Vladivostok and move to Harbin. The Yokohama Specie Bank, faced with the same situation is said to be closing its accounts.

The government persists in exacting this percentage, Vladivostok will be without foreign banking facilities.

FORMER GOVERNOR FOLK OF MISSOURI IS DEAD

New York, May 28 (AP)—Joseph W. Folk, former governor of Missouri, and one of the leading men in the Democratic party died here this afternoon.

Mr. Folk was frequently mentioned as a candidate for president. He achieved national fame as boulder procurator.

DECLARE WOMEN CAUSE HALF OF WORLD'S WOES

London, May 28 (AP)—Half the miseries of the western world are caused by women fighting against men, declared Dr. Joseph Oldfield, the eminent British physician, lawyer and author, in a recent London address. In spite of countless ages, of experience, the doctor added, women had failed to excel even in cooking, yet they set up as competitors of men in all walks of life.

"Far more homes are made miserable by envious women," he said than by dominant or brutal men. "Women", continued Dr. Oldfield have been tinklers' on the mandolin and piano thru all the ages but is among men that the creative musicians are found. In the sphere of art, also, Dr. Oldfield said that although women had been busy painting their lips and faces, their nails and eyelashes for countless ages if one ought paintings which would create emotions of the highest and best character for all time, one has to go to paintings done by men.

"Women are initiative and not creative, said the English critic. If search made in Westminster Abbey for records of the great women of England one will find a few actresses and courtesans, but none who were worthy of being commemorated as poets, painters, sculptors, inventors, world pioneers or world benefactors.

Having charged women with neglecting the most sacred duties of motherhood and with having selected the doubtful pleasures of politics and public life in place of it, Dr. Oldfield concluded by saying that men were superior and should be revered and until women were taught to become affectionate junior comrades, in the co-partnership of the sexes, there would be no ease in life.

Mr. and Mrs. A. L. Robertson and Miss Beulah Ward of Greensboro were visitors at the Leaksville Inn, Sunday.
