

A Favorite with MOTHERS

Mother knows that when the child is cross, feverish and fretful, has a coated tongue, pale cheeks and sick stomach that its system needs a thorough cleansing. To accomplish this the bowels must work regularly. Then it is that she looks to her favorite—Hand's Liv-o-lax. It takes the place of Calomel or Castor Oil.

Mothers know that the best laxative to give children to help tone and strengthen the stomach, the liver, the kidneys, and stimulate these organs to a more vigorous activity in a mild, gentle, natural way without discomfort or distress is

when you use too much Choke

For more than two generations our development and manufacturing has been in hourly quest of the finest lubricants for every motor. In nearly every year the great field of motor car lubrication has been enriched by an astounding variety of new problems promptly and successfully met.

Your car chokes, for example. So long as you leave it out you pour raw gasoline down your cylinder walls, washing off the oil, leaving surfaces unprotected, diluting the oil in your crank case. Our experience is that it's better to replace the choke promptly, let the motor rest an instant while the "gas" vaporizes, then use the starter again. Don't keep on pushing with the choker out!

The Polaris Choke shows a long experience to resist dilution. With this choke on your part you can trust it for

Ward's Orange-CRUSH

Lemon-CRUSH—Lime-CRUSH

"Safe on Thirst"

Two strikes, three balls, an Orange-Crush, and "You're safe on thirst." When you've yelled until the old throat gets husky, it fairly aches for a cold, sparkling drink. Here they are—right off the ice—Ward's "Crushes," Orange, Lemon or Lime flavors. Good! Say, the "Crushes" are great. The Krinkly Bottle signifies a Big League drink and lets you know it's genuine Ward's "Crush." Telephone your dealer for a case.

Ward's "Crushes" are made exclusively of natural fruit oils of oranges, lemons and limes. To that have been added pure cane sugar, lime fruit juice, U. S. certified food color, fruit acid and carbonated water.
